

County of Warren, Ohio
2012
Annual Information Statement

in connection with Bonds, Notes and
Certificates of Indebtedness of the County

This Annual Information Statement pertains to the operations of Warren County for the calendar year 2011 (where possible, 2012 data has been provided).

In addition to providing information on an annual basis, the County of Warren intends that this Statement will be used, together with information to be specifically provided by the County for that purpose, in connection with the original offering and issuance by the County of its bonds, notes and certificates of indebtedness.

Questions regarding information contained in this Annual Information Statement should be directed to the Warren County Board of Commissioners, Administration Building, 406 Justice Drive, Lebanon, Ohio 45036.

The date of this Annual Information Statement is August 1, 2012

INTRODUCTORY STATEMENT

The Annual Information Statement in connection with Bonds, Notes and Certificates of Indebtedness of the County of Warren, Ohio (the "Annual Statement"), including the Appendices hereto, has been prepared by Warren County (the "County") to provide, as of its date, financial and other information about the County. The County intends that this Annual Statement be used in conjunction with information to be provided by the County for the original offering and issuance by the County of specific issues of bonds, notes or certificates of indebtedness. Taken together, the Annual Statement and information about a specific offering will serve as the Official Statement for each such issue. Following the distribution of this Annual Statement and concurrently with the original offering by the County of each particular issue of its bonds, notes or certificates of indebtedness, the County will distribute or make available specific information relating to that offering along with material to update what is contained in this Annual Statement.

The County has not bound itself contractually to furnish current information, in the form of a statement such as this or otherwise, on a continuing or regular basis and does not covenant to do so except for specific Continuing Disclosure Agreements entered into for specific transactions (see "*Continuing Disclosure*" herein). From time to time the County may elect to provide such information to parties named on a mailing list maintained by the County for such purpose. Names may be entered on the mailing list by writing to the Warren County Board of Commissioners, Attention: Tina Davis, Clerk, Administration Building, 406 Justice Drive, Lebanon, Ohio 45036.

All financial and other information presented herein has been provided by the County from its records, except for information expressly attributed to other sources. The presentation of information, including tables of receipts from taxes and other sources, is intended to show recent historical information, and is not intended to indicate future or continuing trends in the financial position or other affairs of the County. No representation is made that past experience, as might be shown by such financial and other information will necessarily continue in the future.

References herein to provisions of Ohio law, whether or not codified in the Ohio Revised Code (the "Revised Code"), and the Ohio Constitution, are references to such provisions as they presently exist. Any of those provisions may from time to time be amended, repealed or supplemented.

As used in this Annual Statement, "debt service" means principal (including mandatory redemptions) of and interest on the obligations referred to, and "State" or "Ohio" means the State of Ohio.

Certain information contained in this Annual Information Statement is attributed to the Ohio Municipal Advisory Council (OMAC). OMAC compiles information from official and other sources. OMAC believes the information it compiles is accurate and reliable, but OMAC does not independently confirm or verify the information and does not guaranty its accuracy. OMAC has not reviewed this Official Statement to confirm that the information attributed to it is information provided by OMAC or for any other purposes.

THE COUNTY

Warren County, Ohio, was established by an act of the first General Assembly of Ohio on March 24, 1803. It was named in honor of General Joseph Warren, a physician and major general who died in the Battle of Bunker Hill during the Revolutionary War. Lebanon became the County Seat six months after the County's creation. The County has eleven townships, nine villages, eight cities and covers 408 square miles in the southwestern part of the State along the banks of the Little Miami River. Lying midway between the cities of Cincinnati and Dayton, Warren County is approximately 25 miles from the central business districts of both cities.

COUNTY GOVERNMENT

The County has only those powers specifically conferred upon it by Ohio statutes. A three-member Board of County Commissioners (the "Commissioners"), elected at large in even-numbered years for four-year overlapping terms, is the primary legislative and executive body of the County.

In addition to three Commissioners, the eight other administrative officials of the County listed below are elected for terms of four years each, with the County Auditor and a County Commissioner elected at two year intervals before and after each presidential election year and the other County Commissioners and officers elected each presidential election year. Common Pleas Judges, Domestic Relations Judges, Juvenile Court Judges, and the Probate Judge are also elected on a countywide basis.

County Prosecuting Attorney, David P. Fornshell	01/11	01/13

County-Owned Utilities

The Warren County Water and Sewer Department operates two producing water treatment plants and one major sewage treatment facility. The word "producing" means that water resources are under direct County control and that the County pumps, treats and distributes the water via county-owned networks. The water treatment plant output is measured in gallons-per-day (gpd). The Environmental Protection Agency (EPA) rating of the County's two water treatment plants is a total of 15 million gpd. (EPA rating means total plant output with the largest well out of service). The County also has six water booster stations that stabilize area water pressure.

The major sewage treatment plant was expanded and upgraded in 2011 to accommodate up to 12 million gallons of raw sewage per day. There are also two smaller sewage treatment plants with a service range of 15 thousand to 80 thousand gallons per day.

In 2011, the department employed 67 people (30 in wastewater and 37 in water and had a total payroll of \$2,862,619.

The payroll costs, together with those required for the maintenance and operation of the Water and Sewer Departments' facilities, are paid from the water and sewer charges and inspection fees. These fees and charges are sufficient to pay the cost of operating and maintaining the sewer and water systems, as well as paying debt service on the County sewer and water revenue bonds and complying with the provisions of the trust agreements under which such revenue bonds were issued.

Under the Clean Water Act, publicly-owned wastewater treatment facilities are required to limit the pollutants in their discharges ("effluent limitations"). Effluent limitations are designed to meet certain nationwide technology-based requirements as well as to maintain the water quality of streams into which treated sewage is discharged. The effluent limitations are implemented under a system requiring a permit for each plant to discharge effluent known as the National Pollutant Discharge Elimination System ("NPDES"). The United States Environmental Protection Agency ("US EPA") manages this permitting system except where individual states have received approval for state implemented plans. In Ohio, this permitting system is managed by the Ohio EPA.

Financial Management

The Commissioners are responsible for providing and managing the funds used to support the various County activities. The Commissioners exercise their legislative powers by budgeting, appropriating, levying taxes, issuing bonds, and letting contracts for public works and services.

Permissive Taxes

Property taxes were not only the largest source of tax revenue, they were also the largest source of revenue for the County in 2011. Sales tax revenue was the second largest tax and the second largest source of revenue for the County. The third largest tax was the Motor Vehicle and Gasoline Tax, although this tax did not rank as the third largest source of revenue for the

County. These revenue sources are commonly known as the "permissive" taxes. State law authorizes counties to levy such permissive taxes without a vote of the people but subject to referendum or repeal by initiative. The County currently has in effect two motor vehicle license taxes in the amount of \$5.00 per vehicle, the proceeds of which are used for streets and highways, a 1% sales tax, a hotel lodging tax which amounts to 3% (of a 3% maximum) of gross room rentals, and a 3% real property transfer tax. One of the permissive taxes not presently utilized by the County is the utility service tax, which may be levied at a rate not to exceed 2% of utility service charges.

A county is permitted to levy up to a 1% sales tax on retail sales in the county, subject to certain exceptions. The sales tax may be levied for the purpose of providing additional revenue for county general fund purposes, or to support criminal and administrative justice services in the county, or both. This county sales tax may be authorized by the board of county commissioners at any time in increments of one-quarter up to the maximum of 1%, but the authorization of this sales tax is subject to referendum and a vote of the voters. The County is currently levying a 1% sales tax.

The Ohio Revised Code permits a county to levy up to an additional one-half of 1% sales tax on retail sales in a county, subject to certain exceptions, for the following purposes: financing a convention center or providing additional revenue for a county transit authority, for general fund purposes, for permanent improvements under the jurisdiction of the Community Improvement Board or for, in the case of a county with a population of 175,000 or less, the acquisition, construction, equipping or repair of any specific permanent improvement. This additional one-half of 1% sales tax can be levied in one-quarter increments and is subject to voter approval, except when it is levied solely to provide additional general fund revenues, and is in addition to the 1% county sales tax that may be levied without voter approval but is subject to referendum, described above. The County is not currently levying the additional one-half of 1% sales tax. The County's sales tax revenues generated \$28,359,838 in 2011 compared to \$27,206,742 in 2010, a 4.2% increase.

A county may levy certain liquor and cigarette taxes for the purpose of financing a sports facility. The use of these taxes is subject to the approval of county voters. The County does not currently levy liquor or cigarette taxes.

Property Taxes

This information may be found on pages 69 and 70 of the Warren County, Ohio Comprehensive Annual Financial Report for the Fiscal Year ended December 31, 2011.

Management of County Facilities

The Commissioners are responsible for the proper management of most County facilities, including various courts and correctional, administrative and governmental facilities.

Personnel Administration

Personnel costs account for the largest share of the County's general fund expenditures. There are a number of independent boards and commissions which administer a large variety of

services within the County, including, among others, the Department of Human Services, the Veterans Service Commission, the County Health Department, the Children Services Board, and the Board of Mental Retardation and Developmental Disabilities.

Some of these boards and commissions are appointed in their entirety by the Commissioners and are subject to the complete fiscal control of the Commissioners; others are independent of fiscal control by the Commissioners. There are also instances in which the Commissioners do not have appointment powers but do have fiscal responsibility. For example, the Commissioners have financing, funding, budgeting and accounting responsibilities for the Board of Elections and for various courts but do not make appointments to the Board of Elections or the courts.

Employee Relations

As of December 31, 2011, Warren County employed approximately 1,167 full-time and part-time employees in various job classifications. The 2011 annual gross payroll was \$55,988,214.

Under the Collective Bargaining Law, public employees of the State and many local subdivisions (including the County) have the right to organize, bargain collectively and have union representation. The employer must recognize and grant exclusive representation rights to an organization approved by the State Employment Relations Board ("SERB"). SERB approval may be granted either after fulfillment of the requirements listed in its regulations or by majority approval of the employees at a SERB supervised election. The employer has the right to insist on an election. Any agreements under the Collective Bargaining Law must be in writing, must specify a grievance procedure and cannot exceed three years in duration.

The Collective Bargaining Law designates those actions which constitute unfair labor practices and prescribes procedures for their remedy. It also sets forth dispute resolution procedures for contract negotiation, including arbitration or other mutually agreeable methods. If an impasse persists after conciliation procedures, then police, fire, correctional officers, and other public safety employees must take the dispute to binding arbitration and do not have the right to strike. All other employees have the right to strike after 10 days written notice.

[REMAINDER OF PAGE INTENTIONALLY LEFT BLANK]

The County has labor agreements with the following employee unions:

<u>Union</u>	<u>Type of Personnel Covered</u>	<u>Number of Employees Covered</u>	<u>Date Contract Commenced</u>	<u>Date Contract Expires</u>
Ohio Council Eight American Federation of State, County, Municipal Employees, AFL-CIO	Highway Workers**	19	01/01/2009	12/31/2011

Ohio Association of Public School Employees	BDD*	18	01/01/2011	12/31/2013
Warren County Dispatch Association	Dispatchers	32	11/22/2011	12/31/2014

* Vehicle Operators and Bus Assistants.

** Currently being negotiated

The County is not aware of any other union representation activities taking place in the County at this time.

The County has experienced no employee strikes or work stoppages in its history and the County considers labor relations with its employees to be good. The Public Employees Collective Bargaining Act, as enacted by the Ohio General Assembly, expressly recognizes the rights of collective bargaining for most government employees, including such employees' right to strike, and permit agreements requiring binding arbitration of unresolved grievances, agency shops and dues check-off provisions.

County Services and Responsibilities

Welfare and Public Assistance

The Warren County Job & Family Services, Office for Human Services administers the public welfare functions within the County. The Department is headed by the Director of Human Services, who is appointed by the Commissioners. The Department is advised by the community based Planning Committee.

The Department, which is one of the largest in County government with 40 full-time employees and an annual payroll of \$1,260,744 as of December 31, 2011, is divided into major units, each of which is responsible for several functions.

The Social Services Division, either directly or through agreements with other community agencies, provides services such as adult self-support services. The Income Maintenance Division deals with Ohio Works First, Medicaid, food stamps and other financial relief programs.

Much of the state and federal funding flows directly from those governments to welfare recipients in programs in which the County performs various administrative tasks such as eligibility determination.

The Medical Assistance program administered by the Department includes the Federal Medicaid program, the State General Assistance Medical program and the State Disability Assistance Medical program. The Department's role in these programs includes the determination of the eligibility for benefits.

The Social Services programs administered by the Department include the Federal Title XX program, State and Federal grant programs, and locally funded projects, such as the Work Activities Training program designed to provide training and to help individuals to find employment.

The Department manages the direct delivery of such services as the investigation of neglect and abuse of adults, protective services, and education advocacy-collaboration with other agencies in helping children and their families to have more successful education experiences.

Children's Services

The Warren County Children's Services Department is staffed by 42 employees, 37 full time and 5 part-time. The 2011 salary expense was \$1,566,242. The department provides family and children's services such as adoption, group care, foster home care and protective services dealing with intra-family abuse problems.

Developmental Disabilities

The Warren County Board of Developmental Disabilities is a State mandated seven member agency charged with the task of ensuring the availability of programs, services and support to individuals with developmental disabilities. Available programs include: early intervention, school to work transition, case management, family support services, respite care, supported living assistance, volunteer programs, adult services, nursing services, vocational training, supported employment, level 1 and individual options local waiver funding and administration and transportation services. Presently, there are 205 employees providing these services. In addition to federal and state dollars, the program is funded by a 4.0 mill County continuing levy. The Warren County Board of Developmental Disabilities has received both the Ohio Department of Developmental Disabilities State Accreditation and the Commission on Accreditation of Rehabilitation Facilities (CARF) Accreditation.

The other major County public assistance organization is the County Veterans Services Administration, which is staffed by 8 employees and funded by the County General Fund. The 2011 entitlement was \$2.8M which supports an operating budget of \$1,503,071. The administration provides temporary relief for the clients and assists veterans and their dependents in securing materials and information needed to apply for benefits under programs administered by the Federal Veterans Administration.

Mental Health Recovery Services of Warren and Clinton Counties provide mental health and alcohol and drug addiction services by contracting with three major provider agencies. The

program is staffed by 6 full time and 2 part time employees, including the Executive Director, and operates on a 1.0 mill levy. It had a budget of \$16,189,818 for the fiscal year beginning July 1, 2011 and ending June 30, 2012. The Board was established pursuant to and operates under Chapter 340 of the Ohio Revised Code. It is controlled by an 18 member board, with ten members appointed by the County Commissioners, four members appointed by the Ohio Department of Mental Health and four members appointed by the Ohio Department of Alcohol and Drug Addiction Service.

Public Health

There are four urgent care facilities in the County. There are also a total of 27 hospitals in surrounding counties, which provide inpatient service to Warren County residents. Because the County is served by two major interstate systems (I-71 and I-75), no portion of the County is farther than thirty minutes away from specialty care, including the world-renowned Children's Hospital Medical Center and Shriners's Burns Institute, located in nearby Cincinnati.

In addition, the Atrium Medical Center (formerly Middletown Regional Hospital) health and technology campus is located approximately a quarter mile east of Interstate 75 at the Middletown exit. The first phase of the 200-acre campus has been completed and includes a new hospital, an attached professional office building, a cancer center and the Greentree Health Science Academy.

Also, Bethesda Arrow Springs built a new 100,000 square foot medical facility just north of Interstate 71 off the Route 48 bypass. Comprehensive services include: a 24-hour emergency department, primary and specialty care physician offices, imaging services, including radiology and diagnostics, laboratory services, outpatient physical therapy, and a pharmacy.

The Warren County Combined Health District provides numerous services to any County resident including child and adult health clinics, immunizations, prenatal, TB, overseas travel, home health care as well as plumbing, water and food service inspections, nuisance, household sewage, well water, pools and plumbing. The District also provides birth certificates for anyone born in Ohio and death certificates if the death occurs in Warren County.

The Warren County Combined Health District (the "District") is run by a nine member Board of Health and is directed by the Health Commissioner. Four members are elected by the District Advisory Council, consisting of officials from each municipality in the County, the chairman of the board of township trustees of each township, and one County Commissioner. Four members are appointed by the contracting cities and one member is appointed by the District Licensing Council, which consists of representatives for businesses licensed by the Health Department. The District consists of five divisions: nursing, plumbing, vital statistics, administrative services, and environmental health. It operates as a separate district pursuant to Chapter 3709 of the Ohio Revised Code and is not controlled by the County Commissioners.

There is a County-wide levy to support the General Health District, which has been authorized through tax year 2019 at a rate of 0.50 mills (see Tax Tables A and B herein) and the County Commissioners do not appropriate funds for its' operation. The District has 53 full and 11 part-time employees with 2011 total expenditures of \$4,586,903.

ECONOMIC INFORMATION

General Description

Business and Industry

Warren County is located between the cities of Cincinnati and Dayton in Ohio. Warren County residents are components of the work force in three major metropolitan statistical areas outside the County: Cincinnati, approximately 25 miles to the south in Hamilton County; Dayton, about 25 miles to the north in Montgomery County; and the Fairfield, Hamilton and Middletown area, approximately 10 miles to the west in Butler County.

Warren County

Currently there are more than 255 industrial firms in the County employing approximately 13,400 persons. The County is still experiencing residential growth as well as industrial expansion. Agriculture is still an important part of the economy, especially in the northern, northeastern and southeastern sections of the County. The six leading cash crops are soybeans, corn, cattle, hogs, dairy, and greenhouse/nursery products.

Tourism is taking a leading role in the local economy with attractions such as Kings Island, Great Wolf Lodge, Western & Southern Financial Masters & Women's Open Tennis, Little Miami Scenic River and Bike Trail, Caesar Creek State Park and Fort Ancient. Waynesville, located in the northeast part of the County, has been recognized by USA Today as "The Antiques Capital of the Midwest."

Industry has taken advantage of over 36 miles of interstate highway that border Warren County by locating primarily along the I-75 and I-71 corridors. These transportation corridors give both businesses and residents easy access to the metropolitan centers of Cincinnati and Dayton. The proximity of the two major metropolitan centers and the accessibility provided by the interstate highways are a driving force behind the growth taking place in the County.

Southwestern Ohio ranks as one of the top growth areas in the country with Warren County being a growth leader in the region. Metropolitan Cincinnati's northerly expansion into Warren County, particularly the rapid development along Interstate 71's northeast corridor in Mason and Deerfield Township, has contributed to Warren County's economic development. At the same time Greater Dayton's southerly expansion has prompted strong commercial growth along Interstate 75 in Franklin and Clearcreek Townships, as well as in Springboro. Many of these businesses are high technology, research and development, and service related industries.

There are several major industrial facilities located within the County. Some of these major facilities include: L-3 Communications; Cintas Corporation; Leggett & Platt; Luxottica Retail, Mitsubishi Electric Automotive; Portion Pac, Inc.; Rheinstahl; Amtex, Inc.; ADVICS Manufacturing Ohio; Pioneer Industrial Components; Makino Incorporated and Cengage Learning, Inc. In addition, in the last few years, several major service facilities have located within the County creating approximately 8,000 jobs. The major service facilities are as follows: Anthem & Anthem Prescription; Macy's Credit Services; Proctor & Gamble Health Care Research Center and Siemens Business Service, Inc.

Additional economic information may be found on pages xii-xiii and 15-16 of the Warren County, Ohio Comprehensive Annual Financial Report for the Fiscal Year ended December 31, 2011.

Cincinnati

A transportation and industrial center since the early development of the territory west of the Appalachians, the Cincinnati metropolitan area has developed into a major center for insurance and finance companies; wholesaling and retailing; e-commerce and emerging new economy companies; government installations, medical services, and service industries, as well as manufacturing. Approximately 46% of the area's employment is in the service sector, with about 15% in manufacturing and construction. Among its prominent manufacturing groups are: transportation equipment, which includes aircraft engines and auto parts, food and kindred products, metal working and general industrial machinery, chemicals, fabricated metal products, printing and publishing. The Metropolitan Area is also the location of major federal government installations, including a regional postal service center, an internal revenue regional service center, a federal district court, a center for environmental research and an occupational health and safety research center.

Several Fortune 500 corporations are headquartered in the Cincinnati region, including Proctor & Gamble, Kroger Company, Macy's Inc, Fifth Third Bancorp, Ashland, Omnicare, Western & Southern Financial, General Cable Corporation, and American Financial Group. Six more local firms rank in the Fortune 1000: AK Steel Holding, Cincinnati Financial, Cintas, Convergys, and Scripps Network Interactive. Additionally, 360 Fortune 500 companies have a presence in the region.

This diverse economic base continues to be a source of stability for the area, protecting it from severe peaks and valleys in the business cycle. Fifty percent of the nation's population is within 600 miles of CVG, and over 1.5 million workers live within 50 miles of downtown Cincinnati. The Cincinnati Metropolitan Area is a growing center for international business, with approximately 1,000 firms engaged in international trade generating approximately \$6.7 billion in sales to markets outside the U.S. annually. Within the past decade there has been an influx of foreign investment and this trend is expected to continue. Foreign-Trade Zone status is available in the Metropolitan Area to assist firms engaged in international trade to lower import duty and inventory tax expenses, and over 300 foreign-owned firms operate in the region.

Dayton

Dayton's geographic location in southwestern Ohio makes it accessible to some of the largest markets in North America. Interstates 70 and 75 intersect just north of Dayton. It is this intersection that is the nucleus of a national network of 25 interstate highways and major state routes. Dayton's key position at the "Crossroads of America" makes it an ideal center for highway transportation, tying it to more than 300 cities and towns in one of the nation's largest 90-minute highway markets. The I-675 bypass has increased access to both Cincinnati and Columbus, as well as the communities east and south of Dayton, including Warren County.

Dayton's industrial base has a high concentration in the automotive sector evidenced in part by the fact that more than one third of all the Japanese plant locations in Ohio are within a

50-mile radius of Dayton, most of which are auto-related. In December 2009, General Motors Corporation shut down their SUV division in Moraine, Ohio eliminating approximately 1,500 positions. General Motors continues to partner with Isuzu at their DMAX facility in Moraine, Ohio, but at a reduced scale due to the reduction in demand for heavy trucks. Delphi currently operates only one assembly plant in Dayton, down from six before entering bankruptcy protection. That facility, located north of metro Dayton in Vandalia, Ohio, is currently being operated through a joint venture arrangement.

In 2012, the City of Dayton and the Dayton International Airport announced a multi-million dollar project to enhance offerings for area travelers. Monies allocated to the project will afford the airport to decommission an unused terminal as well as reconfigure parking features. Additionally, the Airport is welcoming a new tenant to the region in Southwest Airlines. Southwest Airlines recently acquired Air Tran and offers flights routed through Denver allowing area travelers to connect to Southwest Airlines destinations through this process. Coupled with recent upgrades to the Airport's parking garage and rental car area, these improvements are allowing the Dayton International Airport to see a continued increase in their passengers.

The City of Dayton and Montgomery County continue their efforts to attract businesses within their respective jurisdictions. In 2010, Montgomery County announced the construction of a new Caterpillar Distribution facility that will employ nearly 1,000 personnel. Tech Town, a high tech redevelopment park located at the former Frigidaire site in Downtown Dayton, has two newly constructed buildings and several tenants. In addition, the CareSource building in Downtown Dayton was completed during 2009. This project, partly financed through the Dayton-Montgomery County Port Authority, brings a new office tenant to the downtown market. Additionally, the opening of the Austin Boulevard Interchange, and the newly started construction at the West Carrollton Interchange, affords Montgomery County the opportunity to market two new interchanges with multiple land/office park offerings.

Lebanon

Although the region has experienced a slowdown in new construction and increases in unemployment, Lebanon has continued to experience slight industrial growth, resulting in over 3,000 new manufacturing jobs in more than 45 industries since 2000. Lebanon's greatest assets continue to be its high-tech industrial parks and infrastructure, and its wealth of developable land. There are currently 400 plus acres of prime developable land available for new industrial and commercial development. Lebanon has also been actively upgrading and replacing its roadways, sewer, water, and electrical systems throughout the city.

FedEx Ground, a leader in the delivery of materials, announced and broke ground in 2012 on a new 178,000 square foot facility in the City of Lebanon. This facility will service the Southwest Ohio market for FedEx Ground and will employ approximately 125 staff members. The facility will cost nearly \$9.5 million to construct and is expected to be complete in early 2013.

Nibco, Inc., a global supplier of flow control products, moved its polyethylene tubing extrusion and distribution operation in Franklin, Ohio from a 40,000 square foot manufacturing space in the E-Beam Services building into the vacant 122,000 square foot building formerly occupied by Aero Fulfillment, also located in the Lebanon Commerce Center. The consolidation

of Nibco's piping and tubing operation will enable the company to improve efficiency and create room for future expansion.

In 2011, Mane announced the construction of a 70,000 square foot US headquarters and research facility, as well as an additional 150,000 square foot manufacturing facility to be located in Lebanon.

Kiesland, Ltd. completed construction of a new 38,400 square foot speculative building located in the Kingsview Industrial Park. The building is situated on 5.25 acres with expansion capacity up to 80,000 square feet. The new manufacturing facility is designed to appeal to a single-occupant industrial user for manufacturing, office or a combination thereof.

PE-Services, an engineering firm, relocated its Fairborn, Ohio operations into its recently renovated commercial space (formerly the Good Housekeeping building) in Lebanon. The firm provides mechanical, electrical, plumbing and fire protection engineering for a range of retail, hospitality, and specialty projects across the United States. The move to Lebanon provides the company with a centralized location between Dayton and Cincinnati where it can grow its market exposure.

Mental Health & Recovery Center expanded its Oregonia Road clinic and care center into two newly constructed buildings on Fujitec Drive in the Lebanon Commerce Center. The new clinic is housed in a 13,858 square foot building and the new care center is located in a 10,918 square foot building adjacent the clinic.

In 2010, E-Beam Services announced the construction of a 26,000 square foot addition to their facility. This addition would double their capacity and the company's workforce. In addition, E-Beam invested in a second electron accelerator and other machinery/equipment to enhance their presence in the market.

Mason

Mason's business community employs an estimated 25,000 persons, almost the equivalent of the City's nighttime population of 30,712. Five of the largest employers in Warren County are located in Mason. Mason's ten largest employers provide work for more than 8,200 persons. Overall, it is estimated that there are more than 700 businesses that operate within Mason's 18 square miles.

Mason continues to attract quality companies that are relocating or expanding. In choosing Mason, companies cite prime location along the interstates, availability of land for development within established business parks, rising property values, the established core of high-tech businesses, available workforce and an exceptional level of support and services with a favorable business environment widely promoted in the region. Tax incentives targeting high-tech businesses and light industry are strong inducements as well. Nearly one hundred high technology, advanced manufacturing and industrial businesses are located in Mason. Additionally, interest in the marriage between tourism, Warren County's top industry, and business development, continues to be a focus for Mason.

In the last fifteen years, Mason has become home to numerous national companies and has one of the region's largest complements of international businesses. These companies are a significant segment of greater Cincinnati's community of more than 30 firms from Japan, Western Europe and Canada.

In an effort to further enhance the City's foreign investment strategy, Mason joined CincinnatiUSA Partnership's Regional Economic Development Council (REDC) in 2001. This regional marketing partnership has lent remarkable strength and leverage to Mason's work on both national and international recruitment projects. Mason is one of thirteen members, and only one of two that sit on the Regional Board of Governors, a group that comes together to make business recruitment and marketing decisions for the Greater Cincinnati region. This alliance has facilitated extended contact with national and international corporate site selectors and brokers and has leveraged partnerships with news organizations in major metropolitan areas. As a result, the City and its corporate partners have gained national exposure and future new investment interests in targeted industries.

The CincinnatiUSA organization also strengthens a methodology of continued relationship maintenance with valuable contacts in Europe and Asia, giving Mason the opportunity to tell the unique stories of its corporate investors to companies outside the U.S. that are looking to start new U.S. operations. In 2009 the City negotiated a contribution renewal through 2013 that combined two investment outreach organizations: CincinnatiUSA Partnership for Economic Development and CincyTechUSA. This new agreement provided Mason with access to membership on the Board of Governors and partnership with the CincyTech management team. The CincinnatiUSA and CincyTech partnerships help the City reach emerging markets, entrepreneurs and the information technology, biosciences and advanced manufacturing business sectors. These partnerships continue to bring significant value, exposure and return on the City's investment in business recruitment marketing.

The year 2011 marked the City's sixth year of operating with the Mason Port Authority. This economic development tool has already provided advantageous flexibility with financial recruitment options. It has helped retain over 300 jobs and allowed the City to attract more than \$40 million in new capital investment which will result in the creation of over 550 new jobs. The recruitment options provided by the Mason Port Authority will open new avenues for marketing the City's industrial property on State Route 741.

Mason's reputation as a serious business environment is confirmed by corporate decisions to consolidate here and move jobs and investment to the City. New investments reported in 2009 were over \$36 million as 137,000 square feet of new corporate and industrial space were added, bringing over 675 announced new jobs to the community. While the new square footage numbers were nearly the same as the previous year, Mason's diversified environment has facilitated a climb in new investment numbers within the industrial and corporate community. New commercial investment was down 30.5% and announced new jobs were up 3.2% from 2008. The combined 2007 through 2009 revenues were nearly \$117 million with over 467,000 new square feet and over 1,700 new jobs.

Several large developments underway during the previous years have recently opened, including the \$15 million Prasco Pharmaceutical Campus and the \$4 million nationally

recognized Lindner Center of Hope Behavioral Health Sciences and Research and Development Center. Announcements for future development include several large developments now underway or complete: a \$5.2 million Lindner Center of HOPE Brain Imaging facility; Noritake, the \$1.6 million investment for the AssureRx expansion; Proctor and Gamble Iams Division relocation; AssureRx Bio Sciences Company Lab Expansion; a \$25 million TriHealth Community Center Project, a \$10 million expansion of Intelligrated, a \$26 million expansion of Stress Engineering and a \$10 million Tennis Center Expansion at the Lindner Family Tennis Center.

Springboro

Springboro features a diversity of industry that provides stability and growth to the area. Springboro offers a prime location because of its easy access to raw materials and a large concentration of consumers and highly trained prospective employees in two metropolitan markets.

Growth and development within the City of Springboro is expected to exceed the national and state average due to the City's physical location along Interstate 75 between Cincinnati and Dayton. The United States Census Bureau officially counted population in the City of Springboro on April 1, 2000 as 12,380, and the Census Bureau statistics as of the 2010 Census indicate the population to be 17,409. The main factor contributing to this growth over a sustained period was an abundance of available building sites offering appealing terrain, location, amenities, small town atmosphere and low crime rate. In 2009, only 19 single family residential construction permits were issued. This decrease from prior years is consistent and reflective of projections commissioned in 2002 that residential build-out would occur within a 5-7 year time frame and place population figures at build-out at approximately 23,000.

Springboro is an important center for manufacturing and service industries. Metal fabrication, electronics assembly, and distribution comprise a substantial portion of the economic base in this region. Gayston Corporation, one of the City's ten largest employers, fabricates extruded aluminum products. Pioneer Industrial Components assembles audio components for the automobile industry, Advanced Engineering designs solutions for interiors of domestic and foreign vehicles and Cobasys develops nickel-hybrid batteries for BMW and GM vehicles. These three companies together generate the second greatest number of jobs in the City at over 500. If you combine the employment of Springboro's three electronics parts distributors, Dalco Electronics, MCM Electronics and Parts Express International, this industry generates over 250 jobs in the City. Add to that Victory Wholesale Grocers, a national grocery distributor and Klosterman Bakery, a bread distributor, Springboro's prominence as a distribution center becomes evident.

Over 600 businesses call Springboro home, including corporate headquarters, branch offices and bustling distribution and retail/service establishments.

Since the City annexed the South Tech Business Park in 1997 and began marketing the Stolz Industrial Park and Commercial Way Industrial Park, industrial growth in Springboro has blossomed. In November 2004, the City of Springboro purchased the remaining 89 acres of land at the South Tech Business Park on the northern edge of the City. During that time, the City has engaged Miller-Valentine to create a master plan for that acreage to determine how and where

new building sites, road, utilities, etc., can be developed to attract new or existing businesses looking to expand within the City. Three new businesses have purchased land from the City and have built, or are currently building, facilities. These three businesses are: Crucible Materials, a fabricator of steel products; Renegade Corporation, which creates composite materials that are on the Joint Strike Fighter and one of only two companies in the United State certified by DOD for their particular composite; and Children's Medical Center. The City has witnessed the addition of over 842 new jobs and an additional payroll worth an estimated \$39.4 million over the past five years. The City is currently working with Mills-Morgan to develop the Ascent, a thirteen building office park, which will be marketed to business prospects interested in locating near the newly opened Austin Boulevard on Interstate 75.

The City continues to be an attractive location for a wide range of retail shops as well. The City maintains an active role in preserving and enhancing its historical downtown. In 1999, the City's downtown historic district was placed on the National Register of Historic Places. The City continues to be an active participant in state and regional downtown and tourism development programs.

The City approved an Enterprise Zone Agreement with Riverain Medical Group, a Maryland company that manufactures equipment for early diagnosis of lung cancer. The company employs 30 people with an annual payroll of approximately \$2,000,000. The City also approved an Enterprise Zone Agreement amendment and Industrial Revenue Bond for Printing Services Company to allow the company to purchase a \$4 million high-tech printing press which will enable the company to further compete in the marketplace.

In January 2010, it was announced that Thaler Machine Company will relocate to the City of Springboro and bring with it 111 jobs with an annual payroll of almost \$5,000,000. Thaler Machine Company designs and makes parts for many aerospace programs throughout the country.

Transportation

Warren County benefits from its unique location along I-75 and I-71, which gives speed and reliability to an expanded labor market pool, a wide range of suppliers and a large customer base that can be served with same-day deliveries. Warren County and its transportation partners realize the importance of multiple transportation modes and continue to invest in infrastructure to meet the needs of current and future development.

The County is served by three railroads: Norfolk Southern Railroad, CSX Transportation and RailAmerica. These rail lines integrate into international lines with service in the continental U.S., Canada and Mexico. Piggyback and container facilities are available in Cincinnati with service provided by these rail carriers, as well as two other Class I carriers. Additionally, Warren County is home to Franklin Yards, a rail transload facility offering regional companies the opportunity to utilize rail options to move freight to market.

Water transportation is available in Cincinnati, which lies on the 15,000 mile Great Mississippi River inland waterway and intracoastal canal system. As a major Ohio River port with 36 commercial water terminals, Cincinnati is the country's fifth largest inland port with 523 million tons passing through Cincinnati on the Ohio River annually. Towboats also handle coal,

petroleum, iron, steel, fertilizer, chemicals and automobiles. There are eight barge lines based in the area with 36 barge lines serving the area.

The Cincinnati/Northern Kentucky International Airport (CVG) and the Dayton International Airport provide County residents access to major scheduled air carriers, both passenger and freight. Both airports are within 60 minutes driving time from the County on major interstates. Fifty percent (50%) of the nation's population is within 600 miles of CVG. CVG provides services to over 10 million air passengers each year with over 650 daily departures to over 70 cities including London, Paris, Frankfurt, Amsterdam and Rome. In addition, County residents have access to the Lebanon-Warren County Airport, Dayton General South Airport, Lunken Airport, and several smaller air fields in the County and surrounding Montgomery, Butler and Hamilton Counties.

Dayton is the nation's top 90 minute air travel market, reaching 55% of the United States population. Situated on over 4,000 acres of land surrounded by farmlands and low-density housing, Dayton International Airport offers three runways: a 10,900 foot primary runway, a 7,000 foot parallel runway and an 8,500 foot crosswind runway. Dayton International is one of the few airports in the Country with a dual-runway system, allowing simultaneous operation on the main and crosswind runways, which contributes to on-time arrivals and departures.

Dayton International Airport provides service to over 2.5 million passengers each year and offers 62 flights a day, non-stop service to more than 19 major domestic markets, and connecting service to an unlimited number of domestic and foreign cities. Major markets are served both nationally and internationally. Dayton International Airport is also the home of the annual Vectren Dayton Air Show, one of the largest air shows in the country.

Interstates I-71 and I-75 provide access to three other major interstates (I-275, I-74 and I-70) within 30 minutes driving time. In addition, U.S. Routes 22 and 42 and State Routes 28, 48, 63, 73 and 123 traverse the County. There are approximately 290 miles of County roads and 366 bridges facilitating transportation. The Cincinnati area is served by 125 motor carriers and 47 freight forwarders, and the Dayton area has 91 freight carriers and six freight forwarders. Twenty major metro markets are located within 400 miles of the County. Bus transportation is provided by Greyhound and Trailways; Cincinnati, Dayton and Hamilton County also all have local bus transit systems.

Utilities

The County is supplied with most of its gas and electricity by Duke Energy and Dayton Power and Light Company (DP&L). Cincinnati and Dayton are near the center of one of the nation's largest concentrations of electrical power. The plants of Duke Energy are also connected to other utility companies in the Ohio River Valley and a regional network of high voltage lines, thereby providing substantial reserve capacity.

The Water and Sewer Department is a regional water supplier that owns and operates two water treatment plants with a total Ohio EPA rated capacity of 15 million gallons per day. The treatment plants treat water from wells located along the Great Miami and Little Miami aquifers. The water is distributed from four booster pump stations through 500 miles of water mains to over 25,000 customers. Fire protection and daily storage is provided from nine elevated storage

tanks with a total storage volume of 13 million gallons, and four ground storage tanks with a total storage volume of 9 million gallons.

The County Water System serves the Villages of Corwin, Harveysburg and Maineville as well as portions of Clearcreek, Franklin, Hamilton, Turtlecreek, Union and Wayne Townships. In addition to the water furnished by the water treatment plans, the County purchases water from the City of Springboro, the Village of Waynesville and the City of Cincinnati. The County has emergency water interconnections with neighboring cities and villages including Cincinnati, Franklin, Lebanon, Middletown, Springboro, South Lebanon and Waynesville.

The County has one major sewage treatment plant which was expanded and upgraded in 2011 designed to accommodate up to 12 million gallons of raw sewage per day. There are also two smaller sewage treatment plants with a service range of 16 thousand to 80 thousand gallons per day. The County also has agreements with Metropolitan Sewer District, Franklin Regional Wastewater Treatment Corporation and the Village of Waynesville to provide sewage treatment for some of the unincorporated areas of the County. There are approximately 19,000 sewer customers and 350 miles of sewer lines.

The Water and Sewer Department Personnel survey new water and sewer construction and maintain a computerized network of water and sanitary sewer structures.

Solid waste collection is provided by private haulers and disposed of in privately-owned landfills.

Sprint, Ameritech, Cincinnati Bell, Inc., TDS Telecom and Verizon all provide telephone service in Warren County.

Public Safety Services

Fire protection and emergency medical services in the County are provided by four city fire departments, nine township fire departments, one joint fire district, one joint E.M.S. district and one certified private fire department (Kings Island). In addition there are two city fire departments, one joint fire district and one private fire company predominantly located in other counties, but whose boundaries and service areas project into Warren County. These services operate from 16 fire and/or E.M.S. stations located throughout the County (including JEMS & Kings Island). All of these fire departments have mutual aid response agreements within the County and other nearby municipalities. There are 147 full-time fire fighters and 590 paid part-time and/or volunteer fire fighters employed within the County. Crews are on duty 24 hours a day at 18 of the stations. The general fire insurance rating in the County is Class 6.

Police protection consists of the Sheriff's Office, the Ohio State Highway Patrol, five city police departments, four village police departments, the Ohio Department of Natural Resources, and two township police departments.

Emergency Management, Regional Communications/9-1-1 Center and Homeland Security operations are performed by the County's Department of Emergency Services. The department is staffed as such: Communications/9-1-1 has 32 dispatchers, 4 dispatch supervisors, 2 administrative personnel, 2 Emergency Management and Local Emergency Planning personnel

and the Director, which oversees the department. Several employees within the department administer the Homeland Security program.

Hazardous Materials response is governed by the Council of Government and a contract with the Greater Cincinnati HazMat Cooperative.

The communications/9-1-1 center provides emergency dispatching for 14 fire, one joint EMS district and 12 law enforcement departments, the Warren County Drug Task Force, the County Probation Department, and the County Dog Warden.

The Sheriff's Office employs 6 administrators, including the sheriff; 35 road patrol deputies, including supervisors and a training officer; 13 court services deputies, including supervisors; 8 detectives, including supervisors and evidence room manager; 68 corrections officers, including supervisors and 1 corrections training officer; 25 deputies, including supervisors and detectives for Deerfield Township; 5 deputies, including a supervisor for South Lebanon; 2 K-9 officers and 21 office support staff including jail, computer tech and custodial staff.

There are 4 detectives, 1 investigative assistant, and 2 part-time Fleet Manager assigned to the Warren County Drug Task Force, and 2 detectives assigned as Children's Services Investigators.

The Sheriff's Department also offers several community service programs, including bicycle patrol, crime prevention, self-defense, business and vacation checks. A school resource officer is assigned to the Career Center and two DARE Program deputies are assigned to a number of schools throughout the County. Law enforcement agencies within Warren County all participate in a countywide mutual aid agreement.

Print and Broadcast Media

All of the major TV networks and several independent facilities, including several educational television channels totaling 13 stations, are available to Warren County from Dayton and Cincinnati as well as Miami University in Oxford. In addition, 13 A.M. and 17 F.M. radio stations are available in the County. Cable television is available in certain areas of the County while satellite programming is an option to all residents. Major daily and Sunday papers from Cincinnati and Dayton are available in the County in addition to several local daily and weekly newspapers.

Culture, Recreation and Education

Warren County has a top performing education system with a higher percentage of "excellent" school districts than all but two of Ohio's 88 counties. Four universities and six colleges with a combined enrollment in excess of 85,000 serve the area.

Total	<u>1,055,694,200</u>	<u>100.00%</u>

Source: Ohio Environmental Protection Agency and University of Cincinnati. Data compiled 1999-2003

General

In 2012, Warren County is experiencing a statutory sexennial, on-site reappraisal of real property, whereby the true value of real property will be adjusted to reflect current market values as of January 1, 2012. The laws of the State of Ohio presently require that the County Auditor reassess real property at any time he finds that the true or taxable value thereof has changed, and in the third calendar year following the year in which a sexennial reappraisal is completed if ordered by the State Commissioner of Tax Equalization (the "Commissioner"). Such a triennial update, which is not accomplished by an on-site inspection, was completed during 2009.

Taxable value of real property may not exceed thirty-five per cent (35%) of its true value. The County Auditor must determine the true value of real property and improvements thereon, or the current agricultural use value of agricultural land, and reduce that value by the percentage established by the Tax Commissioner. Certain real property declared by the property owner and deemed to qualify as "forest land" under Section 5713.22 of the Revised Code is taxed at fifty percent (50%) of the local tax rate.

Ad Valorem Tax Rates

2010	2011	0	0	0	36,410	1,432	3.93

Pursuant to Ohio law, the current and delinquent taxes and special assessments are billed and collected by County officials for the County and other taxing or assessing subdivisions in the County.

Included in the above figures for ad valorem property taxes "Billed," "Collected," and "% Collected" are certain real property tax relief payments made by Ohio from State revenue sources; such payments are not made with respect to special assessments. "Homestead" exemptions are made available for the elderly and handicapped. Ohio law provides for the payment to taxing subdivisions from State funds of an amount equaling approximately 10% (12½% with respect to owner-occupied residential property) of ad valorem real property taxes levied, for real property that is not intended primarily for use in a business activity, thereby reducing the tax obligation of any real property owner in any given year by an equivalent percentage. As an indication of the extent of such State assistance as applied to the County's tax collections, the elderly/handicapped homestead payment made by the State, and included in the above 2011 tax collection figures to the extent retained by the County General Fund was \$243,975 and the "rollback" payment made by Ohio to the extent retained by the County General Fund was \$1,414,319.

There is no one taxpayer that accounts for a significant percentage of any of the delinquencies identified above.

The following table indicates the property tax revenues of the County's General Fund (including homestead, rollback and personal property tax exemption payments reimbursed by the State of Ohio), exclusive of any other County Fund:

<u>Tax Year</u>	<u>Collection Year</u>	<u>Real Property</u>	<u>% Change Over Prior Year</u>	<u>Personal Property</u>	<u>% Change Over Prior Year</u>	<u>Total</u>	<u>% Change Over Prior Year</u>
2006	2007	\$8,330,578	19.69%	\$416,967	(35.25)%	\$8,747,545	15.04%
2007	2008	8,747,934	5.00	208,271	(50.05)	8,956,205	2.38
2008	2009	11,880,254	26.37	53,765	(287.37)	11,934,019	24.95

OTHER MAJOR COUNTY GENERAL FUND REVENUE SOURCES

Described under this caption are major sources of revenue for the County's general fund in addition to ad valorem taxes. See [Appendix A](#) for further information regarding other sources of revenue for the general fund and other funds.

Sales Tax

This information may be found on pages xii and S22-S23 of the Warren County, Ohio Comprehensive Annual Financial Report for the Fiscal Year ended December 31, 2011.

Local Government Fund*

The Ohio Local Government Fund was created by statute and is composed of designated State revenues which are distributed to each county and then allocated among the county and cities, villages and townships located in that county. As of January 1, 2008, the State's funding formula was changed to consolidate the Local Government Revenue Assistance Fund, an additional unrestricted fund created by the State legislature, into the Local Government Fund. The County retains approximately 44% of the total funds received. The following table shows the receipts and amounts received and retained by the County under these programs:

<u>Year</u>	Total Received by <u>County</u>	Total Retained by <u>County</u>
2007	\$8,039,745	\$3,601,047
2008	7,960,321	3,045,256
2009	6,889,189	2,950,594
2010	7,038,372	2,993,962
2011	7,035,339	2,952,711

Source: Warren County Auditor

*The State Biennial Budget for Fiscal Years 2012 and 2013 reduces the monthly allocations made to the Local Government Fund beginning August 1, 2011. Between August 2011 and June 2012, the allocation will equal 75% of the fiscal year 2011 allocation, and between July 2012 and June 2013, such allocation will equal 50% of the 2011 allocation, with additional amounts allocated to ensure a minimum distribution to each County of \$750,000 per fiscal year.

Federal Funds

The County expends federal funds for a variety of major and non-major federal programs. Total federal assistance, as reported on the County's Schedule of Federal Financial Assistance (available September 30 following each fiscal year), approximated the following:

Federal Funds	
2007	\$4,527,570
2008	4,435,471
2009	12,636,840
2010	15,750,355

2011 Not yet available

The County allocated, some of these federal funds and additional state funds to the following programs:

Workforce Investment Act		Community Development Block Grant	
2007	\$690,120	2007	\$762,252
2008	763,342	2008	441,326
2009	1,836,184*	2009	438,739
2010	1,591,606	2010	476,667
2011	Not available	2011	Not available

* The increase in 2009 is attributable to funds received from the ARRA, Rapid Reponse and National Emergency Grant Funding. Funding is allocated by program year (7/1 through 6/30 of each year) so some amounts are estimated.

Revenues from County Properties

The County received the following amounts in rental payments from the leasing of County land and space in various County buildings during the last five years:

Rental Receipts

2007	\$126,248
2008	178,148
2009	154,924
2010	135,693
2011	177,613

Source: Warren County Office of Management & Budget(RE 101-1225).

County General Fund

The following table shows the County's General Fund cash balance for the last five years and the most recent month:

<u>Year</u>	<u>General Fund Cash Balance</u>
2007	\$17,207,089
2008	18,694,663
2009	19,130,001
2010	23,513,931
2011	23,427,065
June 1, 2012	24,771,413

Source: County Auditor's Office.

COUNTY DEBT AND OTHER LONG TERM OBLIGATIONS

The following describes statutory and constitutional debt and ad valorem property tax limitations that apply to the County, and presently outstanding and projected bond and note indebtedness and certain other long term financial obligations of the County.

In previous years the County has issued a number of industrial revenue bond issues and other conduit bond issues for healthcare and housing projects. No schedule for these bonds is provided because such bonds do not represent an obligation of the County. These bonds are payable solely from rentals and other revenues derived from the lease, sale or other disposition of the projects financed thereby.

No bonds have been authorized by the electors that have not yet been issued.

The County is not and has never been in default on any of its debt obligations.

Statutory Direct Debt Limitations

This information may be found on page S30 of the Warren County, Ohio Comprehensive Annual Financial Report for the Fiscal Year ended December 31, 2011 and Appendix C hereto.

Indirect Debt Limitations

Pursuant to Ohio law, a maximum tax levy of ten mills per dollar of assessed valuation (tax list) can be levied on any property without a vote of the people. The first charge against these ten mills is the debt service requirements on all limited tax general obligation bond and note issues of all overlapping political subdivisions. These ten mills are available for the debt service requirements of both limited tax bonds and notes for which tax levies are actually made to pay principal and interest, and limited tax bonds and notes supported by revenues or municipal income taxes and not actually levied for unless such other sources become insufficient. Calculations with respect to compliance with the ten-mill limitation are made for the year in which pledged millage for unvoted general obligation bonds (or notes) of all overlapping political subdivisions is the highest. When notes are involved, theoretical debt service requirements for the bonds in anticipation of which such notes are issued are used in calculating aggregate pledged millage within the ten-mill limitation, and an assumed rate of interest is employed for the bonds whose issuance is so anticipated. A ten-mill certificate dated July 1, 2012, is attached as Appendix D.

Because bonded indebtedness in Ohio cannot be incurred or renewed unless provision is made for levying taxes to pay debt service on the indebtedness (except in the case of indebtedness payable solely from revenues or special restricted-purpose tax levies), the ten-mill tax limitation represents an indirect limitation on a political subdivision's capacity to incur debt within applicable direct debt limitations. Capacity within the ten-mill limitation is available to be pledged for debt service by overlapping political subdivisions having unvoted debt capacity on a first-come, first-served basis, and because of the disparity in the sizes of the tax lists or duplicates, a political subdivision with a relatively small tax list whose territory overlaps that of a political subdivision with a relatively large tax list can use up indirect debt capacity available to

both through the issuance of a given principal amount of debt much more quickly than could the latter subdivisions issuing the same amount of debt.

A constitutional amendment designed to remove this indirect debt limitation was defeated by the electors of the State at the primary election on June 8, 1976.

At the present time, the City of Franklin is the taxing subdivision in the County with the highest potential millage requirements for debt service on its own unvoted general obligation debt, the amount theoretically required for the County, the City of Franklin, and the Carlisle Local School District being approximately 6.0695 mills. The County is using 0.5888 mills of that total. This leaves 3.9305 mills free to be used by the County or its overlapping subdivisions for additional unvoted general obligation bonds.

Overlapping Debt

The net overall debt for Warren County and all overlapping political subdivisions is set forth in Debt Table A.

Within the boundaries of the County are nine local and eight city school districts, eight cities, nine villages, 11 townships and five vocational school districts, as well as parts of several cities, villages, school districts and vocational school districts, all of which are separate political subdivisions with operating and debt service funding independent from that of the County. Various contractual and other arrangements not material except as may be noted elsewhere herein are in effect among or between the County and certain of the other political subdivisions.

Boards of Education of the school districts cannot incur more than one-tenth of one percent (0.1%) of their respective tax lists as general obligation debt without approval by a majority of the voters of the respective school districts (Section 133.06, Revised Code). Such Boards of Education may request voter approval of general obligation debt not in excess of nine percent (9%) of the tax list of the school district. Under State law, before seeking voter approval, a Board of Education is required where applicable to receive the consent of the Ohio Department of Taxation and the State Superintendent of Public Instruction in accordance with policies adopted by the State Board of Education.

Cities and villages within the County are subject to the direct debt limitation imposed by Section 133.05 of the Ohio Revised Code, which provides that a municipal corporation's voted and unvoted debt may not exceed ten and one-half percent (10½%) of its tax list, and that its unvoted debt may not exceed five and one-half percent (5½%) of its tax list.

Certain classes of debt are exempt from these limitations, chief among which are: special assessment debt; notes issued in anticipation of current revenues or taxes or for certain emergency purposes; revenue bonds for various purposes; self-supporting debt for utility and quasi-utility purposes; voted urban redevelopment bonds not exceeding two percent (2%) of the issuer's tax list; self-supporting debt for recreational facilities; and debt covenanted to be paid from lawfully available municipal income taxes.

Under Revised Code Section 133.09, the net indebtedness of a township, exclusive of special assessment debt, county bonds issued in anticipation of the levy or collection of township

tax levies, notes issued in anticipation of the levy or collection of township tax levies, notes issued in anticipation of current revenues or taxes or for certain emergency purposes, inheritance tax refund bonds (with the approval of the State Auditor's Office), and other debt not here material, shall never exceed five percent (5%) of the township's tax list, and, with the exceptions noted, no such indebtedness shall be incurred unless authorized by vote of the electors of the township.

Debt Table A and net debt in the County may be found on pages xvii, S26 and S27 of the Warren County, Ohio Comprehensive Annual Financial Report for the Fiscal Year ended December 31, 2011.

Bond Anticipation Notes

There were no Bond Anticipation Notes outstanding or issued in 2011.

O.W.D.A. Contracts

Grant Anticipation Obligations

The County currently has no grant anticipation obligations outstanding.

Other Long Term Obligations

The County has no significant long-term obligations, including any lease obligations, other than its pension obligations discussed below and the debt obligations discussed above.

Further information regarding pension obligations may be found on pages 77-79 of the Warren County, Ohio Comprehensive Annual Financial Report for the Fiscal Year ended December 31, 2011.

RATINGS

This information may be found on pages xvii and 14 of the Warren County, Ohio Comprehensive Annual Financial Report for the Fiscal Year ended December 31, 2011.

CONTINUING DISCLOSURE

The County plans to meet all of the continuing disclosure requirements to be in compliance with Securities and Exchange Commission Rule 15c2-12, as amended (the "Rule"). The County enters into a separate Continuing Disclosure Agreement or Certificate for each transaction which is subject to the provisions of the Rule. Currently under the terms of those agreements most annual financial information will be available by August 1 following the end of the fiscal year. See the Official Statement circulated for a specific issue for the exact continuing disclosure covenants of each issue. The County is in compliance with its continuing disclosure obligations.

June 21, 2012

To the Citizens of Warren County, Ohio:

I am pleased to submit the Comprehensive Annual Financial Report (CAFR) for Warren County, Ohio (the "County") for the fiscal year ended December 31, 2011. The report has been prepared in conformity with generally accepted accounting principles (GAAP) and guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA).

Introduction

The preparation of this report represents a commitment by Warren County to conform to nationally recognized standards of excellence in financial reporting. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County, especially the County Auditor's Office. To the best of our knowledge and belief, the enclosed data, as presented, is accurate in all material respects, is presented in a manner designed to fairly set forth the financial position and results of operations of the County and includes all disclosures necessary to enable the reader to gain an understanding of the County's financial activity.

The Reporting Entity:

The accompanying basic financial statements comply with the provisions of GASB Statement No. 14, "The Financial Reporting Entity," as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units" in that the financial statements include all the organizations, activities and functions of the primary government (the County) and legally separate entities (component unit) for which the County is financially accountable. Production Services Unlimited, an adult workshop and the Warren County Transportation Improvement District have been included as discretely presented component units of the County due to the significant relationship with the County.

A thorough presentation of the County's reporting entity is contained in Note 1 of the basic financial statements.

***Letter of Transmittal
For the Year Ended December 31, 2011***

County Organization and Services:

Warren County is located in the southwestern part of the state, approximately 20 miles north of Cincinnati and 15 miles south of Dayton. It is also located within a day's drive for 65% of the U.S. population. Its 400 square mile area serves a residential population estimated at 212,693 (2010 U.S. Bureau of Census). The County includes 11 townships, 10 villages and 7 cities. The County has only those powers conferred upon it by Ohio statutes. A three member Board of County Commissioners is elected at large in even numbered years for overlapping four-year terms. The Board of County Commissioners serves as the taxing authority, the contracting body, and the chief administrator of public services for the County.

The Board of County Commissioners prepares and adopts the annual operating budget and makes the annual appropriation measure for expenditures of all County funds. In addition to the Board of County Commissioners, the offices of the County Auditor and County Treasurer are included in the category of general government and are of particular importance to the financial affairs of the County.

The County Auditor is elected to a four-year term and serves as the chief fiscal officer for the County and the tax assessor for all political subdivisions within the County. According to state law, a complete reappraisal must be conducted every six years as well as a triennial update every third year between reappraisals. Upon collection by the County Treasurer, the County Auditor is responsible for distributing certain taxes to various political subdivisions including municipalities, villages, townships, school and library districts, special districts and county agencies.

As chief fiscal officer, the County Auditor must certify that funds for all contracts and obligations of the County have been lawfully appropriated and are available or in the process of collection before the contract or obligation is binding upon the County. In addition, the Auditor is also the central disbursing agent, who by the issuance of County warrants distributes funds to creditors in payment of liabilities incurred by the County. The Auditor is also responsible for the County payroll and has other statutory accounting responsibilities. He is, by state law, Secretary of the County Board of Revision and the County Budget Commission and the Administrator and Supervisor of the County Data Processing Board.

The County Treasurer is also elected to a four-year term and is the custodian of all County funds. The Treasurer is responsible for collecting all tax monies, applying payments to the appropriate tax accounts and investing all available idle County funds as specified by Ohio law. The Treasurer is the distributing agent for expenditures authorized by the Board of County Commissioners upon the Auditor's warrant. The Treasurer must submit daily reports showing receipts, payments and balances to the County Auditor. The Treasurer is a member of the County Board of Revision and the County Budget Commission. The Budget Commission plays an important part in the financial administration of the County government, as well as all political subdivisions throughout the County.

The other elected officials serving four year terms are the Prosecuting Attorney who serves as the third and final member of the County Budget Commission, the Clerk of Courts, the Recorder, the Sheriff, the Engineer, the Coroner and two County Court Judges. Five Common Pleas Court Judges are elected to six-year terms.

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2011

The County provides its citizens with a wide range of services that include human and social services, health and community assistance related services, law enforcement, civil and criminal justice system services, road and bridge maintenance and other general and administrative support services. The County also operates a water distribution system, a wastewater collection and treatment system, and a storm water management system which are accounted for as enterprise funds.

Economic Outlook

Population:

Ranked as the 2nd fastest growing County in Ohio, behind Delaware County, north of Columbus, Warren County has experienced a 34.3% increase in population since the 2000 census of 158,383 persons and an 86.7% increase in population since 1990. Our 2010 population was reported by the US Census Bureau at 212,693 and we are the 13th largest County in Ohio. Warren County is also ranked as the 98th fastest growing County in the nation out of 3,141 counties. Last year, the city of Mason was ranked #24 and the City of Springboro was ranked #41 by CNN Money Magazine in their list of the top 100 best places to live in the United States. The City of Lebanon was chosen as the Best Hometown by Ohio Magazine.

Warren County has been gaining in population by about 5,000 to 6,000 people annually until the past 3 years when our growth has tapered to 2,000-3,000 annually. Warren County has a 79.9% home ownership rate. That is the highest rate in the Dayton-Cincinnati Region while the State average is 69.8%. Despite our population increase, 62% of the land in Warren County is still in farmland, open/green space, and designated parks.

Education:

Warren County has a top performing education system with a higher percentage of "excellent" school districts than all but two of Ohio's 88 Counties. Serving the area are four universities and six colleges with a combined enrollment in excess of 85,000. Sinclair Community College, centered in Dayton, opened the Warren County Mason Courseview Campus in September of 2007. Through partnerships with other area universities, residents are now in closer proximity to a college campus that offers classes for associate, bachelor and master degrees from Sinclair, University of Cincinnati, Wright State University, Miami University and Wilmington College. The County Commissioners offer a \$10 per credit hour discount to all County residents enrolled at the Sinclair Courseview Campus. Sinclair's enrollment has now exceeded 1,300 students and they recently purchased 32 acres of adjoining land to begin expansion of their classrooms to begin in the fall of 2012.

Per Capita Income

Warren County has the 5th highest per capita income in the state at \$40,536 (2011) and the 2nd highest median household income of \$71,274 (the State Median is \$47,358). Warren County's 2006-2010 poverty rate was reported at 6.0% (compared to 14.2 % statewide average). The 2011 annual average unemployment rate was 7.6% against the state average of 8.6%.

WARREN COUNTY, OHIO

**Letter of Transmittal
For the Year Ended December 31, 2011**

A summary of Warren County's growth is demonstrated in the following tables:

<u>Year</u>	<u>Number of County Building Permits Issued</u>	<u>Projected Cost</u>
2001	2,446	\$253,755,166
2002	2,414	277,780,036
2003	2,582	297,523,925
2004	2,889	306,680,539
2005	2,761	436,059,744
2006	2,261	394,932,273
2007	1,990	363,240,260
2008	1,472	308,926,694
2009	1,282	200,431,947
2010	1,283	175,266,801
2011	1,183	199,906,991

Source: Warren County Building Inspection Department

In 2011, assessed values of new construction remained relatively unchanged overall, reflecting a .08% decrease. Warren County's Residential new construction increased 4.7% following a 2010 decrease of 42.8%. Industrial new construction increased by 16.0% following a 71.5% decrease in 2010. Commercial new construction saw a decline of 19.6% following a 2010 decrease of 71.5% as shown in the following table.

Warren County New Construction Assessed Values

<u>Tax Year</u>	<u>Residential</u>	<u>Industrial</u>	<u>Commercial</u>	<u>Total</u>
2001	\$156,540,920	\$3,086,230	\$18,040,820	\$177,667,970
2002	166,345,470	1,205,920	14,659,910	182,211,300
2003	172,025,920	2,100,170	13,153,070	187,279,160
2004	186,940,160	4,390,530	21,936,110	213,266,800
2005	191,779,120	1,844,250	17,258,530	210,881,900
2006	216,569,450	1,131,490	20,247,540	237,948,480
2007	189,199,200	3,088,200	16,010,380	208,297,780
2008	123,984,600	1,435,780	42,954,840	168,375,220
2009	85,442,230	3,460,030	20,518,460	109,420,720
2010	48,882,970	986,150	12,965,610	62,834,730
2011	51,214,920	1,144,450	10,424,590	62,783,960

Industrial/Commercial new construction assessed values do not include abated or exempted property

Communities

Waynesville, located in the northwest part of the County has been recognized by USA Today as “The Antique Capital of the Midwest.” The annual Waynesville Sauerkraut Festival attracts over 300,000 visitors over 2 days in October each year. Caesar Creek State Park is also located near Waynesville. The park consists of 7,940 acres of beautiful terrain and a 2,830 acre lake with 5 boat ramps. In 2010 the park completed a \$2.1 million expansion of its Visitor’s Center. The park offers nearly 70 miles of trails for horseback riding, mountain biking and hiking and also includes a campground with 287 campsites and a 1,300’ sand beach. A new \$4 million full service marina with 300 boat slips is slated to begin construction by ODNR at the lake in 2012 with completion in 2014.

Lebanon is the home of many historic interests in the County. The Golden Lamb, Ohio’s oldest inn, dating from 1803 and boasting an extraordinary guest list of many famous Americans including Henry Clay, Mark Twain, Charles Dickens and eleven Presidents of the United States. The Glendower State Memorial, a Greek Revival Mansion which was constructed in the early nineteenth century, is a showplace of elegant Empire and Victorian furnishings. The Warren County Historical Society Museum, acclaimed as one of the nation's outstanding County museums, has displays of early life of the area, a Shaker exhibit and a library with an unusually fine collection of genealogical information.

Lebanon is known for its many antique stores, specialty shops and its quaint historical atmosphere. Walking tours through historical districts are available throughout the year. Lebanon’s Christmas Festival which features Ohio’s largest Horse Drawn Carriage Parade with 160+ units has become a seasonal favorite attracting 70,000+ for the one-day event. Other Lebanon favorites include the Applefest, Blues Fest, a Scenic Railroad Passenger Train and the Lebanon Raceway that offers spring and fall harness racing with pari-mutuel wagering and simulcasting of the races.

Lebanon also hosts one of the largest YMCA’s in the world and it offers virtually all forms of indoor and outdoor athletic facilities. The 125-acre site includes a facility with meeting rooms, pools, gym, tennis courts, health club facilities and sports fields.

Springboro is rich in history and arts. Recognized as perhaps the most traveled route to freedom, hundreds, maybe thousands, of runaway slaves passed through Cincinnati and Warren County on the Underground Railroad. The mostly Quaker communities of Springboro hosted numerous secret stops along the trail. Much of this history has been preserved through the collection of documents, maps, and artifacts at the Springboro Historical Society Museum. Groups can schedule guided tours with costumed re-enactors or pick up a walking tour brochure from the Springboro Chamber of Commerce and experience living history with a self-guided walking tour of the community’s 27 documented safe houses.

History meets art in the city of Franklin. With three indoor murals and six outdoor murals – there’s a reason the town is known as the “city of murals.” Driving tours of the murals also reveal a glimpse at the first three-story building west of the Alleghenies and the third Roebling suspension bridge in the county.

***Letter of Transmittal
For the Year Ended December 31, 2011***

Sales Tax Receipts and the General Fund

While Warren County, at this point, has weathered the Country's economic crisis, we are starting to feel the effects of declining revenue. In 2011, Warren County continued to be financially conservative and projected a \$5.0 million decline in General Fund revenue. With this projected decline in revenue the Board of Commissioners asked all General Fund departments and those supported by the General Fund to help stay ahead of this economic downturn by making conservative budget decisions. In addition, the county is prepared to make further funding reductions as we become aware of anticipated funding cuts from the State and Federal Governments as they work to reduce their deficit spending to balance their budgets.

The County's 1% sales tax revenues generated \$28,359,838. This is an increase of 4.24% over 2010. The current trend through March 2012 reflects a continued increase in sales tax revenues. For a period of time, the growth in sales tax revenue allowed the County to gradually phase out its share of property taxes. The County's inside millage entitlement is 2.57 mills per \$1,000 of property tax value. The County reduced its levy in 1997, again in 1999 and further reduced it to zero in 2000. In 2004 the County reinstated 1.50 mills and in 2008 the millage was increased to 2.0 mills and in 2010 the County began collecting the full 2.57 mills in an effort to offset the decline of investment income and various fees collected by the General Fund.

Travel and Tourism

Warren County, Ohio is an entertaining, energetic, and enriching travel destination, where visitors can experience a wide variety of attractions, events, history and outdoor activities. "Ohio's Largest Playground" isn't just a slogan, it is a promise. Located between Cincinnati and Dayton, visitors can do more in a 30-mile radius than anywhere else in Ohio. It's a big County—come out and play!

Approximately seven miles southeast of Lebanon on the east bank of the Little Miami River is Fort Ancient, a state memorial operated by the Ohio Historical Society. Fort Ancient is a renowned North American archaeological site and features evidence of two outstanding prehistoric American Indian cultures dating back more than 2000 years. Fort Ancient is a designated National Historic Landmark and is on the finalist list for World Heritage Status. The 764-acre memorial park offers a museum, hiking, picnicking, scenic vistas and shelter houses.

Warren County offers bike trails and hiking trails along the Little Miami Scenic River, as well as several canoe liveries that offer a variety of canoe trips. The 70-mile area along the Little Miami River, which is mostly in Warren County, has been designated a Scenic River Area by the federal government. Whether by bike, rollerblade, hiking boot or horseback, the paved and mostly shaded Little Miami Scenic Trail offers a beautiful setting for catching a breath of fresh air.

While Warren County's anchor attraction is most notably Kings Island Amusement Park, we have an abundance of activities to choose from including; TPC Riverbend Golf Course, The Golf Center at Kings Island, LaComedia Dinner Theater, and the Great Wolf Lodge with 400 themed rooms and 78,000 sq. ft. indoor water park brings additional visitors to its year-round indoor water park resort and conference center. The Ozone Zipline Adventures, the largest canopy zipline tour in the Midwest offers visitors the opportunity to soar across 2 1/2 miles of tree-tops. Two new half mile lines actually cross the river at a 25 story building height for an amazing view.

***Letter of Transmittal
For the Year Ended December 31, 2011***

While 2011's economy presented some challenges to the hospitality industry, over all it was a good year as both lodging tax collections and occupancy were up 6% over the previous year. With a reported 7.8 million visitors to the area, the regional economic impact of these visitors is \$863 million. Tourism provides 10,510 tourism-related jobs that generate personal income of \$245.6 million per the biennium Ohio Travel Association report of 2009. The number of tourists and the economic impact continue to hold as the County's leading industry.

Major Initiatives and Future Outlook

Warren County has several major initiatives in process that will result in a continued strong and vibrant future outlook.

- Our County Engineer's Office completed over \$4.9 million worth of roadway improvements in 2011 and has an estimated \$81.7 million of scheduled and anticipated road improvements to be completed in 2012 through 2017. There are an additional \$300 million of roadway improvements identified by the County Engineer that are being prioritized for future years. Noteworthy improvements include widening of Butler-Warren Road between Tylersville Road and Bethany Road (20' widening of a 1 ½ mile section of Bethany Road east of Butler-Warren Road). The County Engineer is also working with the Warren County Transportation Improvement District on the following: (A) Working on a series of improvements to the Mason-Montgomery Road/Fields-Ertel Road I-71 Interchange area; (B) Studies to determine the best way to complete the Western Road Interchange on I-71; (C) Completion of the SR 73 Interchange on I-75; and (D) the continuation of ODOT's improvements to the I-75 corridor between I-275 and Dayton.
- During the past four years of economic slow down in new development, the County Commissioners have taken this opportunity to review all Growth Management Plans to assure quality development, preservation of open space and new economic resources that sustain a high quality of life. The following documents have all been completely updated: Land Use and Thoroughfare Plans, Subdivision Regulations, Access Management, Storm Water Management, Build-out capacity studies for our roads, water and sewer, Parkland Survey and Master Plan and a comprehensive re-write of the County's Zoning Code and maps was completed and approved in 2011.
- The County held competitive bidding for the bulk supply of electrical power to the Water & Sewer Department's facilities that include 94 electrical accounts that have an electrical load of approximately 4,000 kW and more than 15 million kWh annually. Competitive bids were received from three electrical suppliers and the County entered into a three year supply contract with the low bidder, allowing the County to realize a substantial savings.

WARREN COUNTY, OHIO

Letter of Transmittal

For the Year Ended December 31, 2011

- As Warren County remains focused on retaining its rural ambience character and quality of life with its growing population, the County Commissioners have helped increase our County Park System by 1,310 acres over the past ten years. In 2011, there were 364 parks (17,711 acres) countywide representing an overall 6% open space of all 400 square miles in our County. Thanks to a partnership with Turtlecreek Township Trustees, Otterbein Home and a grant from Ohio Department of Natural Resources, in 2008, the County made a contribution towards the purchase of a 310 acre park from AK Steel that offers new amenities of boating, fishing, golfing, picnic area and ball fields. When the economy improves, the County is also entertaining the possibility of initiating a countywide Park Levy based on the positive feedback from our recently completed Park Survey. This levy could be shared with local governments that own and operate park land in Warren County to avoid duplication of competing levies. No park levies currently exist for the County.
- The demand for public services in Warren County continues to grow, driving the need for facilities expansion. In 2009 the Health and Human Services Building underwent a \$4.4 million renovation. Current projects include \$2.8 million for energy efficiency improvements to the Common Pleas Court building. A future 90,000 square foot expansion to the Common Pleas Court building estimated at \$13.7 million and a 22,000 square foot expansion to the Probate-Juvenile facility estimated at \$5.9 million will likely remain on hold until after 2012. However, in an effort to further delay this costly expansion, efforts are being made to maximize office space in all existing buildings through renovation that will provide about 12,000 sq. ft. of space for our Common Pleas Courts.
- In 2011, the Board of Commissioners remained focused on revitalizing economic development efforts and coordinating with the existing economic development initiatives from our various cities and townships to create more visibility and productivity in new job creation. From 1992 to 2002, our Economic Development office helped bring in more than 20,000 new jobs and realized an average of 350 new business starts annually. 80% of these projects involved manufacturing, research and development or service sector companies who pay high wages and sustain the quality of living we are so proud of in Warren County. In 2011, our Economic Development Office reported the creation of 1,849 new jobs and the retention of 1,875 existing jobs representing 1,126,541 square feet of new/taken down space with \$70,858,564 in capital investment.
- With the approval of the Ohio Bureau of Adult Detention in July 2011 the Warren County Sheriff's Department began double bunking inmates in specified areas of the jail. Prior to the double bunking Warren County was incurring an annual cost of \$1.2 million to house inmates (in excess of our capacity) at the Butler County Jail. The contract with Butler County provided for a minimum of 50 jail beds per day at a cost of \$55 per prisoner per day. The implementation of the double bunking is saving the county \$100,000 each month. In addition, during the last half of 2011 there were 1,000 less prisoner transports which ultimately increases our monthly savings. Additional measures for management of the jail population are coordinated with the Judges through alternative sentencing and early release programs. Increased funding has been provided to Community Corrections and Pre-Trial Services to support these programs. These aggressive steps are assuring that we maximize the use of space without jeopardizing the safety of personnel and inmates. These efforts are allowing the County more time through a down economy to plan for the permanent construction of a new wing in the next 5-7 years.

***Letter of Transmittal
For the Year Ended December 31, 2011***

- In 2012 some new and exciting tourism opportunities include:
 - Kings Island Park will greatly expand its waterpark, rebranding it “Soak City.” The expansion will include a new “action river,” a new wave pool, and other amenities, while the entire footprint of the waterpark will be increased to provide patrons with more space.
 - The Western & Southern Open, the biggest summer tennis event in the nation and the nation’s oldest tennis event still played in its original city, will expand its food court to add more vendors and space for fans as the third phase of a three-phase construction project.
 - Ozone Zipline Adventures at YMCA Camp Kern has added two zip lines which are 1,100 and 1,400 feet in length and span over the Little Miami River some 200 feet in the air. Ozone Zipline Adventures is the largest zipline tour in the Midwest, and includes some of the longest single zipline runs in the continental U.S.

Financial Information

This is the ninth year the County has prepared financial statements following GASB Statement 34, “Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments.”

As part of this reporting model, management is responsible for preparing Management’s Discussion and Analysis (MD&A) of the County. This discussion appears after the Independent Accountants’ Report in the financial section of this report. MD&A provides an assessment of the County’s finances for 2011. The analysis focus in the MD&A is on major funds.

Fiduciary Funds

Fiduciary funds account for assets held by Warren County in a trustee capacity or as an agent for individuals, private organizations and other government units. The fiduciary funds which Warren County maintains are agency funds and an Unclaimed Money fund which is a private purpose fund. At December 31, 2011, assets in agency funds totaled \$343,404,276 and assets of the Unclaimed Money fund totaled \$445,506.

Internal Control, Budgetary Control and the Accounting System:

Development of the County's accounting system included substantial consideration of the adequacy of the internal accounting controls. Internal accounting controls are designed to provide reasonable but not absolute assurance that:

1. The County's assets are protected against loss and unauthorized use or disposition; and
2. Reliable financial reports for preparing financial statements and providing accountability for assets are maintained.

***Letter of Transmittal
For the Year Ended December 31, 2011***

The concept of reasonable assurance states that internal controls should be evaluated applying the following criteria:

1. The expense associated with providing the internal controls should not exceed the benefits likely to be derived from their implementation; and
2. The evaluation of the offsetting costs and benefits involves estimates and judgment by the County Administration and members of the Auditor's office.

All internal control evaluations occur within this framework. It is the belief of the administrative and financial management personnel that the County's financial controls adequately safeguard existing assets and provide reasonable assurance of the proper recording of financial transactions.

The Accounting Department of the County Auditor's Office is responsible for the auditing and analysis of all purchase orders and vouchers of the County. Accounting Department personnel review the purchase orders and vouchers to ensure the availability of monies in the proper funds and accounts prior to the certification and payment of approved invoices. The County utilizes a fully automated accounting system as well as an automated system of controls for capital assets, accounting and payroll. These systems, coupled with the review and examination performed by the County Auditor's Office, ensure that the financial information generated is both accurate and reliable.

Budgetary appropriations for the operation of the County's departments are established through the adoption of the annual appropriation resolution by the Board of County Commissioners. All disbursements and transfers of cash between funds require appropriation authority from the County Commissioners. Budgets are controlled at the object level within the department or organizational unit, by function and by fund. Purchase orders are requested by the department head and encumbered prior to their release to vendors. A computerized certification system allows the Auditor's Office to ascertain the status of appropriations prior to authorizing purchases.

Accounting System and Budgetary Control

The County's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Day-to-day accounting records are maintained on a basis other than GAAP. For financial reporting purposes, the accounting records are converted to the modified and full accrual basis for all applicable funds. On the modified accrual basis, revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. On the full accrual basis, revenues are recognized when measurable and earned; expenses are recognized when incurred.

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2011

The Board of County Commissioners adopts the annual budget for the County by March 31. All disbursements and transfers of cash between funds require appropriation authority from the Commissioners. Budgets are controlled at the major object level within a department and fund. All purchase orders must be approved by a majority of the Board of Commissioners, then the necessary funds are encumbered and the purchase order released to the vendor. Those purchase orders which exceed the available appropriation are rejected until additional funds are secured. The accounting system used by the County provides daily updates to expenditure and encumbrance files making available to all users details on year-to-date expenditures and encumbrances versus the original appropriations plus any additional appropriations made to date. These files are used to ascertain the status of a division's appropriation prior to authorizing additional purchases.

The basis of accounting and the presentation of the various funds utilized by Warren County are fully described in Note 1 of the basic financial statements.

Debt Administration

At December 31, 2011, gross general obligation bonds outstanding, excluding debt reported in the enterprise funds, totaled \$6,861,844. Ratios related to the County's debt position are presented below:

Net General Obligation Bonded Debt	\$6,861,844
Net Debt Per Capita	\$32.26
Net Debt to Assessed Value	.120%
Net Debt to Estimated Actual Value	.0434%

The outstanding debt is primarily related to repayment of the proceeds of monies used to construct or renovate water and sewer facilities operated by the County, and to improve our road and bridge infrastructure including the design and engineering of modifications to the I-71 Fields-Ertel Road/Mason-Montgomery Road interchange and the I-71 Western Row Road interchanges.

The County maintains an underlying "Aa1" rating from Moody's Investors Service, Inc. All bonds of the County are general obligation debt and are backed by its full faith and credit, except water and sewer bonds, which are backed by revenues of utility billings and the Tax Increment District Revenue Bond, which is secured solely from the revenues generated from the service payments in lieu of taxes.

Other Information

Independent Auditor's Opinion

The County had an independent audit of all funds performed by the State Auditor for the year ended December 31, 2011. The opinion of the Auditor appears in the financial section of this report.

For the Year Ended December 31, 2011***

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Warren County for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2010. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such comprehensive annual financial reports must also satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements.

A Certificate of Achievement is valid for one year only. Warren County has received a Certificate of Achievement for the last 20 years (1991 - 2010). We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA for consideration for a Certificate of Achievement for 2011.

Acknowledgments

The publication of this report is a continuation of the level of professionalism the Warren County Auditor's office has strived to attain and it significantly increases the accountability of Warren County government to its taxpayers.

The preparation of this comprehensive annual financial report would not have been possible without the cooperation of the County elected officials and their staffs. I would also like to recognize the following people for their exceptional contribution to this effort.

Robyn Crisenbery, Auditor's Office, Director Financial Operations	
Patti Taulbee, Auditor's Office	Dora Ruff, Auditor's Office.
Brenda Quillen, Auditor's Office	Donald J. Schonhardt and Associates, Inc.
Marty Edwards, Auditor's Office	Gary Browning, Data Processing Director

Sincerely,

Nick Nelson,
Warren County Auditor

INDEPENDENT ACCOUNTANTS' REPORT

Warren County
406 Justice Drive
Lebanon, Ohio 45036

To the Board of County Commissioners:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Warren County, Ohio (the County), as of and for the year ended December 31, 2011, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the discretely presented component unit, Production Services Unlimited, Inc. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the County, is based on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. The other auditors audited the financial statements of Production Services Unlimited, Inc. in accordance with auditing standards generally accepted in the United States of America and not in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Warren County, Ohio, as of December 31, 2011, and the respective changes in financial position and where applicable, cash flows, thereof and the respective budgetary comparisons for the General and Board of Development Disabilities Funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 3, during the year ended December 31, 2011, the County adopted the provisions of Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 21, 2012, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with

Government Auditing Standards. You should read it in conjunction with this report in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the County's basic financial statements taken as a whole. The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information provide additional analysis and are not a required part of the basic financial statements. The financial section's combining statements, individual fund statements and schedules are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These statements and schedules were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Dave Yost
Auditor of State

June 21, 2012

The discussion and analysis of Warren County's financial performance provides an overall review of the County's financial activities for the year ended December 31, 2011. The intent of this discussion and analysis is to look at the County's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the County's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2011 are as follows:

- In total, net assets decreased \$5.7 million. Net assets of governmental activities decreased \$4.9 million, which represents a 2.3% decrease over net assets of 2010. Net assets of business-type activities decreased \$777,725 or .3% from net assets of 2010.
- General revenues accounted for \$80.4 million in revenue or 55.3% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$64.9 million or 44.7% of total revenues of \$145.4 million.
- The County had \$123.5 million in expenses related to governmental activities; \$38.7 million of these expenses were offset by program specific charges for services, grants or contributions.
- Among major funds, the general fund had \$61.4 million in revenues and \$53.1 million in expenditures. The 2011 revenues increased 1.1% or \$650,700 from 2010. The expenditures decreased 1.5% or \$761,266. The general fund balance at year-end totaled \$29.7 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – *management's discussion and analysis*, the *basic financial statements*, and an optional section that presents *combining statements* for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the County:

These statements are as follows:

The Government-Wide Financial Statements – These statements provide both long-term and short-term information about the County's overall financial status.

The Fund Financial Statements – These statements focus on individual parts of the County, reporting the County's operations in more detail than the government-wide statements.

The financial statements also include notes that provide more detailed data and explain some of the information in the financial statements.

Government-wide Statements

The government-wide statements report information about the County as a whole, including Production Services Unlimited, Inc. and the Transportation Improvement District, the County's discretely presented component units, using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the County's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the County's net assets and how they have changed. Net-assets (the difference between the County's assets and liabilities) are one way to measure the County's financial health or position.

- Over time, increases or decreases in the County's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the County you need to consider additional nonfinancial factors such as changes in the County's tax base and the condition of County capital assets.

The government-wide financial statements of the County are divided into two categories:

- Governmental Activities – Most of the County's programs and services are reported here including public safety, health, human services, community and economic development and public works.
- Business-Type Activities – These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. All of the County's enterprise activities are reported as business-type activities.

A separately issued audit report containing financial statements is available from Production Services Unlimited, Inc. at 575 Columbus Avenue, Lebanon, Ohio 45036.

Fund Financial Statements

The fund financial statements provide more detailed information about the County's most significant funds, not the County as a whole. Funds are accounting devices that the County uses to keep track of specific sources of funding and spending for particular purposes. The County's major governmental funds are the General Fund, the Board of Developmental Disabilities Fund, and the Special Assessment Fund. The County's major enterprise funds are the Water Fund, Sewer Fund, Storm Water Fund, Sheriff Fund and the Communications Rotary Fund.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds - The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses five enterprise funds to account for water, sewer, storm water, sheriff, and the communications rotary operations. All five of the enterprise funds are reported as major funds.

Internal Service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County's internal service funds report on County department's vehicle maintenance, gasoline purchases and self-insurance programs for employee medical benefits and workers' compensation.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The County's fiduciary funds are a private purpose trust fund and agency funds.

This space intentionally left blank.

WARREN COUNTY, OHIO**Management's Discussion and Analysis
For the Year Ended December 31, 2011****Unaudited****FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE**

The table below provides a comparison of 2011 to 2010 for both the Governmental and Business-type activities.

	Governmental Activities		Business-type Activities		Total	
	2011	Restated 2010	2011	2010	2011	Restated 2010
Current and other assets	\$193,093,422	\$190,608,001	\$33,395,525	\$35,255,262	\$226,488,947	\$225,863,263
Capital assets, Net	105,356,389	101,162,545	213,464,412	205,949,890	318,820,801	307,112,435
Total assets	298,449,811	291,770,546	246,859,937	241,205,152	545,309,748	532,975,698
Long-term debt outstanding	30,240,696	32,602,407	19,361,868	11,374,386	49,602,564	43,976,793
Other liabilities	56,094,864	42,150,173	3,482,471	5,037,443	59,577,335	47,187,616
Total liabilities	86,335,560	74,752,580	22,844,339	16,411,829	109,179,899	91,164,409
Net assets						
Invested in capital assets, net of related debt	84,264,510	92,647,187	195,365,789	195,848,993	279,630,299	288,496,180
Restricted	105,859,570	118,166,446	65,192	65,561	105,924,762	118,232,007
Unrestricted	21,990,171	6,204,333	28,584,617	28,878,769	50,574,788	35,083,102
Total net assets	\$212,114,251	\$217,017,966	\$224,015,598	\$224,793,323	\$436,129,849	\$441,811,289

Total Net Assets decreased by \$5,681,440.

Although *Current and other assets* ended the year with a nominal increase of \$625,684, there were some changes worth mentioning. Taxes Receivable had an increase of \$10.8 million due to the reinstatement of the full levy for the Board of Developmental Disabilities. Cash and Cash Equivalents for Governmental Funds decreased \$11.1 million primarily due to a \$6.4 million deficiency of revenue over expenses in the Board of Developmental Disabilities Fund and a \$3.9 million deficiency of revenue over expenses in the Health Insurance Fund.

Capital Assets Net increased by \$11.7 million and the main contributing component was driven by the construction additions to the Lower Little Miami Sewer Plant expansion. This project alone had an increase of \$11.1 million.

Total liabilities increased by \$18.0 million. Of this amount \$12.4 million increased Other Liabilities. This amount is primarily made up of an increase of \$2.1 million associated with Claims Payable or to be more specific, Health Insurance Claims. Unearned Revenues increased by \$10.4 million and was the second contributing factor to the increase in Other Liabilities. The Unearned Revenues resulted primarily from an increase to the Board of Developmental Disabilities Tax Levy. Long Term Liabilities increased overall by \$5.6 million. Business Type Long Term Liabilities increased \$8.0 million primarily related to the OWDA Sewer loan associated with the construction of the Lower Little Miami Sewer Plant expansion. General Government's Long Term Liabilities decreased \$2.4 million due to the scheduled annual debt payments.

WARREN COUNTY, OHIO

**Management's Discussion and Analysis
For the Year Ended December 31, 2011**

Unaudited

\$105.9 million or 24.3% of net assets in the current year represents resources that are subject to external restrictions on how these assets may be used. \$50.6 million or 11.6% of net assets may be used to meet the County's ongoing obligations to its citizens and creditors and for Water and Sewer activities.

Changes in Net Assets – The following table shows the changes in net assets for the fiscal year 2011 and 2010:

	Governmental Activities		Business-Type Activities		Total	
	2011	Restated 2010	2011	2010	2011	Restated 2010
Revenues						
Program revenues:

Governmental Activities

Net assets of the County's governmental activities decreased by \$4,903,715.

In 2011 three special revenue funds, Youth Services Subsidy, County Court Probation and Indigent Guardianship, were reclassified from a Judicial Government type to a Public Safety Government type. In addition there was one General Fund department, Common Pleas Probation that also was reclassified from Judicial to Public Safety. The reclassification of expenses for the year 2010 is reflected in the preceding table. The total amount reclassified for the year 2010 was \$3.2 million.

Expenses overall increased \$9.0 million or 7.8% over 2010. Although we realized an increase, total expenses still fell below those of 2009. Of the \$9.0 million overall increase, \$4.2 million was a result of the increased costs that were incurred in funding the County's self-insured health care program.

Legislative and Executive expenses were up 9.5% or \$2.0 million. Health care costs to this government function makes up \$1.3 million of this increase.

Judicial costs increased by \$1.0 million or 11.4%. Health care expenses to this government function makes up \$595,750 of this increase.

Public Safety expenses increased \$2.3 million or 7.7%. Health care costs to this government function makes up \$1.5 million of this increase and the majority of the balance is reflected in an increase in equipment expenses.

Public Works costs increased \$2.4 million or 28.7%. The largest portion of these expenses is associated with a \$2.0 million contribution to the Warren County Transportation Improvement District. The increase to health care costs to this government function amounted to \$234,325.

Human Services expenses increased \$1.9 million. Health care costs to this government function makes up \$575,373 of this increase. The balance of the \$1.9 million increase can be found within the expenses of the Board of Developmental Disabilities. This fund incurred an increase of \$1.2 million and is explained further in this section.

Shared revenue accounts went relatively unchanged with a decrease of \$394,545 or 2.3% over 2010. Of this amount \$1.0 million was an increase in Motor Vehicle and Gas Tax Revenue and \$1.4 million was a decrease in intergovernmental revenue not considered as program revenues which include monies from the state for the 10% rollback on real estate taxes, the 2 ½% homestead rollback, and the personal property tax reimbursement from the commercial activity tax.

WARREN COUNTY, OHIO

**Management's Discussion and Analysis
For the Year Ended December 31, 2011**

Unaudited

Program Revenues consists of three categories: 1) Charges for Services, 2) Operating Grants and Contributions, and 3) Capital Grants and Contributions. Charges for Services had a slight increase of \$340,787. Operating Grants and Contributions decreased by \$2.4 million. Capital Grants and Contributions in total decreased by \$1.4 million. Program Revenue had an overall decrease of \$3.5 million over 2010.

General Tax Revenue accounts for 52.2% of the \$118.6 million in total revenues for governmental activities. General Tax revenues increased \$1.5 million over 2010. The increase is made up of \$456,047 increase in property tax and \$1.2 million increase in sales tax. Other Tax revenues decreased \$121,788. The percentage change, when compared to 2010 for the three categories were 1.4%, 4.2% and (58.4%) respectively.

General Other Revenue had the largest percentage decrease amounting to 30.7% or \$633,208. Of this amount, was a decrease of \$606,261 involving transfers to Business Type Activities, a decrease of \$32,989 in miscellaneous earnings, and an increase of \$6,042 in investment earnings.

The County's net charges to users of governmental services totaled \$84,767,566. The County's general revenues of \$79,863,851 subsidized 94.2% of this amount and the remaining resulted in a \$4.9 million decrease in net assets.

Revenue Sources	2011	Percent of Total
Shared Revenues	\$16,474,349	13.89%
Program Revenues	38,714,811	32.65%
General Tax Revenues	61,961,230	52.25%
General Other	1,428,272	1.21%
Total Revenue	\$118,578,662	100.00%

Business-Type Activities

Net assets of the business-type activities decreased by \$777,725. These programs had revenues of \$26.2 million and expenses of \$27.6 million for fiscal year 2011. Revenues decreased overall by \$6.3 million.

Charges for Services and Sales decreased \$1.6 million. In 2010 Charges for Services had a \$1.5 million increase that was primarily from billings due to the increased water usage during the summer drought. This 2011 decrease returns Charges for Services to normal levels.

Capital Grants and Contributions totaled \$5.7 million. Of this amount, tap in fees generated \$3.6 million and private developer contributions generated \$1.7 million. When comparing the Capital Grants and Contributions to 2010 we find tap in fees increased by \$604,240 or 19.9% and private developer contributions decreased by \$142,585 or 7.7%. When comparing overall Capital Grants and Contributions we find a decrease totaling \$4.5 million. In 2010 we received a \$5.0 million stimulus grant, and the absence of these stimulus funds in 2011 created the decrease for this category.

Business activities receive no support from tax revenues and remains self-supporting.

WARREN COUNTY, OHIO

Management's Discussion and Analysis For the Year Ended December 31, 2011

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

The County's governmental funds reported a combined fund balance of \$114,924,284, which is a decrease of \$6.2 million over last year's total of \$121,098,848. The schedule below indicates the fund balance and the total change in fund balance as of December 31, 2011 and 2010.

	Fund Balance December 31, 2011	Restated Fund Balance December 31, 2010	Increase (Decrease)
General	\$29,753,810	\$28,766,773	\$987,037
Board of Developmental Disabilities	32,222,283	38,664,349	(6,442,066)
Special Assessment	1,288,155	1,652,259	(364,104)
Other Governmental	51,660,036	52,015,467	(355,431)
Total	<u>\$114,924,284</u>	<u>\$121,098,848</u>	<u>(\$6,174,564)</u>

General Fund – Although the County's General Fund revenues exceeded expenditures by \$8.3 million, the General Fund's balance ended with an increase of \$987,037 due to \$7.3 million in transfers out. Children's Services received \$2.1 million in transfers to supplement their operating budget in lieu of seeking a levy to fund their needs. As a result of higher than anticipated employee health insurance costs, operating transfers in the amount of \$1.3 million were transferred to the Health Insurance Fund. County Construction projects received \$1.2 million to be used towards capital projects. Youth Services Subsidy received \$878,761 in transfers that will also supplement their operating budget. As part of the 2009-2011 contractual agreement with Deerfield Township the Sheriff's Policing Revolving Fund received an operating transfer in the amount of \$606,261 to fund full time deputies. Various other county departments received the remainder of the transfers.

The tables that follow assist in illustrating the financial activities and balance of the General Fund:

	2011 Revenues	Restated 2010 Revenues	Increase (Decrease)
Taxes	\$43,795,438	\$42,718,266	\$1,077,172
Intergovernmental Revenues	4,850,211	5,565,782	(715,571)
Charges for Services	8,296,228	7,889,158	407,070
Licenses and Permits	12,454	17,398	(4,944)
Investment Earnings	2,429,803	1,885,505	544,298
Fines and Forfeitures	277,884	295,499	(17,615)
All Other Revenue	1,740,519	2,380,229	(639,710)
Total	<u>\$61,402,537</u>	<u>\$60,751,837</u>	<u>\$650,700</u>

Tax revenues overall increased by 2.5%. The largest source of tax revenue at \$28.4 million is generated from the County's Sales Tax. This tax increased over the previous year by 4.2%. The second largest source of tax revenue at \$12.9 million is generated from Real Estate Property Taxes. Real Estate Property Tax increased by \$342,693 or 2.7%. Property Transfer Taxes generated \$2.5 million and decreased \$369,191 or 12.8%.

WARREN COUNTY, OHIO

Management's Discussion and Analysis For the Year Ended December 31, 2011

Unaudited

Investment income ended the year with a 28.9% increase due to fluctuations in the market value of investments which are reported as investment earnings or losses in the current period. During 2009 the market value of investments was much higher than values in 2010 which caused a significant drop in investment earnings reported for 2010. Although the market value of investments in 2011 is still less than the book value, it is not as low as values reported in 2010, thus the increase in investment income as compared to 2010. As portions of our investment portfolio continued to "mature" or be "called", it required us to re-invest funds into the new investments that were being issued at the prevailing historically low interest rates. It is not expected that we will see any increases in investment income in the coming year.

	2011 Expenditures	Restated 2010 Expenditures	Increase (Decrease)
General Government:			
Legislative and Executive	\$18,203,559	\$18,544,517	(\$340,958)
Judicial	8,387,060	8,047,523	339,537
Public Safety	25,226,243	24,466,468	759,775
Human Services	1,109,702	1,078,688	31,014
Community and Economic Development	180,642	208,744	(28,102)
Debt Service:			
Principal Retirement	0	0	0
Interest and Fiscal Charges	0	0	0
Total	<u>\$53,107,206</u>	<u>\$52,345,940</u>	<u>\$761,266</u>

As mentioned previously in the MD&A, one General Fund department, Common Pleas Probation, was reclassified from Judicial to Public Safety. The reclassification of these expenditures for the year 2010 is reflected in the above table. The total amount reclassified in the General Fund for the year 2010 was \$592,754.

In 2011, overall expenditures had a marginal increase of 1.5% over 2010, but still managed to fall below the 2009 expenditures of \$53.4 million.

Board of Developmental Disabilities Fund - The 2011 revenue for the Board of Developmental Disabilities Fund (BDD) increased \$118,345 or .7% over the 2010 revenues. Expenditures for BDD increased \$1.2 million or 5.7%. Increased Medicaid costs along with the elimination of the Federal Medicaid Assistance Program required an increase to our local Medicaid match which impacted the 2011 expenditures. Expenditures exceeded revenues by \$6.4 million. The end of year fund balance was \$32.2 million.

Special Assessment Fund - The Special Assessment Fund received approximately \$1.6 million from special assessment levies, capacity fees and non-participant charges, while expending \$2.0 million in debt service payments. The fund balance decreased by \$364,104.

GENERAL FUND BUDGETARY HIGHLIGHTS

The County's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

The variance between the final budget and the actual revenues are solely the result of the County Auditor's decision to conservatively estimate revenues. In 2011 his estimations ended with a positive variance of \$5.1 million. It is not the practice of the County or the Budget Commission to revise estimated revenues at year-end to bring the budget in line with actual resources.

During the course of fiscal year 2011 the County Commissioners approved numerous revisions to the original appropriations. Overall, these changes resulted in an increase of \$3.2 million. However, actual expenditures were less than the final budgeted expenditures by \$4.1 million. The largest variances within the \$4.1 million involved, consists of \$2.0 million in Legislative and Executive and \$1.3 million in Public Safety. The largest variance in both these government type expenditures resulted from less spending than originally anticipated in the personal services category. The General Fund had an adequate fund balance to cover all expenditures. The fund balance was \$2.8 million better than initially projected in the original budget.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal 2011 the County had \$318,820,801 net of accumulated depreciation invested in capital assets for its Governmental and Business Type activities. Of this total, \$105,356,389 was related to Governmental Activities and \$213,464,412 was related to the Business-Type activities. When looking at total assets and the accumulated depreciation, we ended 2011 with an \$11.7 million increase in total depreciable capital assets.

General Government's capital assets increased by \$4.2 million, as demonstrated in the table below

General Government Construction Projects had additions totaling \$5.0 million. These additions included over \$3.5 million in improvements to county roads and bridges and the remaining \$1.5 million being associated with improvements to county buildings. The Courts Building Energy Conservation Project made up the majority, \$1.0 million, of the building improvements. Completed projects, totaling \$1.7 million, were moved out of the construction asset category and into the asset categories of: Land \$93,225, Infrastructure (Roads) \$1.2 million, and Buildings at \$362,096. The net result of the additions and deletions to Construction in Progress is an increase totaling \$3.4 million

Business Type's capital asset increase of \$7.5 million was generated solely from expenditure investments in construction in progress and private developer contributions of water and sewer lines.

WARREN COUNTY, OHIO

**Management's Discussion and Analysis
For the Year Ended December 31, 2011**

Unaudited

The 2011 expenditure investment to construction amounted to \$13.7 million. Projects totaling \$3.6 million, all water projects, were completed in 2011 and moved to capital assets. The net result to Construction in Progress was a \$10.2 million increase. The projects moved to capital assets increased: Land by \$10,302, Land Improvements by \$2.0 million, and Buildings by \$1.6 million. The building assets were water tower improvements.

The private developer contributions of \$1.7 million consisted of \$1.3 million in water lines and \$368,931 in sewer lines.

Additional information on the County's capital assets can be found in Note 11.

The following table summarizes the County's capital assets as of December 31, 2011 and December 31, 2010:

	Governmental Activities		Increase (Decrease)
	2011	2010	
Land	\$9,218,315	\$8,519,208	\$699,107

WARREN COUNTY, OHIO

Management's Discussion and Analysis For the Year Ended December 31, 2011

Unaudited

Debt

At December 31, 2011, the County had general obligation debt outstanding of \$18.4 million in bonds. Of this amount, \$6.9 million comprises debt backed by the full faith and credit of the County and \$11.5 million is special assessment debt for which the County is liable in the event of default by the property owner subject to the assessment. The County also had outstanding principal of \$2.3 million in Tax Increment District Revenue Bonds, and \$4.7 million of outstanding principal in an Ohio Department of Development Loan (State 166). The Water enterprise fund had \$5.2 million of Mortgage Revenue Bonds, and \$4.6 million in OWDA Loans. The Sewer enterprise fund had \$8.8 million in OWDA Loans outstanding at December 31, 2011.

Governmental Activities long-term liabilities decreased by \$2,361,711 or 7.2% during the 2011 fiscal year, and the County's Business-Type Activities long-term liabilities increased by \$7,987,482 or 70.2%. The County maintains an underlying "Aa1" rating from Moody's Investors Service, Inc. for general obligation debt.

In addition to the bonded debt, the County's long-term obligations include compensated absences. Additional information on the County's long-term debt can be found in Note 14 of this report.

The following table summarizes the County's long-term debt outstanding as of December 31, 2011 and December 31, 2010:

	2011	2010
Governmental Activities:		
General Obligation Bonds	\$6,861,844	\$7,753,762
Special Assessment Bonds	11,541,111	12,329,258
Tax Increment Revenue Bonds	2,285,000	2,325,000
Loans	4,669,970	5,360,173
Capital Leases	5,286	8,284
Compensated Absences	4,877,485	4,825,930
Total Governmental Activities	<u>30,240,696</u>	<u>32,602,407</u>
Business-Type Activities:		
Mortgage Revenue Bonds	\$5,178,651	\$5,715,481
Loans	13,389,853	4,914,650
Compensated Absences	793,364	744,255
Total Business-Type Activities	<u>19,361,868</u>	<u>11,374,386</u>
Totals	<u>\$49,602,564</u>	<u>\$43,976,793</u>

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In 2011, the nation, State of Ohio and Warren County's economy continued to experience the impact of the recession. Warren County has continued to exercise solid financial practices, as can be evidenced by the fact that we are one of only a few counties in the state who still has not had to lay off staff to approve a balanced budget. Warren County, however, no matter how good its development and financial practices, cannot escape the fact that we are inextricably tied to the economic fortunes of our state and our country.

For 2012, total General Fund revenues are anticipated at \$55.6 million, which is 10.1% less than what was actually received on a cash basis in fiscal year 2011. The General Fund's original budget for appropriations of anticipated expenses for 2012 was \$62.2 million as compared to \$60.8 million in cash expenditures at the end of 2011. Even though Warren County remains in strong financial shape largely due to consistent conservative budgeting, we are not immune from the effects of the state and national deficits and looming budget cuts. During 2012 and 2013 the County is focusing on potential State revenue cuts and reductions in investment income that could affect the County's General Fund balance. Our response to these possibilities include (1) containing salary and benefit expenses, (2) minimizing hiring and reviewing vacant positions to see if they can go unfilled, and (3) instituting across the board cuts in budgets of departments and agencies that receive General Fund dollars.

Warren County's central location between the metro areas of Dayton and Cincinnati in the southwestern part of Ohio has made it an attractive area for new business development. Metropolitan Cincinnati's northerly expansion into Warren County, particularly the rapid development along I-71 in the City of Mason, Deerfield Township, Lebanon and South Lebanon has also contributed to Warren County's economic development. Greater Dayton's growth south has prompted strong growth along I-75 in Franklin, Clearcreek Township, Middletown, Monroe and particularly in the City of Springboro. Warren County's business base is extremely diverse with many area companies concentrated in the sectors of high technology, research and development, advanced manufacturing, bio-medical and service related industries

The Warren County Economic Development Department has been working hard to offset any job losses experienced through the recession, helping to create new jobs, as well as, retain existing jobs. In 2011, Warren County welcomed 37 new companies, created 1,849 new jobs, retained 1,875 existing jobs and resulted in \$70.8 Million in corporate investments. The Home Depot Distribution Center has continued to increase positions adding an additional 150 employees in 2011. Likewise, the Cincinnati Premium Outlet Center, which opened in August of 2009, and has created close to 1,000 new jobs already, announced the opening of an additional eight stores in 2011 with over 100 new employment opportunities.

In 2011, Warren County also saw the introduction of new companies. Account Control Technologies opened their third national facility to Deerfield Township and brought over 250 expected new jobs to the County. VRI, which moved their headquarter operations to the City of Franklin in 2010, announced plans to expand their facility from their original 300 employment commitment to approximately 450 employees. Additionally, Hardy Diagnostics, a California based firm, located their company in the City of Springboro bringing 75 employment positions to the County. In 2012 we anticipate that Delaware North & Churchill Downs will break ground in western Warren County, along the I-75 corridor, for one of Ohio's seven "Racinos" with completion sometime in 2014.

Likewise, the Warren County Office of Economic Development continues to work with Workforce One of Warren County, Sinclair Community College, the Warren County Career Center, the Dayton Development Coalition and the Cincinnati USA Partnership to conduct educational opportunities for area businesses and educational institutions. As the Warren County Office of Economic Development Office continues to conduct retention visits with area businesses, it is critical that the County and its partners work together to address the needs pertaining to workforce development. This was accomplished through listening sessions with area HR directors and educational institutions as well as forums conducted by the regional development organizations

The Warren County Port Authority had an active project load in 2011 and is beginning to see the results of their efforts early 2012. Coordinating with the Warren County Economic Development Office, the Port has entered into an agreement to provide leasing arrangements for a new FedEx Ground facility to be located in the City of Lebanon. Additionally, the Port is coordinating documents on several other projects that would increase employment numbers inside of Warren County over 1,000 hires.

Warren County continues to be credited as one of the highest "new job" growth counties in the state. In 2011-2012, Warren County's unemployment rate fell from 9.2% during the peak of the recession to the lowest in Southwest Ohio, 6.7%.

While we can't control the national economy, there is much we can do to spark a local recovery. The Board of County Commissioners are intent to remain focused on economic development and coordinating these efforts with the various cities and townships to create more visibility and productivity in new job creation. As Warren County continues to weather the economic storm that has hit this nation and state, we will work hard to maintain services and planned projects and cut costs wherever possible. We will continue to place emphasis on Economic and Workforce Development through the coordinated efforts of each department.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the County's finances and to show the County's accountability for the money it receives. If you have questions about this report or need additional financial information contact Nick Nelson, Warren County Auditor, 406 Justice Drive, Lebanon, Ohio 45036.

***Reconciliation Of Total Governmental Fund Balances
To Net Assets Of Governmental Activities
December 31, 2011***

Total Governmental Fund Balances \$114,924,284

***Amounts reported for governmental activities in the
statement of net assets are different because:***

Capital Assets used in governmental activities are not resources and therefore are not reported in the funds. 104,863,297

Other long-term assets are not available to pay for current period expenditures and therefore are deferred in the funds. 22,193,371

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. (30,643,839)

Internal Service Funds are used by management to charge the costs of vehicle maintenance, insurance and gasoline to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets. This is the amount that applies to the governmental activities. 777,138

Net Assets of Governmental Funds \$212,114,251

***Reconciliation Of The Statement Of Revenues, Expenditures
And Changes In Fund Balances Of Governmental Funds
To The Statement Of Activities
For the Year Ended December 31, 2011***

Net Change in Fund Balances - Total Governmental Funds (\$6,381,579)

Amounts reported for governmental activities in the statement of activities are different because

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays and capital contributions exceeded depreciation. 3,616,937

Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the loss on the disposal of fixed assets net of proceeds received. (75,567)

Revenues and transfers in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. (1,173,731)

The issuance of long-term debt (e.g. special assessment bonds, leases) provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. 2,396,764

In the statement of activities, interest is accrued on outstanding bonds and loans, whereas in governmental funds, an interest expenditure is reported when due. 7,545

Some expenses reported in the statement of activities, such as change in inventory and compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. 14,710

The Internal Service Funds, which are used to charge the cost of services to individual funds, are not included in the statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the County's Internal Service Funds are allocated among the governmental and business-type activities. (3,308,794)

Change in Net Assets of Governmental Activities (\$4,903,715)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Warren County is a political subdivision of the State of Ohio. The County was formed by an act of the Ohio General Assembly in 1803. The three member Board of County Commissioners is the legislative and executive body of the County. The County's combined financial statements include accounts for all County operations.

The accompanying basic financial statements comply with the provisions of GASB Statement No. 14, *"The Financial Reporting Entity,"* as amended by GASB Statement No. 39, *"Determining Whether Certain Organizations are Component Units"* in that the financial statements include all organizations, activities and functions of the primary government (the County) and legally separate entities (component units) for which the County is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing board and either the County's ability to impose its will over the organization or the possibility that the organization will provide a financial benefit to or impose a financial burden on the County.

The financial activities of all funds, agencies, boards and commissions for which the County elected officials are financially accountable are reflected in the accompanying financial statements. Based on the foregoing criteria, Warren County (the primary government) has two component units, Production Services Unlimited, Inc. and the Warren County Transportation Improvement District. The reporting entity of the County includes the following services: human and social services, certain health care and community assistance services, civil and criminal justice systems, road and bridge maintenance and general administrative services. In addition, the county operates a water supply, sanitary sewer and storm water system.

Discretely Presented Component Unit - The component unit column on the Statement of Net Assets includes the financial data of two County component units, Production Services Unlimited, Inc. (PSU) and the Warren County Transportation Improvement District (TID). The component units are reported in a separate column to emphasize that they are legally separate from the County. PSU and the TID are being presented as a part of the County's reporting entity because it would be misleading to exclude them.

PSU is an adult workshop for the clients of the Board of Developmental Disabilities. Warren County has an annual master operating agreement with PSU to subsidize a portion of the operations. PSU contracts with various companies and individuals including the County to provide janitorial services, assembly work, packaging, clerical, and other activities, which are performed by the workshop participants. Separate financial statements for PSU may be obtained by writing to: Production Services Unlimited, Inc., 575 Columbus Avenue, Lebanon, Ohio 45036.

The TID is a body politic and corporate, created pursuant to Chapter 5540 of the Ohio Revised Code by action of the Board of Warren County Commissioners on January 27, 2011 for the purpose of financing, construction, maintaining, repairing and operating selected transportation projects. Separate financial statements for the TID may be obtained by writing to Secretary-

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Reporting Entity (Continued)

Treasurer, Warren County Transportation Improvement District, 105 Markey Road, Lebanon, Ohio 45036.

Related Organizations - Warren County officials appoint a voting majority of the board for the following organizations. The County's accountability for these organizations does not extend beyond making the appointments.

- *Metropolitan Housing Authority* - The County Commissioners, Probate Court and Common Pleas Court each appoint one member of a five member board.
- *Park District* - The Probate Judge appoints all three members of the Park Board.
- *Warren County Airport Authority* - The County Commissioners appoint all members of a nine-member board.
- *Butler/Clermont/Warren Workforce Policy Board* – The County Commissioners appoint all of the Warren County members of the board. The Policy Board is a regional organization developed as a result of the Workforce Investment Act. The role of the Policy Board is to assess the workforce needs of area employers, assess the employment and training needs of job seekers and to identify fiscal and other available resources to meet current and future workforce needs in the region.
- *Warren County Port Authority* – The County Commissioners appoint all seven members of the board. The role of the board is to enhance, foster, aid, provide or promote the following within Warren County: transportation, economic development, housing, recreation, education, culture and research.

Joint Venture Without Equity Interest

Warren County is a member of the Warren/Clinton Counties Recovery Services Board, which is a joint venture between Warren and Clinton Counties. The purpose of the board is to provide aid, support and education for alcohol and drug dependent citizens as well as those who are mentally handicapped. See Note 21 "Joint Venture."

Jointly Governed Organization

Warren County Board of Developmental Disabilities is a member of the Southwest Ohio Regional Council of Governments formed by Hamilton, Clermont, Butler and Warren Counties. The purpose of this Council is to coordinate the powers and duties of the member counties to better serve and benefit persons with developmental disabilities. See Note 22 "Jointly Governed Organization."

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting

The accounting system is organized and operated on the basis of funds each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses. The various funds are summarized by type in the basic financial statements. The County uses the following fund types:

Governmental Funds

Governmental funds are those funds through which most governmental functions typically are financed. The acquisition, use and balances of the County's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is on determination of "financial flow" (sources and use and balances of financial resources). The following are the County's major governmental funds:

General Fund – This fund represents the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund. The primary revenue sources are sales and use tax, property transfer tax, real estate tax, state and local government fund receipts, investment earnings and charges for service. The general fund balance is available to the County for any purpose provided it is expended or transferred according to the laws of Ohio.

Board of Developmental Disabilities Fund – This fund is used to account for a County-wide property tax levy, Federal and State grants and reimbursements used for care and services for the mentally handicapped and developmentally disabled.

Special Assessment Fund – This fund is used to account for revenues received from special assessment collections from annual tax billings, which provide the source of financing for long-term debt incurred for water and sewer line construction.

Proprietary Funds

All proprietary funds are accounted for on an "economic resources" measurement focus. This measurement focus provides that all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Enterprise Funds - These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The County's major enterprise funds are:

Water Fund – This fund is used to account for the operation of the County's water service.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

Sewer Fund – This fund is used to account for the operation of the County’s sanitary sewer service.

Storm Water Fund – This fund is used to account for the operation of the County’s Storm Water Management Plan in compliance with the federally mandated National Pollution Discharge Elimination System (NPDES) Phase II program.

Sheriff Fund – This fund is used to account for the policing services provided on a contractual basis to Deerfield Township, South Lebanon and Caesar Creek Litter Control.

Communications Rotary Fund – This fund is used to account for communications maintenance services provided to various county departments and other governmental units. Users are billed for costs incurred.

Internal Service Funds – The four internal service funds operated by the County are the Vehicle Maintenance, Health Insurance, Workers’ Compensation Self Insurance and the Gasoline funds. The Vehicle Maintenance fund was created to provide repairs and maintenance to various County departments. The Health Insurance fund is used for claims and administration of the health insurance program for covered County employees and eligible dependents. The Workers’ Compensation Self Insurance fund was created to accumulate reserves and process claims for workers’ compensation for all functions of county government. The Gasoline fund was created to account for the centralized purchase of gasoline provided to various departments of the County.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. These funds are used to account for assets held by a governmental unit as an agent for individuals, private organizations or other governmental units and therefore not available to support the County’s own programs. The County’s only trust fund is a private purpose trust that accounts for unclaimed monies. The agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operation. These funds operate on an accrual basis of accounting. Further description of these funds can be found on pages 186 and 187.

C. Basis of Presentation – Financial Statements

Government-wide Financial Statements – The statement of net assets and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government and its discretely presented component unit, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities. Internal Service fund activity is eliminated to avoid “doubling up” revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation – Financial Statements (Continued)

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the County and for each function or program of the County's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

Fund Financial Statements – Fund financial statements report detailed information about the County. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which the County considers to be 60 days after year-end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for debt service and expenditures related to compensated absences which are recorded only when due.

Non-exchange transactions, in which the County receives value without directly giving equal value in return, include sales and use taxes, property taxes, grants, entitlements and donations. Revenue from sales and use taxes is recognized in the period in which the income is earned and is available. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied and the revenue is available. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. Revenues considered susceptible to accrual at year-end include interest on investments, and state levied locally shared taxes, including motor vehicle license fees and local government assistance. Other revenues, including licenses, permits, certain charges for services, and miscellaneous revenues are recorded when received in cash, because generally these revenues are not measurable until received.

Special assessment installments and related accrued interest, which are measurable but not available at December 31, are recorded as deferred revenues. Property taxes measurable as of December 31, 2011 but which are not intended to finance 2011 operations and delinquent property taxes, whose availability is indeterminate, are recorded as deferred revenues.

The full accrual basis of accounting is utilized for reporting purposes by the government-wide statements, proprietary funds and fiduciary funds. Revenues are recognized when they are earned and expenses are recognized when they are incurred.

Pursuant to GASB Statement No. 20, "*Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting*," the County follows GASB guidance as applicable to proprietary funds and FASB Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements. The County has elected not to apply FASB statements and interpretations issued after November 30, 1989 to its business-type activities and enterprise funds.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year.

All funds, other than agency funds, are legally required to be budgeted and appropriated; however, only the General and Major Special Revenue Funds are required to be reported. The primary level of budget control is at the object level by organizational unit and/or department by function (Public Safety, Public Works, General Government, Debt Service, etc.) within a fund. Budgetary modifications may only be made through resolution of the County Commissioners.

1. Tax Budget

By July 15, each County department must submit an annual tax budget for the following fiscal year to the County Commissioners for consideration and passage. The adopted budget is submitted to the County Auditor, as secretary of the County Budget Commission, by July 20th of each year, for the period January 1 to December 31 of the following year.

2. Estimated Resources

The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Budget Commission then certifies its actions to the County by September 1st of each year. As part of the certification process, the County receives an official certificate of estimated resources which states the projected receipts by fund. Prior to December 31, the County must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about January 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during 2011.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

3. Appropriations

A temporary appropriations resolution to control expenditures may be passed on or about January 1st of each year for the period January 1 through March 31. An annual appropriations resolution must be passed by April 1st of each year for the period January 1st through December 31st. The appropriations resolution establishes spending controls at the fund, function, organizational unit and/or department, and object level. The appropriations resolution may be amended during the year by resolution of the County Commissioners as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources. During 2011, supplemental appropriations were necessary to budget for unanticipated expenditures. Expenditures may not legally exceed budgeted appropriations at the object level. Administrative control is maintained through the establishment of more detailed line-item budgets. Management may ask the County Commissioners to transfer appropriations within the object level (among line items) for an organizational unit and/or department provided total appropriations for that object and organizational unit and/or department do not exceed amounts established by the County Commissioners. The budgetary figures, which appear on the budgetary statements, are provided on the budgetary basis to provide a comparison of actual results with the final budget, including all amendments and modifications.

4. Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for expenditures are encumbered and recorded as the equivalent of expenditures (budget basis) in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. However, on the GAAP basis of accounting, encumbrances do not constitute expenditures or liabilities.

5. Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriations balance is carried forward to the subsequent fiscal year and need not be reappropriated.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

6. Budgetary Basis of Accounting

The County's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major difference between the budgetary basis and the GAAP basis lies in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on the cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting.

A reconciliation of the results of operations for the year from the GAAP basis to the budgetary basis for the general fund and for the major special revenue fund is shown below:

	Net Change in Fund Balances	
	General Fund	Board of Developmental Disabilities Fund
GAAP Basis (as reported)	\$969,455	(\$6,442,066)
Increase (Decrease):		
Accrued Revenues at December 31, 2011 received during 2012	(6,366,902)	(6,037,129)
Accrued Revenues at December 31, 2010 received during 2011	6,382,766	3,244,132
Accrued Expenditures at December 31, 2011 paid during 2012	2,731,441	1,410,344
Accrued Expenditures at December 31, 2010 paid during 2011	(2,461,979)	(1,290,300)
Change in Fair Value, 2011	62,482	0
Change in Fair Value, 2010	(299,940)	0
2011 Prepays for 2012	(231,448)	(17,179)
2010 Prepays for 2011	237,142	13,651
Interfund Loans Receivable, 2011	(569,000)	0
Interfund Loans Receivable, 2010	96,000	0
Outstanding Encumbrances	(3,361,849)	(1,909,934)
Budget Basis	<u>(\$2,811,832)</u>	<u>(\$11,028,481)</u>

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits, State Treasury Asset Reserve of Ohio (STAR Ohio), and treasury securities. STAR Ohio, certificates of deposit and treasury securities are considered cash equivalents because they are highly liquid investments or have original maturity dates of three months or less.

The County Treasurer pools cash for investment and resource management purposes. Each fund's equity in pooled cash and investments represents the balance on hand as if each had maintained its own cash and investment account. For purposes of the statement of cash flows, the proprietary funds consider their share of equity in STAR Ohio and pooled certificates of deposit to be cash equivalents. See Note 6 "Cash, Cash Equivalents and Investments."

At year end the Southwest Ohio Council of Governments was holding deposits in the amount of \$5,253,489 which are represented as "Cash and Cash Equivalents with Fiscal Agent" on the balance sheet.

G. Investments

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the County records all its investments at fair value, which are based upon quoted market prices. All investment income, including changes in the fair value of investments, are recognized as revenue in the operating statements. The County allocates interest among various funds based upon applicable legal and administrative requirements. See Note 6 "Cash, Cash Equivalents and Investments."

Warren County has invested funds in STAR Ohio during 2011. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2011. The County also has several liquid asset management accounts. These accounts have been restricted to U.S. Treasury and agency security investments only, with the exception of the Fifth Third Liquid Investment Account which can invest up to 10% in commercial paper as long as it is rated A1P1.

H. Inventory of Supplies

Inventory is stated at cost (first-in, first-out) in the governmental funds, and at the lower of cost (first-in, first-out) or market in the proprietary funds. The costs of inventory items are recorded as expenditures in the governmental funds when purchased and expenses in the proprietary funds when used.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Prepaid Water Contract

The County has entered into a contract with Cincinnati Waterworks to provide water to the County that will benefit periods beginning in 2000 until December 31, 2025. This item is recorded as a prepaid water contract in the Water Fund (enterprise) using the consumption method. This will reflect the current asset amount as a prepaid item and the expense in the year in which it is consumed.

J. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2011 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

K. Capital Assets and Depreciation

Capital assets are defined by the County as a specific piece of real or personal property, which has the following characteristics:

- Tangible in nature, possesses physical substance, actual or estimated cost of ten thousand dollars or more
- Identifiable intangible permanent right-of-ways
- Identifiable intangible software, purchased or internally generated cost of one hundred thousand dollars or more
- Expected useful life longer than five years

1. Property, Plant and Equipment - Governmental Activities

Governmental Activities capital assets are those not directly related to the business type funds. These generally are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds and are capitalized at cost or estimated historical cost for assets not purchased in recent years.

Estimated historical costs for governmental activities capital asset values were initially determined by identifying historical costs when such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

Application development expenses for internally developed software have been capitalized. Implementation/operation activities are expensed.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Capital Assets and Depreciation (Continued)

1. Property, Plant and Equipment - Governmental Activities (Continued)

Capital assets include land (including permanent easements), construction in progress, land improvements, buildings, structures and improvements, furniture, fixtures and equipment (including computer software), and infrastructure. Infrastructure is defined as long-lived capital assets that normally are stationary in nature and normally can be preserved for a significant number of years. Examples of governmental activities infrastructure include roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems. These assets are reported in the Governmental Activities column of the Government-wide Statement of Net Assets, but they are not reported in the Fund Financial Statements.

2. Property, Plant and Equipment – Business Type Activities

Proprietary funds capital assets are stated at cost (or estimated historical cost), including interest capitalized during construction and architectural and engineering fees where applicable. Contributed capital assets are recorded at fair market value at the date received. Proprietary funds capital assets are similar to Governmental Activities capital assets with the exception of the infrastructure. Proprietary infrastructure consists of water and sewer lines, whereas Governmental Activities infrastructure consists of roads and bridges. These assets are reported in both the Business-Type Activities column of the Government-wide Statement of Net Assets and in the respective funds.

3. Depreciation

Tangible capital assets are depreciated, excluding land and construction in progress, and intangible assets (computer software) costs are amortized. Depreciation and amortization have been provided using the straight-line method over the following estimated useful lives:

Description	Governmental and Business-Type Activities Estimated Lives (in years)
Land Improvements (Water and Sewer Lines)	50
Buildings, Structures and Improvements	20 - 40
Furniture, Fixtures and Equipment (Including Computer Software)	5 - 25
Infrastructure	15 – 100

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. Capitalization of Interest

The County's policy is to capitalize interest for proprietary (enterprise) fund construction projects until the project is substantially completed. Capitalized interest on proprietary fund construction is amortized on a straight-line basis over the estimated useful life of the asset. There was no interest capitalized for proprietary funds during 2011.

M. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the enterprise fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and long-term notes that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

N. Long-Term Obligations

Long-Term liabilities are being repaid from the following funds:

<u>Obligation</u>	<u>Fund</u>
General Obligation Bonds	Court Building Construction Fund Tax Increment Financing Fund
Special Assessment Bonds	Special Assessment Fund
Capital Leases	Child Support Enforcement Fund
Tax Increment District Revenue Bonds	Tax Increment District Revenue Loan Fund
State 166 Loan	Tax Increment Financing Fund
Ohio Public Works Commission Loan	State OPWC Loan Fund
Ohio Department of Transportation Loan	State DOT Loan Fund
Ohio Water Development Authority Loans	Water Fund Sewer Fund
Mortgage Revenue Bonds	Water Fund

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Long-Term Obligations (Continued)

Compensated Absences	General Fund
	Board of Developmental Disabilities Fund
	Youth Service Subsidy Fund
	Water Fund
	Sewer Fund
	Storm Water Fund
	Sheriff Revolving Fund
	Health Insurance Fund
	Workers Comp Fund

O. Bond Discounts/Issuance Costs

Bond discounts and issuance costs for governmental and proprietary fund types are deferred and amortized over the term of the bonds using the bonds-outstanding method, which approximates the effective interest method. Bond discounts are presented as a reduction of the face amount of bonds payable, bond premiums are recorded as an increase to the face amount of bonds payable, and issuance costs are recorded as deferred charges.

P. Compensated Absences

In accordance with GASB Statement No. 16, "Accounting for Compensated Absences," vacation and compensatory time are accrued as liabilities when an employee's right to receive compensation is attributable to services already rendered and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments, at termination or retirement. Leave time that has been earned but is unavailable for use as paid time off or as some other form of compensation because an employee has not met the minimum service time requirement, is accrued to the extent that it is considered to be probable that the conditions for compensation will be met in the future.

Sick leave is accrued using the vesting method, whereby the liability is recorded on the basis of leave accumulated by employees eligible to receive termination payments as of the balance sheet date, and on leave balances accumulated by other employees expected to become eligible in the future to receive such payments.

For governmental funds, that portion of unpaid compensated absences that is due and payable as of year end using expendable, available resources is reported as an expenditure in the fund from which the individual earning the leave is paid, and a corresponding liability is reflected in the account "Compensated Absences Payable." In the government wide statement of net assets, "Compensated Absences Payable" is recorded within the "Due within one year" account and the long-term portion of the liability is recorded within the "Due in more than one year" account. Compensated absences are expensed in the proprietary funds when earned and the related liability is reported within the fund.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Q. Grants and Other Intergovernmental Revenues

Local governmental fund revenues are recorded as receivables and revenue when measurable and available. Assistance awards made on the basis of entitlement are recorded as intergovernmental receivables and revenues when entitlement occurs. Federal and State reimbursement-type grants for the acquisition or construction of capital assets in Proprietary funds are receivables and capital contributions when the related expenses are incurred.

All other Federal and State reimbursement-type grants are recorded as receivables and revenues when the related expenditures/expenses are incurred.

R. Restricted Cash and Cash Equivalents with Fiscal Agent

Restricted cash and cash equivalents with fiscal agent reported in the Special Assessment Fund (Governmental-Type Activities) are matured bonds that have yet to be redeemed by bond holders and restricted cash and cash equivalents in the Water and Sewer Funds (Business-Type Activities) represent temporarily restricted assets that will be paid to bond holders upon maturity of the annual coupon.

S. Pensions

The provision for pension costs is recorded when the related payroll is accrued and the obligation is incurred.

T. Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for water treatment and distribution, wastewater collection and treatment, policing services to other governments and communications maintenance services. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

U. Special Assessments

The County reports Special Assessment bonds in the governmental activities on the entity wide statement of net assets. These bonds are secured by liens on assessed properties and are also backed by the full faith and credit of the County. Special assessment debt service payments are recorded in the Special Assessment Fund. Capital outlay financed by special assessments are recorded in the Capital Projects Funds.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

V. Self-Funded Insurance

The County is self-funded for employee health care, prescription, dental, vision and workers' compensation benefits. The programs are administered by Custom Design Benefits, Express Scripts, Dental Care Plus and Sedgwick CMS, Inc. which provide claims review and processing services. For health care, prescription, dental and vision, each County fund is charged for its proportionate share of covered employees. The County records a liability in claims payable for incurred but unreported claims at year-end based upon an analysis of historical claims and expenses. For workers' compensation, each County fund is charged for actual claims paid plus administrative fees based upon number of employees per department.

W. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

X. Fund Balance

Classification of Fund Balance – In accordance with GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions," the County's fund balance is divided into five classifications based primarily on the extent to which the County must observe constraints imposed upon the use of its governmental fund resources. The classifications are as follows:

Nonspendable – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Restricted – Fund balance is restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of County Commissioners. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assigned – Assigned fund balance classification balances are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board of County Commissioners.

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes amounts not included in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Y. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets net of accumulated depreciation, and net of outstanding balances of any borrowings related to the acquisition, construction or improvements of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The County applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes reconciliation between fund balance – total governmental funds and net assets of governmental funds as reported in the government-wide statement of net assets. The following is a detailed listing of those reconciling items that are net adjustments or a combination of several transactions:

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

Other long-term assets not available to pay for current-period expenditures:

Unamortized Bond Issuance Costs	\$137,035
Shared Revenues	7,845,170
Interest Revenue	183,401
Special Assessment Revenue	14,027,765
	<hr/>
	\$22,193,371

Long-Term liabilities not reported in the funds:

General Obligation Bonds Payable	\$6,861,844
Special Assessment Bonds Payable	11,541,111
Tax Increment District Revenue Bonds Payable	2,285,000
Loans Payable	4,669,970
Capital Leases Payable	5,286
Accrued Interest on Long-Term Debt	78,448
Retainage Payable	350,085
Compensated Absences Payable	4,852,095
	<hr/>
	\$30,643,839

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net assets of governmental activities as reported in the government – wide statement of activities. The following is a detailed listing of those reconciling items that are net adjustments or a combination of several transactions:

WARREN COUNTY, OHIO

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

Amount by which capital outlay exceeded depreciation in the current period:

Capital Outlay	\$7,482,157
Capital Contributions	661,819
Depreciation Expense	<u>(4,527,039)</u>
	\$3,616,937

Governmental revenues not reported in the funds:

Increase in Shared Revenue	\$32,120
Decrease in Interest Revenue	(395,632)
Decrease in Special Assessment Revenue	(808,119)
Decrease in Charges for Services	<u>(2,100)</u>
	(\$1,173,731)

Net amount of long-term debt issuance and bond and lease principal payments:

General Obligation Bond Principal Payments	\$891,918
Special Assessment Bond Principal Payments	1,343,957
Tax Increment District Revenue Bond Payments	40,000
Loan Payments	690,203
Capital Lease Payments	2,998
Unamortized Bond Issuance Costs	(16,502)
Issuance of 2011 Various Purpose SA Bonds	<u>(555,810)</u>
	\$2,396,764

Expenses not requiring the use of current financial resources:

Increase In Compensated Absences Payable	(\$192,305)
Increase in supplies inventory	<u>207,015</u>
	\$14,710

NOTE 3 – CHANGES IN ACCOUNTING PRINCIPLES AND RESTATEMENT OF FUND BALANCE

A. Changes in Accounting Principles

For fiscal year 2011, the County has implemented GASB Statement No. 54 *Fund Balance Reporting and Governmental Fund Type Definitions* and GASB Statement No. 59 *Financial Instruments Omnibus*.

GASB Statement No. 54 enhances the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The requirements of this statement classify fund balance as nonspendable, restricted, committed, assigned and unassigned.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 3 – CHANGES IN ACCOUNTING PRINCIPLES AND RESTATEMENT OF FUND BALANCE (Continued)

GASB Statement No. 59 updated and improved existing standards regarding financial reporting and disclosure requirements of certain financial instruments and external investment pools for which significant issues have been identified in practice. Implementation of this GASB statement did not affect the presentation of the financial statements of the County.

B. Restatement of Net Assets

A prior period adjustment in the General Fund has resulted in changes to the December 31, 2010 Statement of Net Assets as follows:

Description	Governmental Activities
Total Net Assets at 12/31/10 (As reported)	\$216,485,080
Accounts Receivable	532,886
At 12/31/10 (As restated)	\$217,017,966

C. Restatement of Prior Year Balances

Fund reclassification of the Certificate of Title special revenue fund was required in order to report funds in accordance with GASB Statement No. 54 having the following effect on the County's governmental fund balances previously reported:

	General Fund	Other Governmental Funds
Fund Balance at December 31, 2010	\$26,863,299	\$53,386,055
Prior Period Adjustment	532,886	0
GASB 54 Fund Reclassification of Certificate of Title Fund	1,370,588	(1,370,588)
Restated Fund Balance at December 31, 2010	\$28,766,773	\$52,015,467

This space intentionally left blank.

WARREN COUNTY, OHIO

**Notes to the Basic Financial Statements
For the Year Ended December 31, 2011**

NOTE 4 – FUND BALANCE CLASSIFICATION

Fund balance is classified as nonspendable, restricted, committed, assigned, and unassigned based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General	Board of Developmental Disabilities	Special Assessments	Other Governmental Funds	Total Governmental Funds
Nonspendable:					
Inventory of Supplies	\$29,178	\$0	\$0	\$962,202	\$991,380
Prepaid Items	231,448	17,179	0	9,588	258,215
Total Nonspendable	260,626	17,179	0	971,790	1,249,595

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 5 – DEFICIT FUND EQUITIES

At December 31, 2011 the following fund had a deficit fund/net asset balance:

<u>Fund</u>	<u>Deficit</u>
Capital Project:	
Sewer Extension Projects Fund	\$91,510
Internal Service Fund:	
Health insurance Fund	1,418,783

The fund/net asset deficit arises from the recognition of expenditures on the modified accrual basis/accrual basis, which are greater than expenditures/expenses recognized on the budgetary/cash basis. The deficit does not exist under the cash basis of accounting. The General Fund provides transfers when cash is required, not when accruals occur.

NOTE 6 - CASH, CASH EQUIVALENTS AND INVESTMENTS

The County Treasurer combines a majority of cash resources of the individual funds to form a pool of cash and investments. Each fund type's portion of this pool is displayed on the combined balance sheet as "Cash, Cash Equivalents and Investments." Investments are reported at fair value, which is based on quoted market prices. Ohio law requires the classification of funds held by the County into two categories.

Active monies are public monies determined to be necessary to meet current demand upon the County Treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawn on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the County identified as not required for use of current expenses. Inactive deposits must either be evidenced by certificates of deposit or by savings or deposit accounts including, but not limited to passbook accounts.

Ohio Law, under Ohio Revised Code Section 135.35, permits inactive monies to be deposited or invested in the following:

- United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 6 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

- Bond and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly within the County;
- Time certificates of deposit or savings or deposit accounts, including, but not limited to, passbook accounts;
- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- The State Treasury Asset Reserve of Ohio (STAR Ohio);
- Securities lending agreements in which the County lends securities and the eligible institution agrees to exchange either securities described in (1) or (2) above or cash or both securities and cash, equal value for equal value;
- High grade commercial paper in an amount not to exceed 25 percent of the County's total average portfolio; and
- Bankers acceptances for a period not to exceed 180 days and in an amount not to exceed 25 percent of the County's total average portfolio.

The County invests in United States Treasury obligations and eligible guaranteed obligations of the United States, the State Treasury Asset Reserve (STAR Ohio), certificates of deposit, commercial paper and mutual funds which are invested exclusively in United States obligations. All investments comply with the limitations with respect to length of maturities contained in Chapter 135 of the Ohio Revised Code (The Uniform Depository Act). The maximum maturity of any investment of the County will be five years. The County interprets the limit on federal guaranteed investments and all legal investments very conservatively.

At December 31, 2011, the County did not own any derivative type investments, interest only investments, collateralized mortgage obligations, commercial paper or reverse repurchase agreements. The County Treasurer has attended special training in all of the investment areas to assure compliance with the strictly conservative philosophy of the County. All investments are transacted with banks the County believes to be reputable or other financial institutions operating in the State of Ohio that are well versed in the statutory restrictions Ohio political subdivisions operate under and also have an understanding of the County investment requirements.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 6 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

A. Deposits

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned. Warren County's policy as it relates to custodial credit risk is to follow the Ohio Revised Code chapter 135 as well as to practice sound financial management principles focusing on diversification of deposits. Protection of County cash and deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the assets. Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the County places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105% of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

At year end the carrying amount of the County's deposits was \$24,367,651 and the bank balance was \$25,362,807. Federal depository insurance covered \$2,306,012 of the bank balance and remaining deposits were collateralized as follows: pledged collateral, held in the County's name by the financial institution's trust department, in the amount of \$19,999,677, pooled collateral, consisting of securities held by the Federal Reserve Bank in the name of the pledging financial institution or institution's trust department but not in the County's name, in the amount of \$3,057,118. The County had \$406,680 in undeposited cash on hand at December 31, 2011 which is included as Cash and Cash Equivalents on the balance sheet.

B. Investments

The County's investments are detailed below and are categorized to give an indication of the level of risk assumed as of year end.

	<u>Fair Value</u>	<u>Average Weighted Days to Maturity</u>
Government Sponsored Enterprise Investments	\$113,986,545	872.60
STAR Ohio	5,903,043	0.04
U.S. Treasuries Money Market Fund	18,162,182	0.13
County Government Bonds	3,055,220	184.61
Total Investments	<u>\$141,106,990</u>	<u>1,057.38</u>

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 6 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Interest Rate Risk – The Ohio Revised Code generally limits security purchases to those that mature within five years of settlement date. The current County Investment and Depository Policy has been expanded from its previous three year maturity position to a five year maturity position (mirroring the Ohio Revised Code). This new investment tool allows the County the opportunity to “lock in” a portion of its investments at higher rates for a longer period of time, when interest rates are at their peak during an interest rate cycle.

Credit Risk – The County follows the Ohio Revised Code (ORC) which limits the amount of credit risk it’s going to allow any county to become involved in. It accomplishes this by compiling a specific list of investments, to the exclusion of all other investments, which counties are legally allowed to participate in. The County further minimizes its credit risk by placing most of its available funds in obligations of the US Government or its Agencies; STAR Ohio, which is comprised mostly of US Government and Agency obligations and is specifically authorized and endorsed by the Ohio State Treasurer; as well as local bank CD’s, which are collateralized by US Government and Agency obligations. The County also invests in Money Market Funds that are invested solely in US Treasuries. Even though Commercial Paper is an ORC authorized investment, because it is associated with higher credit risk, the County has specifically and significantly limited its use in the County’s portfolio and at December 31, 2010 did not have any Commercial Paper investments. The County’s investments at December 31, 2011 in FFCB, FHLB, FHLMC, FAMCA, FNMA, are rated AA+ by Standard and Poor’s. Its investment in STAR Ohio is rated AAAM by Standard and Poor’s. Obligations of the US Government are explicitly guaranteed by the US Government and are not considered to have credit risk. The investment in Warren County Special Assessment Bonds are rated Aa2 based upon the County’s credit rating.

Concentration of Credit Risk – The County places no limit on the amount the County may invest in one issuer. Of the County’s total investments, 3.88% are FFCB, 24.35% are FHLB, 17.34% are FHLMC, 34.49% are FNMA, 0.72% are FAMCA, 4.18% are STAR Ohio, 12.87% are US Treasuries Money Market Fund and 2.17% is Warren County Special Assessment Bonds.

Cash and cash equivalents in the amount of \$182,492 for the component unit, Production Services Unlimited, Inc. (PSU), are considered active funds for immediate use maintained either as cash or in depository accounts payable or able to be withdrawn on demand. At year-end the carrying amount of PSU deposits was \$182,492 and the bank balance was \$205,007. Federal depository insurance covered \$205,007 of the bank balance.

Cash and cash equivalents in the amount of \$2,941,493 for the component unit, Transportation Improvement District (TID), are considered active funds for immediate use maintained either as cash or in depository accounts payable or able to be withdrawn on demand. At year-end the carrying amount of TID deposits was \$2,941,493 and the bank balance was \$2,941,493. Federal depository insurance covered \$250,000 of the bank balance. The remaining \$2,691,493 was collateralized by securities pledged by the institution holding the assets.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 7- TAXES

A. Property Taxes

Property taxes include amounts levied against all real, public utility, and tangible personal property located in the County. Taxes from real property (other than public utility) collected during 2011 were levied after October 1, 2010 on assessed values as of January 1, 2010, the lien date. Assessed values are established by the County Auditor at 35% of appraised market value. All property is required to be revalued sexennially with a triennial update. Real property taxes are payable annually or semi-annually. If paid annually, payment is due February 25; if paid semi-annually, the first payment is due February 25, with the remainder payable by July 15. In certain circumstances, state statute permits earlier or later payment dates to be established.

The State of Ohio enacted a Commercial Activity Tax (CAT) effective in 2006 and subsequently is phasing out the Tangible Personal Property Tax over the following four years. Local revenues lost are to be reimbursed from the CAT until 2011. As of tax year 2009 Interexchange telephone carriers were the only business subject to the tangible personal property tax.

Public utility tangible personal property taxes collected in one calendar year are levied in the preceding year on assessed values as of January 1 of that preceding year, the lien date. Public utility tangible personal property currently is generally assessed by the Ohio Tax Commissioner at various assessment rates depending on the type of utility & type of property. Public utility property taxes are payable on the same dates as real property taxes described previously.

Beginning in tax year 2001, the percentages used to determine the assessed value of electric company personal property used in the production of electricity was reduced from 100% to 25% of true value; taxable transmission and distribution property will continue to be assessed at 88% of true value (50% of true value for rural electric companies). The state is to reimburse local taxing districts for a portion of the revenues lost due to this reduction in tax valuation with proceeds of a new kilowatt-hour excise tax imposed on electricity consumers.

For tax levies which are to produce a given dollar amount each year (such as debt service levies), the reimbursement is to be generally the amount that would have otherwise been collected from the utility property less an amount equal to one-fourth of a mill. For all other non school district tax levies, the State reimbursement is to be, in general, a percentage of the amount that would have otherwise been collected from the utility property, which percentage is to decline from 100% in 2002 to 0% in 2017 and thereafter. In 2010 the State Budget Bill made modifications to this schedule, phasing out some reimbursements at an earlier date. All such school district tax levies are to be reimbursed at generally an amount sufficient to produce the same revenues that would have otherwise been collected but taking into account State education aid. Tax levies which were (i) not in effect for the 1998 tax year or (ii) approved by the voters after June 30, 1999 are not eligible for reimbursement by the State.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 7 - TAXES (Continued)

A. Property Taxes (Continued)

The County Treasurer collects property taxes on behalf of all taxing districts in the County. The County Auditor periodically remits to the taxing districts their portion of the taxes collected with final settlement in April and September for taxes payable in the first and second halves of the year, respectively. The full tax rate of all County operations for the year ended December 31, 2010 was \$5.78 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which the 2011 property tax levy was based totaled \$5,675,303,520 which was comprised of \$5,447,481,370 in real property, and \$227,822,150 in public utility personal property.

Ohio Law prohibits taxation of property from all taxing authorities in excess of 10 mills of assessed value without a vote of the people. Under current procedure, the County's un-voted share of the 10 mills is 2.57 mills of assessed value. The County is levying the full 2.57 mills on assessed value.

B. Other Taxes

In addition to property taxes, certain other taxes are recognized as revenue by the County. These taxes include the 1% County levied sales tax, gasoline taxes, property transfer tax and miscellaneous other taxes which have various lien, levy and collection dates.

NOTE 8 - RECEIVABLES

Receivables at December 31, 2011, consisted of taxes, interfund, accounts receivable, special assessments, interest, HOME Investment Partnership Program and Community Development Block Grant Program loans and intergovernmental receivables arising from shared revenues. All receivables are considered collectible in full.

This space intentionally left blank.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 9 - INTERFUND RECEIVABLES AND PAYABLES

Interfund balances are expected to be repaid within one year or less. The following balances at December 31, 2011 represent interfund loans receivable and payable:

	Interfund Loans	
	Receivables	Payables
Governmental Funds:		
General Fund	\$569,000	\$0
Other Governmental Funds	1,863,064	2,432,064
Total Governmental Funds	<u>2,432,064</u>	<u>2,432,064</u>
Proprietary Funds:		
Enterprise Fund:		
Sewer Fund	500,000	0
Internal Service Funds	0	500,000
Total Proprietary Funds	<u>500,000</u>	<u>500,000</u>
Total Interfund Loans	<u>\$2,932,064</u>	<u>\$2,932,064</u>

Interfund loans purpose is to allow some funds to operate and pay vendors timely with cash while awaiting anticipated revenue. Loans are often used as a means of short-term financing for assessment projects and as a way to cash flow funds that are specifically for reimbursable grants.

The following balances at December 31, 2011, represent interfund receivables and payables:

	Interfund	
	Due From Other Funds	Due To Other Funds
Governmental Funds:		
General Fund	\$37,739	\$316,532
Board of Developmental Disabilities	0	154,479
Other Governmental Funds	160,612	267,518
Total Governmental Funds	<u>198,351</u>	<u>738,529</u>
Proprietary Funds:		
Enterprise Funds:		
Water	0	32,370
Sewer	0	23,594
Sheriff	0	54,371
Communications Rotary	2,404	0
Total Enterprise Funds	<u>2,404</u>	<u>110,335</u>
Internal Service Funds	<u>648,403</u>	<u>294</u>
Total Interfund Receivables and Payables	<u>\$849,158</u>	<u>\$849,158</u>

Interfund receivables and payables purpose is to account for amounts due between different funds for billings such as postage, telephone, vehicle maintenance, gasoline, drug testing, workers compensation charge-backs and unemployment charge-backs.

WARREN COUNTY, OHIO

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 10 - TRANSFERS

The following balances at December 31, 2011 represent transfers in and transfers out:

Fund	Transfer In	Transfer Out
Governmental Funds:		
General Fund	\$0	\$7,325,876
Other Governmental Funds	7,046,311	1,626,696
Total Governmental Transfers	7,046,311	8,952,572
Proprietary Funds:		
Enterprise Fund:		
Sheriff	606,261	0
Internal Service Funds	1,300,000	0
Total Proprietary Transfers	1,906,261	0
Total Transfers	\$8,952,572	\$8,952,572

The principal purpose for interfund transfers is to provide additional funding for current operations of certain Special Revenue funds, to segregate money for construction of capital assets and to pay government obligation debt.

This space intentionally left blank.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 11 - CAPITAL ASSETS (Continued)

B. Business-Type Activities Capital Assets (Continued)

Construction in Progress:

Construction in progress in the enterprise funds for costs incurred as of December 31, 2011 total \$33,608,871. This amount is comprised of the following projects:

Lower Little Miami WWTP	\$29,125,519
North/South Interconnecting Water Mains	2,776,752
St. Rt 122 & Utica Road Assessment Project	1,045,644
Various Other Water Projects	531,025
Various Other Sewer Projects	129,931
Total Construction in Progress	<u>\$33,608,871</u>

The Water and Sewer Department strives to stay ahead of the demands for water and sewer services in Warren County. With new development practically coming to a halt over the last couple of years, it has given the Water and Sewer Department the opportunity to make much needed upgrades to some aging facilities. The following projects are in the various stages of engineering or construction.

Wastewater Treatment Plant Upgrades The County is currently expanding the Lower Little Miami Waste Water Treatment Plant from 7 million gallons per day (mgd) to 12 mgd average daily flow at a cost of \$31.4 million. The expanded treatment plant anticipates final completion of the improvements in June 2012.

North-South Interconnecting Waterline The County is constructing approximately 3.4 miles of 24-inch waterline at a construction cost of \$2.8 million. This water line will help meet future demands in the southern portion of the county and will allow the County to convey water from the North Water Treatment Plant to service areas in Deerfield and Hamilton townships. The last phase of the project will be completed in 2013.

State Route 122 and Utica Road Assessment Residents on a section of State Route 122 and Utica Road petitioned the County to provide water service to the area, as many of the resident's wells were no longer a viable source for drinking water and other water needs. Approximately 13,500 feet of 10 inch ductile iron pipe has been installed to serve 73 residents. The installation of this water line will also complete a much needed loop in the County's water system. Each resident was assessed \$9,400 for the cost of the construction and the County will contribute approximately \$400,000. The project is substantially complete and most residents have already connected to the water line. Restoration is expected to be completed in Spring of 2012 and the total costs will be around \$1.04 million.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 12 - DEFINED BENEFIT PENSION PLANS

All of the County's full-time employees participate in one of two separate retirement systems which are cost-sharing multiple employer defined benefit pension plans.

A. Ohio Public Employees Retirement System (the "OPERS")

The following information was provided by the OPERS to assist the County in complying with GASB Statement No. 27, "Accounting for Pensions by State and Local Government Employers."

All employees of the County, except teachers at the Board of Developmental Disabilities, participate in the OPERS, a multiple-employer public employee retirement system. OPERS administers three separate pension plans. The Traditional Pension Plan is a cost sharing, multiple employer defined benefit pension plan. The Combined Plan is also a cost sharing, multiple employer defined benefit pension plan where employer contributions are invested by OPERS to provide a formula retirement benefit similar in nature to the Traditional Pension Plan and member contributions are self-directed and accumulate retirement assets equal to the value of member contributions plus any investment earnings. The Member-Directed Plan is a defined contribution plan in which the member invests both member and employer contributions to accumulate retirement assets equal to the value of contributions plus any investment earnings. The OPERS provides retirement, disability, survivor and death benefits and annual cost-of-living adjustments to members of the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post employment health care coverage. Chapter 145 of the Ohio Revised Code provides statutory authority to establish and amend benefits. The Ohio Public Employees Retirement System issues a stand-alone financial report that includes financial statements and required supplementary information for the OPERS. Interested parties may obtain a copy by making a written request to 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-6705 or 1-800-222-7377.

The Ohio Revised Code provides statutory authority for employee and employer contributions. For 2011, member and employer contribution rates were consistent across all three plans. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only in the Traditional Pension Plan. The employee contribution rate for employees other than law enforcement is 10%. Law enforcement officers in the County Sheriff's department contribute 11.6% of covered salary. The 2011 employer contribution rate for local government employer units was 14% of covered payroll. Of this amount, for members of the Traditional Plan, 10% was used to fund the pension and 4% to fund health care for 2011. For members of the Combined Plan, 7.95% was used to fund the pension and 6.05% was used to fund health care for 2011. For law enforcement, the employer contribution rate was 18.10% of covered payroll. Of this amount, 14.10% was used to fund the pension and 4% to fund health care.

The contribution requirements of plan members and the County are established and may be amended by the Ohio Public Employees Retirement Board. The County's contribution to the OPERS for the years ending December 31, 2011, 2010, and 2009 were \$6,819,732, \$6,726,689, and \$6,761,444 respectively, for employees of the County and \$1,148,026, \$1,107,980, and \$1,052,171 respectively, for law enforcement officers, which were equal to the required contributions for each year.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 12 – DEFINED BENEFIT PENSION PLANS (Continued)

A. Ohio Public Employees Retirement System (the “OPERS”) (Continued)

The OPERS provides post employment health care benefits to age and service retirants under the Traditional Pension and Combined Plans with ten or more years of qualifying Ohio service credit. Health care coverage for disability recipients and qualified survivor benefit recipients is also available. The health care coverage provided by the OPERS is considered an Other Post Employment Benefit (OPEB) as described in GASB Statement No. 45. A portion of each employer's contribution to the OPERS is set-aside for the funding of post retirement health care.

The Ohio Revised Code provides statutory authority requiring public employers to fund post employment health care through their contributions to the OPERS. The portion of the 2011 employer contributions (identified above) for employees other than law enforcement used to fund health care was \$1,948,398. For law enforcement employees, the portion used to fund health care amounted to \$253,714.

OPERS adopted a Health Care Preservation Plan (HCPP) with an effective date of January 1, 2007. In addition to the HCPP, OPERS has taken additional action to improve the solvency of the Health Care Fund in 2005 by creating a separate investment pool for health care assets. As an additional component of the HCPP, local government member and employer contribution rates increased on January 1 of each year from 2006 to 2008 and law enforcement employer contribution rates will increase over a six year period beginning January 1, 2006 with a final rate increase on January 1, 2011. These rate increases allowed additional funds to be allocated to the health care plan.

B. State Teachers Retirement System of Ohio (STRS of Ohio)

The teachers who work for the Board of Developmental Disabilities participate in the State Teachers Retirement System of Ohio (STRS), a cost-sharing, multiple employer retirement system administered by the State Teachers Retirement Board.

STRS administers three separate pension plans. The Defined Benefit Plan is a cost sharing multiple-employer defined benefit pension plan. Benefits are established under Chapter 3307 of the Revised Code. The Defined Contribution Plan allows the member to allocate the member and employer contributions among various investment choices. Plan benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. The Combined Plan allows members to allocate their contributions to their selected investment choices and the employer contributions are used to fund a defined benefit payment. STRS provides basic retirement benefits, disability, survivor and health care benefits based on eligible service credit to members and beneficiaries. Members of the Defined Contribution plan are not eligible for health care benefits. STRS issues a stand-alone financial report that includes financial statements and required supplementary information for the STRS of Ohio. Interested parties may obtain a copy by making a written request to STRS Ohio, 275 E. Broad Street, Columbus, Ohio 43215-3371 or by calling (614) 227-4090, or by visiting the STRS Ohio Web site at www.strsoh.org.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 12 – DEFINED BENEFIT PENSION PLANS (Continued)

B. State Teachers Retirement System of Ohio (STRS of Ohio) (Continued)

The Ohio Revised Code provides statutory authority for County and employee contributions. The contribution requirements of plan members and the County are established and may be amended by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. For fiscal year ended June 30, 2011, 13% was the portion of County contribution used to fund pension obligations. The County's contributions to the STRS of Ohio for the years ending December 31, 2011, 2010 and 2009 were \$23,738, \$30,295, and \$29,185 which were equal to the required contributions for each year.

STRS provides access to health care coverage to retirees who participated in the Defined Benefit or Combined Plans and their dependents. Coverage includes hospitalization, physicians' fees, prescription drugs, and partial reimbursement of monthly Medicare Part B premiums. Pursuant to the Revised Code, the State Teachers Retirement Board has discretionary authority over how much, if any, of the health care cost will be absorbed by STRS. All benefit recipients are required to pay a portion of the health care cost in the form of a monthly premium.

Benefits are funded on a pay-as-you-go basis through an allocation of employer contributions to a health care stabilization fund equal to 1% of covered payroll for 2011. The portion of the 2011 employer contributions (identified above) used to fund health care for fiscal year 2011 amounted to \$237.

NOTE 13 - COMPENSATED ABSENCES

The costs of vacation and sick leave benefits are recorded as they are earned. Employees earn vacation leave at varying rates based upon length of service. Sick leave is accumulated at a rate of four and six tenths hours per eighty hours of bi-weekly service and pro-rated for hours less than eighty. Sick leave is cumulative without limit.

At December 31, 2011, the County's accumulated, unpaid compensated absences amounted to \$5,670,849. Of this amount, \$4,877,485 is recorded as Governmental Activities on the Entity Wide Statement of Net Assets (\$355,482 is reported as due within one year), \$793,364 is recorded as Business-type activities (\$32,766 is reported as due within one year).

WARREN COUNTY, OHIO

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 13 - COMPENSATED ABSENCES (Continued)

At December 31, 2011 the liability recorded as Governmental Activities within the Statement of Net Assets representing unpaid vacation time, sick leave and compensatory time was as follows:

	<u>Hours</u>	<u>Balance</u>	<u>Amount Due Within One Year</u>
Vacation Time	119,095	\$2,704,120	\$190,489
Sick Time	84,146	2,103,496	164,993
Compensatory Time	<u>3,624</u>	<u>69,869</u>	<u>0</u>
Total	<u>206,865</u>	<u>\$4,877,485</u>	<u>\$355,482</u>

NOTE 14 - LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS

General obligation bonds are secured by the County's ability to levy a voted or unvoted property tax within limitations of Ohio law.

The 1991 G.O. Building Project Bond, issued for various county building improvements, was paid in full in 2011 from the debt service fund utilizing a portion of the 1/2% additional sales tax levied in 1992.

The 2005 Tax Increment Financing (TIF) Refunding Bond was issued as a general obligation bond. The TIF was originally issued to finance water system improvements in the county, including expanding the Deerfield-Hamilton Water Treatment Plant and to expand and upgrade the Lower Little Miami Wastewater Treatment Plant.

The 2010 Road and Interchange Bonds were issued to finance the costs of the design and engineering of modifications to the I-71 Fields-Ertel Road/Mason-Montgomery Road interchange and the I-71 Western Row Road interchange.

The 2005 TIF Bond, the 2010 Road and Interchange Bonds and the State 166 Loan (mentioned below) and are being retired from the debt service fund utilizing payments in lieu of taxes received from Proctor and Gamble. A service agreement with Proctor and Gamble provides for minimum annual payments sufficient to satisfy the debt service requirements on these three issues.

Special Assessment Bonds are financed by property tax assessments to affected property owners. However, the County is ultimately responsible for the debt service if the assessments are not collected. Delinquent special assessments related to outstanding special assessment bonded debt at year end was \$93,921.

The principal amount of the County's special assessment debt outstanding at December 31, 2011 of \$11,541,111 is general obligation debt (backed by the full faith and credit of the County). This debt is being retired with the proceeds from special assessments levied against benefited property owners. The County is obligated to repay the debt irrespective of the amount of special assessments collected from property owners. The fund balance of \$1,288,155 in the Special Assessment Debt Service Fund at December 31, 2011 is reserved for the retirement of outstanding special assessment bonds.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 14 - LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS (Continued)

The 2009 Tax Increment District Revenue Bonds were issued to finance the Greens of Bunnell Hill Project. The project involved the purchase of certain streets consisting of a portion of Sandlwood Street, a portion of Scotch Pine Drive, Black Walnut Drive, Ponderosa Court, Juniper Court and Boxwood Court and to reimburse both the County Engineer and Clearcreek Township for the cost of public improvement expenditures made to the site. The Bonds are secured by and payable solely from the revenues generated from the service payments in lieu of taxes generated pursuant to section 5709.77 of the Ohio Revised Code.

A State 166 Loan was issued in lieu of additional TIF bonds to assist with infrastructure costs in conjunction with the building of the Procter & Gamble Health Care Research Center. The State 166 Loan accrued interest monthly from March of 1994 through February of 2008. The annual accrued interest amount was added to State 166 Loan Payable. The first payments on the State 166 Loan debt began in March of 2008.

The 2000 Ohio Public Works Commission interest-free loan was used to cover costs incurred for the Columbia Road Reconstruction Project. The loan was retired from the debt service fund in 2011 by funding provided by the County Engineer.

The 2002 Waterworks System Revenue Refunding Bond is currently the only Revenue Bond of the Water System. Revenue bond trust indentures require the County Water and Sewer Funds to maintain minimum debt service coverage ratios. The minimum coverage ratio required for the fiscal year 2011 was 120%. The bond coverage ratio for the fiscal year, based upon operating revenue and investment income and operating expenses excluding depreciation, was 282% for the Water Fund. The Sewer Fund did not have any revenue bond debt outstanding in 2011. The ratio for the Water Fund increased to 617% when the calculation includes the tap-in fees collected from customers connecting to the existing water system.

In 2005, the Water Department entered into a reimbursing loan agreement with the Ohio Water Development Authority (OWDA) for the expansion of the Deerfield Hamilton Water Supply and Treatment Plant. The loan amount was \$5,000,138 and carries a 2% interest rate. The semi-annual loan payments began in 2010 and will continue through the end of 2029.

In 2010 the Sewer Department secured a twenty (20) year loan with a maximum borrowing of \$15,174,531 at 3.11% interest rate from the Water Pollution Control Loan Fund (WPCLF). The agreement for the loan was entered into with the Ohio Water Development Authority and the Environmental Protection Agency. The agreement included an additional \$5.0 million from the American Recovery & Reinvestment Act which was received during 2010 and is considered debt forgiveness that does not have to be repaid. The loan will be used to finance the Lower Little Miami Waste Water Treatment Plant Improvements. The project began in 2010 and is expected to be completed in 2012. Payments on the loan will not begin until July 1, 2012. In 2012 an amortization schedule will be generated based upon the total amount drawn against the loan. At the end of 2011 draws on the loan totaled \$8,805,016.

C. Conduit Debt Obligations

In order to provide financial assistance to private sector entities for the acquisition and construction of commercial and industrial facilities deemed to be in the public interest, the County has, from time to time, issued conduit debt. This debt is secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Ownership of the acquired facilities transfers to the private sector entity served by the bond issuance upon repayment of the bonds. Neither the County, the State nor any other political subdivision thereof is obligated in any manner for the repayment of the bonds. Accordingly, the conduit debt is not reported as liabilities in the accompanying financial statements.

As of December 31, 2011 there were ten (10) series of conduit debt outstanding. The aggregate principal amount payable for these series issued prior to January 1, 1996, could not be determined; however, their original issue amounts totaled \$13,350,000. Issue amounts for conduit debt issued after January 1, 1996 are monitored and currently have an outstanding principal debt totaling \$81,209,844 which brings the total conduit debt to \$94,559,844.

WARREN COUNTY, OHIO

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 15 - CAPITAL LEASES

In prior years, the County has entered into capital leases for copiers and a postage machine. Equipment acquired by lease has been capitalized in the government-wide statements governmental activities in the amount of \$13,585. The County's future minimum lease payments under lease obligations, which have been capitalized as of December 31, 2011, are as follows:

<u>Year Ending December 31,</u>	<u>Capital Leases</u>
2012	\$3,574
2013	2,085
Minimum Lease Payments	<u>5,659</u>
Less amount representing interest at the County's incremental borrowing rate of interest	<u>(373)</u>
Present value of minimum lease payments	<u><u>\$5,286</u></u>

* No payment required past 2013

NOTE 16 - CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

As of December 31, 2011, the County had the following significant construction projects that will be financed through Sewer Surplus Revenues, Ohio Water Pollution & Control Loan, Motor Vehicle & Gas Tax Revenues, and grants from the Ohio Public Works Commission & the Ohio Department of Transportation:

<u>Projects</u>	<u>Remaining Construction Commitment</u>	<u>Expected Date of Completion</u>
Bethany Road Widening Project	\$5,197,775	2013
Butler Warren Road Project	2,718,903	2013
Lower Little Miami WWTP	<u>2,038,387</u>	2012
Total	<u><u>\$9,955,065</u></u>	

NOTE 17 - RELATED PARTY TRANSACTION

Warren County provided salaries for administration, supervision, and facilities to Production Services Unlimited, Inc. (PSU), a discretely presented component unit of Warren County. PSU reported \$359,551 for these contributions, recording revenue and expenses at cost or fair market value, as applicable.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 18 - CONTINGENCIES

The County is a party to various legal proceedings which seek damages or injunctive relief generally incidental to its operations and pending projects. The County's management is of the opinion that the ultimate disposition of the various claims and legal proceedings will not have a material, adverse effect on the County's financial position.

The County participates in a number of Federal and State assisted grant programs. The significant programs are Child Support Enforcement Federal Formula Grant, Energy Efficiency and Conservation Block Grant, Title XIX Medical Assistance Program, Workforce Investment Act Grants, Felony Delinquent Care and Custody, Public Transportation Formula Grant, Temporary Assistance for Needy Families and Title IV-E Foster Care. These programs are subject to financial and compliance audits by grantors or representatives. The County believes that disallowed claims, if any, will not have material adverse effect on the County's financial position.

NOTE 19 - RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters.

The County Risk Sharing Authority, Inc. (CORSA) is a risk sharing pool made up of sixty-six counties in Ohio. CORSA was formed as an Ohio nonprofit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self-insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the various specified insurance coverage provided by CORSA. This coverage includes comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

Each member county has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of the Corporation are managed by an elected board of not more than nine trustees. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of certificates. The County does not have an equity interest in CORSA.

Insurance coverage stayed the same as coverage in the prior year. Settled claims during the last eight years have not exceeded commercial insurance coverage.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 19 - RISK MANAGEMENT (Continued)

The County has a group health insurance program for employees and their eligible dependents. Premiums are paid into an internal service fund by all funds having compensated employees, based upon an analysis of historical claims experience, the desired fund balance and the number of active participating employees. The monies paid into the Health Insurance Fund (internal service fund) are available to pay claims and administrative costs. The plan is administered by a third party administrator, Custom Design Benefits, who monitors all claim payments. Excess loss coverage, carried through United of Omaha, becomes effective after \$150,000 per year per specific claim. There is a annual maximum coverage per person of \$2,000,000.

The County health insurance had a total claims liability of \$2,765,370. This is reported (at face value) within the Health Insurance Fund (internal service) at December 31, 2011 and is based on the requirements of Governmental Accounting Standards Board Statement No. 10 which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. For BDD, all claims incurred in 2011 were paid in 2011. Both funds are reported within the governmental activities on the entity wide statements.

Changes in each of the fund's claims liability amount in 2011 were:

	<u>Balance at December 31, 2010</u>	<u>Current Year Claims</u>	<u>Claim Payments</u>	<u>Balance at December 31, 2011</u>
BDD				
2010	\$19,415	\$154,929	(\$157,793)	\$16,551
2011	16,551	136,513	(153,064)	0
County:				
2010	\$1,575,538	\$7,646,477	(\$8,551,497)	\$670,518
2011	670,518	14,022,703	(11,927,851)	2,765,370

NOTE 20 – INTERGOVERNMENTAL AGREEMENT

In 2011, the Warren County Board of Commissioners and the Warren County Engineer entered into an intergovernmental agreement with the Warren County Transportation Improvement District (TID). The agreement provided for 2011 payments of \$1,000,000 from the Engineer's County Road Projects Fund and an additional \$1,000,000 from the Engineer's County Road Projects Fund restricted for Procter & Gamble Tax Increment Financing (TIF). The County has also agreed to provide the TID with the annual available Procter & Gamble TIF revenues from the Engineer's County Road Projects Fund in years 2013 through 2022. Such available revenues are estimated to have a future value of approximately \$34,000,000 at December 31, 2011.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2011***

NOTE 21 - JOINT VENTURE

Warren/Clinton Counties Recovery Services Board

Warren County is a member of Mental Health Recovery Services of Warren and Clinton Counties (MHRS), a joint venture between the two county entities and is the local Alcohol, Drug Addiction, and Mental Health Services (ADAMHS) Board as defined by the Ohio Revised Code. The mission of MHRS is to share hope and caring to achieve recovery from mental illness, alcoholism, and drug addiction.

MHRS is governed by an 18-member board of directors, four of which are appointed by the Ohio Department of Mental Health (ODMH) and four by the Ohio Department of Alcohol and Drug Addiction Services (ODADAS). The remaining ten members are appointed by the Warren County Commissioners and the Clinton County Commissioners. MHRS's main sources of revenue are grants and other allocations from the two state departments previously named and a property tax levy in both counties.

MHRS contracts with independent, nonprofit agencies to provide services and programs. The Warren County Auditor and Treasurer maintain MHRS's financial records. Financial statements and the Single Audit Report of Examination are on file and can be obtained by writing to the Warren County Auditor's Office, 406 Justice Drive, Lebanon, Ohio 45036. Pursuant to Section 340.016 of the Ohio Revised Code, any withdrawing county would be required to submit a comprehensive plan that provides for the equitable adjustment and division of debts and obligations of the Joint County District to the State Director of Mental Health.

A summary of the unaudited cash basis financial information for the year ended December 31, 2011 is presented below:

Warren/Clinton Counties Recovery Services			
Assets	\$11,100,158	Revenues	\$16,309,527
Fund Equity	\$11,100,158	Expenses	\$17,639,939
		Net Income	<u><u>(\$1,330,412)</u></u>

NOTE 22 – JOINTLY GOVERNED ORGANIZATION

Southwest Ohio Regional Council of Governments

The Southwest Ohio Regional Council of Governments is a jointly governed organization among Warren, Butler, Clermont and Hamilton Boards of Developmental Disabilities. Southwest Ohio Regional Council of Governments was formed to coordinate the powers and duties of the member Boards to better serve and benefit persons with developmental disabilities in each of the Council's counties. The executive committee consists of a total of four members, three members elected annually by the member Boards and the immediate past president. During 2011, the County contributed \$10,000 towards the operation of the Southwest Ohio Regional Council of Governments.

*COMBINING AND INDIVIDUAL FUND
STATEMENTS AND SCHEDULES*

*THE FOLLOWING COMBINING STATEMENTS AND SCHEDULES INCLUDE
THE MAJOR AND NONMAJOR GOVERNMENTAL FUNDS, INTERNAL
SERVICE FUNDS AND FIDUCIARY FUNDS.*

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than amounts relating to major capital projects) that are legally restricted to expenditures for specified purposes.

Senior Citizens Service Levy Fund

To account for tax levy proceeds which provide the source of funding for senior citizen services.

Motor Vehicle and Gasoline Tax Fund

To account for monies received by the County for state gasoline tax and vehicle registration fees used for County road and bridge repair and improvements programs. Expenditures for township road and bridge work are reimbursed by the townships.

Human Services Fund

To account for various Federal and State grants and reimbursements as well as transfers from the General Fund used for human services programs.

Dog and Kennel Fund

This fund is used to account for fees collected for defraying the cost of administering the registration program, for compensation of the county dog wardens, deputy pound keepers and staff and for the payments of animal claims.

Permissive Tax Fund

To account for municipal motor vehicle permissive tax revenues from the State used for County road and bridge repair and improvement programs.

Real Estate Assessment Fund

To account for State mandated County-wide tax assessing expenses that are funded by charges to the political subdivisions located within the County.

Children's Services Board Fund

To account for various Federal and State grants and reimbursements used for County child care and adoption programs.

Youth Services Subsidy Fund

To account for revenues from the State for the purpose of maintaining a restitution program for juvenile offenders administered by the juvenile court.

Delinquent Real Estate Tax and Assessment Fund

This fund accounts for five percent (5%) of all certified delinquent taxes and assessments collected by the County Treasurer. These funds are used for the collection of delinquent property taxes and assessments and are appropriated one half to the County Treasurer and one half to the County Prosecuting Attorney.

(Continued)

Special Revenue Funds

Certificate of Title Administration Fund

To account for revenues and expenditures of the Clerk of Courts vehicle title registration operations. With the implementation of GASB 54, this fund was combined with the General Fund, therefore financial statements are not shown under the Special Revenue Funds.

Warren County Solid Waste District Fund

To account for assessed disposal fees from a privately owned and operated landfill and to implement reduction, reuse and recycling techniques.

Workforce Investment Act Fund

To account for grants from the Federal Government for employment and training needs of area job seekers.

Pass Through Grants Fund

To account for Federal or State grants that are passed through Warren County to other grant sub-recipients. (The Balance Sheet is not presented because there are no assets or liabilities at year end.)

Child Support Enforcement Fund

To account for revenues from 2% poundage fees, fines, Federal and State grants and other similar revenue sources, and to account for legally restricted expenditures used for the collection and protection of support payments made and owed to parents and children.

Emergency Management Fund

To account for Federal and State funds used to assist the County, local government and the public in preparedness and recovery during emergency or disaster situations.

Community Development Fund

To account for Federal and State grants and expenditures as prescribed under the Community Development Block Grant Program.

Court Computerization Fund

To account for additional fees which could be charged by the different courts for computerization of the court and the office of the clerk of each court.

Courts Special Projects Fund

To account for revenues from fines and costs pursuant to section 1907.24(B)(1) of the Ohio Revised Code to be used for special projects of the County Court and Common Pleas Court for more efficient operation.

County Transit Fund

To account for Federal and State grant proceeds used for capital and operating expenditures of the County's transit system.

(Continued)

Special Revenue Funds

Other Special Revenue Fund

To account for revenues from: fees, taxes, fines, Federal and State grants, licenses and other similar revenue sources, and to account for legally restricted expenditures for specific purposes. The following funds, when compared to combined Special Revenue Fund totals, comprise less than 10% in each of the categories of assets, liabilities, revenues and expenditures:

Law Library Resources Fund
Veteran's Memorial Fund
Probation Supervision Fund
Common Pleas Mental Health Grant Fund
Domestic Shelter Fund
Crime Victim Grant Fund
Prosecutor Grants Fund
County Court Probation Department Fund
Donations Fund
Municipal Victim Witness Fund
Job Training Partnership Act Fund
Community Corrections Fund
Sheriff Grants Fund
Indigent Guardianship Fund
Indigent Driver Fund
Drug Law Enforcement Fund
Law Enforcement Fund
Treatment Alternative to Street Crime (TASC) Grant Fund
Hazardous Materials Emergency Fund
Tactical Response Unit Fund
Enforcement and Education Fund
Rehabilitation Grants Fund

Debt Service Funds

Debt Service Funds are used to account for retirement of the County's general obligation and special assessment bonds

Court Building Construction Fund

To account for the bond anticipation note which provided the source of financing for the construction of a new County Courts Building in a prior period. (The Balance Sheet is not presented because there are no assets or liabilities at year end.)

Tax Increment Financing Fund

To account for revenue received from payments in lieu of taxes from Proctor and Gamble collected during annual tax billings, which provide the source of financing for long-term debt incurred for water and sewer line construction.

State Ohio Public Works Commission (OPWC) Loan Fund

To account for Ohio Public Works Commission loan which provided the source of financing for the reconstruction of Columbia Road in a prior period. (The Balance Sheet is not presented because there are no assets or liabilities at year end.)

(Continued)

Debt Service Funds

Tax Increment District Revenue Bond Fund

To account for revenue received from payments in lieu of taxes from property owners of the Greens of Bunnell Hill Project. Payments collected during annual tax billings provide the source of revenue for the long-term debt payments incurred for this project.

Capital Projects Funds

The Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds.

County Road Projects Fund

To account for Ohio Public Works Commission Grants and the related County share of financing to repair and construct various County roads.

Water Extension Projects Fund

To account for the bond anticipation note which provided the source of financing for construction of water line extensions in various areas of the County to be financed by special assessments from property owners. (The Balance Sheet is not presented because there are no assets or liabilities at year end.)

Sewer Extension Projects Fund

To account for the bond anticipation note which provided the source of financing for construction of sewer line extensions in various areas of the County to be financed by special assessments from property owners.

County Construction Projects Fund

To account for the bond anticipation note which provided the source of financing for the Justice Drive Street Extension and various improvements to County buildings.

Airport Construction Fund

To account for the grant anticipation financing of the extension and resurfacing of a runway at the County airport.

Redevelopment Tax Equivalent Fund

To account for expenses and sources of financing for public improvements to the Greens of Bunnell Hill Incentive District.

Permanent Fund

The Permanent Fund is used to account for the financial resources that are legally restricted in that only the earnings, not the principal, may be used to support the County's programs.

Scheurer - Smith Trust Fund

To account for restricted private sector contributions whose earnings are earmarked for education of the children of the Mary Haven Center.

Internal Service Funds

The internal service funds are used to account for the financing of goods or services provided by one department to other departments of the County on a cost-reimbursement basis.

Vehicle Maintenance Fund

To account for vehicle maintenance services provided to various County departments and other governmental units. Users are billed for costs incurred.

Health Insurance Fund

To account for claims and administration of the health insurance program for covered County employees and eligible dependents. County departments are billed according to the employee's family or marital status.

Workers' Compensation Self Insurance Fund

To account for the accumulation and allocation of costs associated with self-insured workers' compensation costs incurred by the county.

Gasoline Fund

To account for the centralized purchase of gas and corresponding charge backs to departments and other government units based on use.

Fiduciary Funds

The Agency Funds are used to account for assets held by the County as an agent for individuals, private organizations, other governments and/or other funds.

Agency Funds

Employees Retirement Fund

To account for the accumulation of the employer's share of contributions until remitted to State OPERS.

Townships, Corporations, Schools, Special Districts, Libraries Fund

To maintain and account for distributions of various revenue sources to subdivisions within the County.

Undivided Water and Sewer Revenue Fund

To account for the undivided water and sewer billing deposits to be distributed to the Water and Sewer Funds.

Payroll Fund

To maintain and account for the accumulation of payroll withholdings until payment is remitted to third parties.

Undivided General Tax, Tangible Personal Tax, County Lodging Tax, Advance Estate Tax Fund

These various and separate funds maintain and account for the accumulation and disbursement of taxes for real property, intangible property, estate tax and hotel lodging tax.

Local Government Fund

To maintain and account for the accumulation and disbursement of State revenue sharing monies.

Gasoline Tax Fund

To maintain and account for the accumulation and disbursement of gasoline tax collections.

Motor Vehicle License Fund

To maintain and account for the accumulation and disbursement of automobile license and registration fee collection.

Trailer Tax Fund

To maintain and account for the accumulation and disbursement of mobile home tax collections.

(Continued)

Agency Funds

Undivided Interest Fund

To maintain and account for the accumulation and disbursement of the County's investment earnings.

Non-Entity Holdings Fund

To account for funds held for various separate agencies, boards and commissions where the County serves as fiscal agent only.

Clerk of Courts, Common Pleas Court-Probate Court, Child Support Enforcement Agency, County Court, Juvenile Court, Prosecuting Attorney, Sheriff and Engineer Fund

These various and separate funds maintain and account for court fees, alimony, child support, restitution, boarding home fees, donations, funds held in escrow and other similar resources and uses. These funds are held in segregated cash accounts outside of the County treasury.

Other Agency Funds

To maintain and account for resources and uses for taxes, escrowed monies, licenses, estates and similar revenue sources. The following funds represent the less significant agency funds of the County.

Undivided Trailer Tax	Massie Wayne Capacity Fees
Cigarette Tax	Non-Participant Rotary
Undivided Wireless 911 Government Assist	Forfeited Land
Real Estate Advance	Housing Trust Authority
Life Insurance	Undivided Auction Proceeds
State	Recorder's Escrow Rotary
Miami Conservancy District	Undivided Indigent Fees
Ohio Elections Commission	Municipal ORD Violation Indigent
Sewer Rotary	New Undivided Auction Proceeds
Outside Entity Flowthru	Water Department
Unidentified Deposits	Dog and Kennel
Payment in Lieu of Taxes	Mary Haven
Undivided Public Utility Deregulation	Building Inspection
Tactical Response Unit	Tax Maps
Escrow Rotary	Recorder
Undivided Income Tax – Real Property	Board of Elections
Notary Public	Records Center
Zoning Board	Board of Developmental Disabilities
Undivided Federal and State Forfeitures	Treasurer
Refundable Deposits	Licensing
Court Ordered Sheriff Sales	Real Estate
Undivided Drug Task Force Seizures	Undivided Evidence Sheriff

STATISTICAL SECTION

STATISTICAL TABLES

This part of the County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the county's overall financial health.

Contents

Financial Trends	S 2 – S 13
These schedules contain trend information to help the reader understand how the County's financial position has changed over time.	
Revenue Capacity	S 14 – S 23
These schedules contain information to help the reader understand and assess the factors affecting the County's ability to generate its most significant local revenue sources, the property tax and the sales tax.	
Debt Capacity	S 24 – S 33
These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.	
Economic and Demographic Information	S 34 – S 41
These schedules offer economic and demographic indicators to help the reader understand the environment within which the County's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	
Operating Information	S 42 – S 55
These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.	
Sources Note:	
Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

Note: In 2011 several funds were reclassified from a judicial government type to a public safety government type. The reclassification included the following Special Revenue Funds: Youth Services Subsidy, County Court Probation, and Indigent Guardianship. In addition there was one General Fund department, Common Pleas Probation that was also reclassified. Program Revenues and Expenses for the years 2003 through 2010 reflect these changes.

* In 2005 both the Water and Sewer TIF bonds were refunded. The principal amount of the refunding portion is reflected in the 2005 debt service.

** Year 2002 does not include the Unclaimed Monies Fund or the Scheurer-Smith Trust Fund which were classified as Fiduciary Funds prior to implementing GASB 34 in 2003

*** In 2011 Youth Services Subsidy Fund, County Court Probation Fund, Indigent Guardianship Fund, and a portion of the General Fund's Common Pleas Court were reclassified from a Judicial Government Type to a Public Safety Government Type. Expenditure amounts relative to this change are reflected above for the years 2002-2011.

(1) Exempt properties are not included in the estimated actual values nor in assessed valuations.

(2) Refer to: Note 7 - Taxes in the Financial Statements.

Assessed value of Public Utility is at 25% and Assessed Value of Tangible Personal Property is at 25% through 2005, at 18.75% for 2006, 12.5% for 2007, and 6.25% for 2008 and 0% for 2009.

All collections from 2009 forward, are unpaid delinquent collections from prior tax years.

Additionally, telephone property was reclassified to general business and assessed at 10% for 2009.

(3) A triennial update of property values was done in 2009 resulting in the decrease of assessed property values in 2010.

(4) Amount changed and corrected from amount previously reported.

(1) Additional Information on the various bond issues can be found in Note 13.

(2) Gross revenues include operating revenues plus interest income.

(3) Direct operating expenses include operating expenses less depreciation.

(4) Tap-in fees are the initial fee to new customers for connection to the existing system and are accounted for as nonoperating revenues - capital contributions - tap in fees. The Bond Council for the County is of the opinion that tap-in fees should be included in the calculation for enterprise revenue bond coverage.

(5) In 2005 both the Water and Sewer TIF bonds were refunded. The principal amount of the refunding portion is not reflected in the 2005 principal payment amount when calculating coverage.

(1) Warren County Office of Economic Development

(a) Data starting in 2002 may be higher/lower than expected due to a change in how companies reported business information from previous years. NAICS codes were utilized for 2002-2008, creating some differences in reporting categories and patterns. Employment Distribution by Occupation Statistics are reflective of January of each year. In 2009 information was gathered from the Employment & Wage Industry Tool, Ohio Dept. of Job and Family Service.

(2) US Department of Commerce, Bureau of Economic Analysis information is only available through 2009 for the presentation of 2010 statistics, the County is using the latest information available.

(a) Per Capita Income is only available by County, Total Personal Income is a calculation

(3) State Department of Labor Statistics

(4) The US Census Bureau in 2000 reported the population for Warren County at 158,383.

Our annual population growth has previously been estimated to average 4,000 to 6,000 per year. The US Census Bureau in 2010 reports our population at 212,693. This is an increase of 54,310 over the 10 years or 5,431 each year 2001 through 2009. To more accurately reflect total personal income, we have increased our annual population numbers an additional 5,431 from years 2002 through 2009.

The accompanying notes to this schedule are an integral part of this schedule.

WARREN COUNTY

**NOTES TO THE FEDERAL AWARDS EXPENDITURES SCHEDULE
FISCAL YEAR ENDED DECEMBER 31, 2010**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Expenditures Schedule (the Schedule) reports Warren County's (the County's) federal award programs' disbursements. The schedule has been prepared on the cash basis of accounting.

NOTE B - SUBRECIPIENTS

The County passes certain federal awards received from the Ohio Department of Job and Family Services, Ohio Department of Development and the U.S. Department of Housing and Urban Development to other governments or not-for-profit agencies (subrecipients). As Note A describes, the Government reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the government has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

NOTE C - CHILD NUTRITION CLUSTER

The County commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the County assumes it expends federal monies first.

NOTE D - COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) REVOLVING LOAN PROGRAM

The County has a revolving loan fund (RLF) program to provide no-interest loans to CDBG eligible applicants to assist with down payments and closing costs for first time home buyers and for the rehabilitation of private residences and for emergency home repair for CDBG eligible applicants. The federal Department of Housing and Urban Development (HUD) grants money for these loans to the County, passed through the Ohio Department of Development. The Schedule reports loans made and administrative costs as disbursements on the Schedule. Loans repaid are used to make additional loans. Subsequent loans are subject to the same compliance requirements imposed by HUD as the initial loans.

These loans are collateralized by mortgages on the property. Loans are not forgiven unless the property is foreclosed by court order.

Activity in the CDBG revolving loan fund during 2010 is as follows:

Beginning loans receivable balance as of January 1, 2010	\$574,344
Loans made	31,000
Foreclosure	32,119
Loan principal repaid	19,070
Ending loans receivable balance as of December 31, 2010	<u>\$554,155</u>
Cash balance on hand in the revolving loan fund as of December 31, 2010	\$23,300
Administrative costs expended during 2010	3,934

The table above reports gross loans receivable. Of the loans receivable as of December 31, 2010, the County estimates none to be uncollectible.

NOTE E – HOME IMPROVEMENTS PARTNERSHIPS PROGRAM REVOLVING LOAN PROGRAM

The County has a revolving loan fund (RLF) program to provide no-interest loans to CDBG eligible applicants to assist with down payments and closing costs for first time home buyers and for the rehabilitation of private residences. Repayments of loans are used to make additional loans to assist additional low and moderate income households for HOME eligible activities. The federal Department of Housing and Urban Development (HUD) grants money for these loans to the County, passed through the Ohio Department of Development. The Schedule reports loans made and the administrative costs on repaid loans as disbursements on the Schedule. Subsequent loans are subject to the same compliance requirements imposed by HUD as the initial loans.

These loans are collateralized by mortgages on the property. Loans are not forgiven unless the property is foreclosed by court order.

Activity in the HOME revolving loan fund during 2010 is as follows:

Beginning loans receivable balance as of January 1, 2010	\$1,056,475
Loans made	5,000
Foreclosure	11,500
Ending loans receivable balance as of December 31, 2010	\$1,049,975
Cash balance on hand in the revolving loan fund as of December 31, 2010	\$91,512
Administrative costs expended during 2010	0

The table above reports gross loans receivable. Of the loans receivable as of December 31, 2010, the County estimates none to be uncollectible.

NOTE F - MATCHING REQUIREMENTS

Certain Federal programs require the County to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

NOTE G – WORKFORCE INVESTMENT ACT

The County receives Workforce Investment Act (WIA) monies passed through the Ohio Department of Job and Family Services. Warren County, Butler County and Clermont County together comprise WIA Area 12. Butler County serves as the Fiscal Agent for WIA Area 12.

NOTE H – OHIO DEPARTMENT OF JOB AND FAMILY SERVICES

The Ohio Department of Job and Family Services (ODJFS) sub-awarded to Warren County, Federal funding from the U.S. Department of Health and Human Services. Although these programs were administered at the County level, in July 2010 ODJFS adjusted some of the County’s child care expenditures to align them with available funding sources. ODJFS’ adjustments were retroactive to the beginning of the grant period (October 1, 2009). Therefore, these July 2010 adjustments affect 2009 calendar-year program expenditures previously reported as follows:

Child Care Cluster	CFDA #	Pass Through #	2009 Federal Expenditures Reported	July 2010 Adjustment	Adjusted 2009 Federal Expenditures Reported
Child Care Mandatory and Matching Funds of the Child Care and Development Fund	93.596	G-89-20-1162/G-1011-11-5125	\$952,006	(\$450,003)	\$502,003

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Warren County
406 Justice Drive
Lebanon, Ohio 45036

To the Board of County Commissioners:

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Warren County, Ohio (the County), as of and for the year ended December 31, 2010, which collectively comprise the County's basic financial statements and have issued our report thereon dated June 17, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of opining on the effectiveness of the County's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the County's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Compliance and Other Matters

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed instances of noncompliance or other matters we must report under *Government Auditing Standards* which are described in the accompanying schedule of findings and questioned costs as items 2010-001 through 2010-002.

Warren County
Independent Accountants' Report on Internal Control
Over Financial Reporting and on Compliance and Other Matters
Required by *Government Auditing Standards*
Page 2

We also noted certain matters not requiring inclusion in this report that we reported to the County's management in a separate letter dated September 19, 2011.

We intend this report solely for the information and use of management, the audit committee, the Board of County Commissioners, and federal awarding agencies and pass-through entities, and others within the County. We intend it for no one other than these specified parties.

A handwritten signature in black ink that reads "Dave Yost". The signature is written in a cursive style with a large, looping "D" and "Y".

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Warren County
406 Justice Drive
Lebanon, Ohio 45036

To the Board of County Commissioners:

Compliance

We have audited the compliance of Warren County, Ohio (the County), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of Warren County's major federal programs for the year ended December 31, 2010. The summary of auditor's results section of the accompanying schedule of findings and questioned costs identifies the County's major federal programs. The County's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the County's compliance with those requirements.

In our opinion, the Warren County, Ohio complied, in all material respects, with the requirements referred to above that could directly and materially affect each of its major federal programs for the year ended December 31, 2010. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements that, while not affecting our opinion on compliance, OMB Circular A-133 requires us to report. The accompanying schedule of findings and questioned costs lists this instance as Finding 2010-03.

Internal Control Over Compliance

The County's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with the requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of expressing our opinion on compliance, and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the County's internal control over compliance.

Corporate Centre of Blue Ash, 11117 Kenwood Road, Blue Ash, Ohio 45242
Phone: 513-361-8550 or 800-368-7419 Fax: 513-361-8577

www.auditor.state.oh.us

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, we cannot assure we have identified all deficiencies, significant deficiencies, or material weaknesses. However, as discussed below, we identified a certain deficiency in internal control over compliance that we consider to be a material weakness.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2010-03 to be a material weakness.

Federal Awards Expenditures Schedule

We have also audited the financial statements of the governmental activities, the business-type activities, the discretely-presented component unit, each major fund and the aggregate remaining fund information of Warren County (the County) as of and for the year ended December 31, 2010, and have issued our report thereon dated June 17, 2011, except for our opinion on the federal awards expenditure schedule, for which the date is September 19, 2011. Our audit was performed to form an opinion on the financial statements that collectively comprise the County's basic financial statements taken as a whole. The accompanying federal awards expenditures schedule provides additional information required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of the audit committee, management, the Board of County Commissioners, others within the entity, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

Dave Yost
Auditor of State

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

FINDING NUMBER 2010-01

Finding for Recovery

The Ohio Department of Job and Family Services (ODJFS) provided certain potential recipients who do not meet income eligibility guidelines a chance to qualify for Medicaid benefits. Pursuant to Ohio Administrative Code 5101:1-39-10, to qualify each month, a recipient had to incur a calculated spend-down liability amount before a Medicaid card was released to them to fund additional medical services. Recipients evidence their eligibility for a Medicaid card by either submitting documentation supporting medical expenses incurred or by remitting payment to the Warren County Department of Job and Family Services (WCJFS) for the liability amount due. Once the spend-down liability was met, the Medicaid card was released to fund any additional medical services received during that month.

When the WCJFS received a payment, an employee collected the payment and provided a copy of a three-part duplicate receipt to the individual making the payment. The second copy of the duplicate receipt was attached to the payment received and placed in an envelope in a drawer. The third copy of the duplicate receipt was retained in the duplicate receipt book. On a periodic basis, usually Becky Butcher, would retrieve the envelope of payments to take to the Administrative Secretary to prepare the "official receipts." The "official receipt" was a two-part receipt with one copy retained in the receipt book and the other was used to post the spend-down payment to the client's case in the ODJFS CRIS-E computer system.

The Administrative Secretary would then prepare the pay in to the County Treasurer which was deposited by another employee. The white copy of the "official receipt" was given to either Stacey Newdigate or Becky Butcher to enter the spend-down amount into the ODJFS CRIS-E computer system to release the Medicaid card.

In December 2010, it was discovered that spend-down receipts received by WCJFS were not posted to all case files in the CRIS-E system and therefore, inaccurately released client medical cards. As a result, all duplicate receipts available were reviewed and compared to the "official receipts" used to post spend-down entries to client case files. The review indicated that several payments received did not have a corresponding "official receipt;" however, the spend-down entry had been posted to the computer system therefore releasing the client Medicaid card. Upon further review, it was found that the spend-down entries made without an "official receipt" were made primarily by the same employee, Becky Butcher. The transaction logs for this employee from March 2009 (the oldest available) through November 2010 (her last day prior to extended leave) were reviewed. In addition, two other employees' transaction logs, Cathy Oeder and Arlene Byrd, were reviewed from March 2009 through December 2010. All spend-down entries posted to the ODJFS CRIS-E computer system were compared to the "official receipts" book and the case files, and a total of \$75,661 was determined to be collected but unaccounted for.

Of the \$75,661 collected but unaccounted for, the following table (listed by duplicate receipt signers) reflects \$16,146 where original receipts written for recipient spend-down payments collected were unaccounted for. The WCJFS did not maintain original duplicate receipts for the remaining \$59,515 collected but unaccounted for, which we computed by comparing the transaction logs to the pay in record maintained by the administrative secretary or to a receipt placed in the case file.

**FINDING NUMBER 2010-01
 (Continued)**

User ID	Entries \$ Total	Duplicate Receipt Signers
Stacey Newdigate(1)	\$310	Cathy Oeder
Jennifer Yeazel(2)	\$287	Darla McKay
Arlene Byrd	\$372	Arlene Byrd (\$259) & Denise Tewmey (\$113)
Cathy Oeder(3)	\$1,503	Cathy Oeder (\$1,482) & Denise Tewmey (\$21)
Becky Butcher	\$13,674	Cathy Oeder (\$6,284), Arlene Byrd (\$1,487), Darla McKay (\$2,455), Creston Schmidt (\$519), Becky Butcher (\$583), Denise Tewmey (\$2,346)

(1) This was the receipt that triggered the discovery of the issues with the receipt process. There is no indication that Stacey Newdigate was involved in the cash collection process; therefore the finding will not be named against her.

(2) There is no indication that Jennifer Yeazel was involved in the cash collection process; therefore the finding will not be named against her.

(3) Cathy Oeder's time card showed her as clocked out for lunch at the times these entries were posted to the computer system.

As noted above, all duplicate receipts were not maintained. Where possible we reviewed duplicate receipts. For time periods where the duplicate receipts were not maintained we reviewed the transaction logs. The following is a result of those reviews.

- A. A review of the 195 duplicate receipts retained by WCJFS indicated 55 did not have an "official receipt" prepared and were not deposited with the County Treasurer, but were posted to the clients' case files as a spend-down entry. Of these 55 receipts totaling \$16,146, 46 of the spend-down entries were posted under the user id used by Becky Butcher. The other 9 were posted under the user id's of Stacey Newdigate (1 receipt), Jennifer Yeazel (1 receipt), Arlene Byrd (2 receipts) and Cathy Oeder (five receipts).
- B. A review of the 2009 Transaction Log of Becky Butcher's user id indicated 100 of the 243 spend-down entries posted had no support in the case file for these entries. This support could include an "official receipt"/payin or medical receipts. The spend-down entries posted under this user id in 2009 totaled \$24,856.
 - a. 19 of the 100 entries had a CLRC (running record) comment that indicated a cash payin was received to release the card, but no payin could be found in the "official receipts" book.
 - b. 13 of the 100 entries had a CLRC (running record) comment that indicated receipts were received to release the card, but no receipts could be found in the case file.
 - c. 68 of the 100 entries had no CLRC (running record) comment or the CLRC (running record) comment did not indicate the reason for the spend-down entry posted.

**FINDING NUMBER 2010-01
(Continued)**

- C. A review of the 2010 Transaction Log of Becky Butcher's user id indicated 123 of the 389 spend-down entries posted had no support in the case file for these entries. This support could include an "official receipt"/payin or medical receipts. The spend-down entries posted under this user id in 2010 totaled \$34,659.
- a. 14 of the 123 entries had a CLRC (running record) comment that indicated receipts were received to release the card, but no receipts could be found in the case file.
 - b. 109 of the 123 entries had no CLRC (running record) comment or the CLRC (running record) comment did not indicate the reason for the spend-down entry posted.

In accordance with the foregoing facts and pursuant to Ohio Rev. Code, Section 117.28, a Finding for Recovery for public monies collected but unaccounted for is hereby issued against Becky Butcher, WCJFS employee (\$73,189); Cathy Oeder, WCJFS employee (\$8,097); Darla McKay, former WCJFS employee (\$2,742); Arlene Byrd, WCJFS employee (\$1,859); Denise Tewmey, WCJFS employee (\$2,480); Creston Schmidt, Former WCJFS employee (\$519), in the total amount of \$75,661, and in favor of the Warren County Human Services Fund in the amount of \$75,661.

This finding resulted in Federal Questioned Costs as noted in Finding 2010-03.

FINDING NUMBER 2010-02

Material Noncompliance

Ohio Rev. Code, Section 149.351, provides that all records are the property of the public office and shall not be removed, destroyed, mutilated, transferred, or otherwise damaged or disposed of, in whole or in part, except as provided by law or under the rules adopted by the records commissions provided for under Sections 149.38 to 149.42 of the Revised Code.

During the audit period, Warren County Job and Family Services (WCJFS) did not provide duplicate receipt books for the periods of: January 1, 2010 through June 22, 2010 and August 27, 2010 through October 26, 2010. It was the practice of WCJFS to throw these receipt books away after use. (See also Finding 2010-03 for additional issues relating to these missing receipts).

Failure to maintain duplicate receipt records significantly increases the probability of receipts collected being unaccounted for. Performance of auditing procedures on duplicate receipts that were retained determined that all receipts collected were not deposited in the County Treasury. To help ensure accountability over receipts, we recommend WCJFS develop policies and procedures outlining the security of all records and receipts. All records should be maintained in a secure central location, such as locked file cabinets or in a locked office, with access limited to specific officials and/or personnel. Disposal of records should only be made in accordance with an approved records retention schedule.

3. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

FINDING NUMBER 2010-03

Material Weakness/Questioned Costs – Allowable Costs/Cost Principles

Finding Number	2010-03
CFDA Title and Number	CFDA #93.778 – Medical Assistance Program
Federal Award Number / Year	G-1101-11-5125 / 2010 and 2009
Federal Agency	CFDA #93.778 – US Dept. of Health & Human Services CFDA #10.561 – US Dept. of Agriculture
Pass-Through Agency	Ohio Department of Job and Family Services

2 CFR 255 Appendix A, 2.a(2) requires that governmental units assume responsibility for administering Federal funds in a manner consistent with underlying agreements, program objectives, and the terms and conditions of the Federal award.

Ohio Department of Job and Family Services entered into a Subgrant Agreement on May 12, 2009 for the period July 1, 2009 through June 30, 2011 with the Board of Warren County Commissioners and the County Job and Family Services director for the administration and use of the financial assistance received by or used by the county family services agency, as noted in Article I of the Subgrant Agreement.

As part of administering these funds passed through to the County Job and Family Services (JFS), in Subgrant Agreement Article III A., the County JFS agrees to ensure that the funds included in the Subgrant Agreement are used, and the family services duties for which the grants are awarded are performed, in accordance with conditions, requirements and restrictions applicable in the duties established by the department and state and federal laws, as well as the federal terms and conditions of the grant award.

Subgrant Agreement Article I (B) indicates the Warren County JFS Public Assistance Agency is a stand-alone agency that performs all duties set forth in Ohio Rev. Code 329.04. Ohio Rev. Code 329.04 (A)(7) requires the County JFS to determine eligibility for medical assistance of recipients of aid under Title XVI of the “Social Security Act”. In addition, Ohio Rev. Code 329.042 requires each county department of job and family services shall certify eligible public assistance and nonpublic assistance households for the supplemental nutrition assistance program in accordance with federal and state law to enable low-income households to participate in the supplemental nutrition assistance program and thereby to purchase foods having a greater monetary value than is possible under public assistance standard allowances or other low-income budgets.

As part of the recipient eligibility determination for several pass through programs, including Medicaid and SNAP, the County JFS is responsible for the intake procedures for collection of recipient eligibility documentation as well as the input of that documentation into ODJFS’ CRIS-E computer system. In addition, the County JFS is required to maintain recipient documentation in a case file for both of the Medicaid and Food Assistance programs.

The following issues were noted with the County JFS’ Medicaid eligibility spend-down and cash collection procedures and the Medicaid and Food Assistance recipient eligibility case file documentation:

**FINDING NUMBER 2010-03
(Continued)**

Medicaid Assistance Program (CFDA #93.778) Spend-down and Cash Collection Procedures

Individuals exceeding income eligibility guidelines may still be eligible to receive Medicaid benefits through a spend-down process. Ohio Administrative Code 5101:1-39-10 established the rules for the spend-down process. The amount of the “spend-down” is collected monthly by the individual to satisfy their eligibility and is entered into the CRIS-E computer system and their medical card is issued. The amount of the “spend-down” is also entered into the County Finance Information System (CFIS), which is the financial system that generates the ODJFS funding. The Medicaid benefits are paid by ODJFS and the spend-down is collected by the County on behalf of ODJFS. On a quarterly basis the County JFS submits a report to receive their funding. The spend-down monies collected for that quarter are to be deducted from the funding they receive in order for ODJFS to recoup these spend-down payments. A pay in completed by the Administrative Secretary for the spend-down monies received generates the spend-down amounts being entered into the CFIS system. The funding received by the County JFS is combined, fifty percent state and fifty percent federal funds.

The spend-down monies associated with the Medical Assistance Program (CFDA #93.778) noted in the Finding for Recovery (Finding Number 2010-01) for \$75,661 did not have a pay in completed, were not paid into the County Auditor, and therefore were not entered into the CFIS system. Since these spend-downs were not entered into the CFIS system they were not included in the quarterly report or deducted from the County’s funding by ODJFS. As a result, the County was over-reimbursed by ODJFS. Therefore, \$12,440 of funding in 2009 and \$25,292 of funding in 2010 are federal questioned costs for excess federal funding received by the County JFS. The total federal questioned costs are \$37,732. The remaining \$37,929 was reimbursed by ODJFS with State GRF dollars. Very few internal controls were noted to be in operation over the Warren County Job and Family Services (WCJFS) cash collection procedures and security of public monies collected. Lack of controls and security of funds increases the risk that theft, fraud or errors could occur and not be detected in a timely manner.

The following conditions were noted:

- When recipients arrive to pay their spend-down liability, a duplicate receipt is written for all cash, checks or money orders received. One duplicate receipt book was shared by all employees at the window. These duplicate receipts were only maintained for as long as the receipt book was used. (See Destruction of Records Finding Number 2010-02)
- Any moneys collected were placed in a manila envelope, in a locked drawer, along with a copy of the duplicate receipt. These moneys were commingled with moneys collected by other employees. This envelope would then be taken to the administrative secretary, at no particular interval, to prepare an “official receipt” of the spend-down or other receipt collected. These “official receipts” were only prepared by the administrative secretary and were used to prepare the pay in to the county treasury and spend-down entry in the ODJFS CRIS-E computer system which would release the client’s medical card. The “official receipts” were never compared to the original duplicate receipt books at the window to ensure that all moneys collected at the window made it to the Administrative Secretary for pay in to the county treasury. If the administrative secretary was absent, then another worker would prepare the “official receipt” but would not sign it; leaving it for the administrative secretary to sign upon her return to work. In addition, monies collected would then sit in a locked cabinet until she returned to prepare the county pay in to the treasurer. These “official receipts” were prepared so that the spend-down entry could be posted to the computer system.
- “Official receipts” used for the pay in(s) did not always list the case number for whom the payment was made.
- The Administrative Secretary did not compare the “official receipts” (deposit) to the original duplicate receipts.

**FINDING NUMBER 2010-03
(Continued)**

Not maintaining these duplicate receipt books and failure to compare the duplicate receipt books to the “official receipts” of payments of spend-down liabilities resulted in funds being collected by employees and not provided to the administrative secretary for deposit into the county treasury (see Finding Numbers 2010-01). Failure to record the case number on the receipts increases the risk that funds will not be posted to the correct case. In addition, failure to deposit the monies collected daily increases the risk that theft, errors or fraud will occur and not be detected in a timely manner.

We recommend the following procedures be implemented by WCJFS:

- Duplicate receipt books be maintained in accordance with the County’s records retention policy and as required for audit.
- A policy regarding cash collection procedures be established. The policy should cover the safeguarding of assets, accountability of monies collected, separation of duties, and the depositing of funds.
- The procedures implemented should also include management oversight of the collection process.
- The Administrative Secretary should compare the deposit to the original duplicate receipts.

Medical Assistance Program (CFDA #93.778) and State Administrative Matching Grants for the Supplemental Nutrition Assistance Program (SNAP/ Food Assistance) (CFDA #10.561) Case File Documentation

Warren County Job and Family Services (WCJFS) is required to maintain recipient documentation in case files. These case files include a collection of documents obtained for eligibility determination. Case files are either non-confidential or confidential. Confidential case files are files that are considered to contain sensitive information. The review of files included seventeen confidential and thirty non-confidential files. WCJFS lacked management oversight over the eligibility determination over the Medical Assistance and Food Assistance programs.

The items below were found during the testing (those bullet points applicable to confidential files are noted with a (▶); non-confidential files are noted with a (■), or those applicable to both types of files are noted with a (▶▶).

- In two separate instances, a spouse received unemployment but was not entered into the CRIS-E system when determining eligibility. (▶▶)
- Two specific case files tested as well as those noted below lacking verification, etc had running record case notes kept in the CRIS-E system that were not supported by documents in the individuals’ case files. (▶▶)
- Running record case notes for an individual stated that they had obtained a new job and that verification was performed, but there was no evidence of the verification in the case file. A case worker tried to backdate coverage for a medical service when at the time of service the individual was not eligible for coverage. (▶▶)
- One case was authorized to be eligible without proper employment and income verifications being maintained in the case file. (▶)
- Two individuals were authorized for a re-application without income, rent and utilities being verified. (▶)

**FINDING NUMBER 2010-03
(Continued)**

- Two individuals were determined to be eligible for food stamps, but there was no application on file. (▶)
- One instance of Presumptive Disability was approved, but the type of disability did not meet the Presumptive Disability requirements. (▶)
- Medical Assistance and Food Assistance beneficiaries must reapply annually, but there was no documentation of two reapplications in 2010. (▶)
- An individual was approved for food stamps and an application was completed; however, there was no verification of income or employment. (▶)
- WCJFS does not have formal written policies for case file management, rather they have an informal list of criteria for case file notes. Case notes in the case files tested were unclear, inconsistent, lacked key information and did not follow this informal list of criteria.
- One application was in a file, but the application was not dated. (▶)
- Income verification was performed on one case, but the copies of the direct deposits obtained by WCJFS did not show what pay periods they were for. (▶)
- Running record case notes in the CRIS-E system stated that rent and utilities were verified, but there was no documentation in the file supporting these verifications. (▶)
- One individual was over the income limit for eligibility and was kept in the normal case load. The case file documentation showed the individual was employed but the supervisor did not enter the income documentation into the system. (▶)
- The supervisor placed at least two cases into the confidential files; however, the case files did not meet the Agency's criteria for inclusion with the confidential files.
- An individual received social security disability in May 2010, but the disability was not entered into the CRIS-E system. (■)
- One case worker stated that individual did not have medical coverage when in fact the individual had medical coverage and it was not verified. (■)
- Information from two case files were filed and put in incorrect files. (■)
- One case worker closed a case but it should not have been closed. (■)

In addition, the Agency does not provide formal policy regarding intake procedures, including case notes, spenddowns, receipting, and posting to CRIS-E and CFIS to all Agency case workers.

Although the State Administrative Matching Grants for the Supplemental Nutrition Assistance Program (SNAP/ Food Assistance) (CFDA #10.561) is not a major program, we noted weakness above for SNAP because the program has similar case file management requirements as the Medical Assistance Program.

Due to ODJFS issuing the benefit payments, for issues noted above that resulted in individuals receiving Medicaid and / or Food Assistance benefits for which they were ineligible, we have provided the case file documentation to the AOS State Region for questioned costs to be issued, where applicable, as part of their audit.

**FINDING NUMBER 2010-03
(Continued)**

WCJFS should implement an effective monitoring control system to assist case workers in the completion and accuracy of eligibility determination. Monitoring controls are comprised of regular management and supervisory activities established to oversee whether management's objectives are being achieved, covering operational and legal compliance, as well as financial control objectives. Effective monitoring controls should identify unexpected results or exceptions (including significant compliance exceptions), investigate underlying causes, and take corrective action.

We recommend:

- All cases authorized should have all required verifications performed and all verifications should be retained in the case files.
- All re-applications should be performed on a yearly basis and all verifications should be performed at that time.
- Applications should be completed by all individuals before they are authorized as eligible.
- All income should be properly entered into the CRIS-E system by the case workers.
- Only disabilities that meet the Presumptive Disability requirements should be considered as such.
- The Agency should provide formal written policies over intake procedures, including running record case notes, spenddown, receipting, and posting to CRIS-E and CFIS so all case workers are aware of their requirements.
- The Agency Director periodically review those files kept as confidential to ensure they are truly confidential and meet the Agency guidelines for being included as such.
- All case workers should check to ensure all applications are properly dated.
- All comments in the CRIS-E system should be supported by documents kept in the case files.
- Case workers should not backdate coverage for individuals that would not be eligible at the time of service.
- Case workers should check the CRIS-E system for Medicaid eligibility when asked if individuals have medical coverage.
- Case workers should take due care when filing paperwork so that information is put into the correct file.
- Case workers should also take due care when handling cases so that cases are not improperly closed out.
- Supervisors should periodically select case files and "audit" them for the compliance with documentation regulations. They should inform the employees of the results of their review.

This matter regarding eligibility determination has been referred to the Ohio Attorney General's Medicaid Fraud Unit for their review.

Officials' Response:

We did not receive responses from the Officials to the findings above.

June 17, 2011

To the Citizens of Warren County, Ohio:

I am pleased to submit the Comprehensive Annual Financial Report (CAFR) for Warren County, Ohio (the "County") for the fiscal year ended December 31, 2010. The report has been prepared in conformity with generally accepted accounting principles (GAAP) and guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA).

Introduction

While there is no legal requirement for the preparation of this report, it represents a commitment by Warren County to conform to nationally recognized standards of excellence in financial reporting. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County, especially the County Auditor's Office. To the best of our knowledge and belief, the enclosed data, as presented, is accurate in all material respects, is presented in a manner designed to fairly set forth the financial position and results of operations of the County and includes all disclosures necessary to enable the reader to gain an understanding of the County's financial activity.

The Reporting Entity:

The accompanying basic financial statements comply with the provisions of GASB Statement No. 14, *"The Financial Reporting Entity,"* as amended by GASB Statement No. 39, *"Determining Whether Certain Organizations are Component Units"* in that the financial statements include all the organizations, activities and functions of the primary government (the County) and legally separate entities (component unit) for which the County is financially accountable. Production Services Unlimited, an adult workshop, has been included as a discretely presented component unit of the County due to its significant relationship with the County.

A thorough presentation of the County's reporting entity is contained in Note 1 of the basic financial statements.

***Letter of Transmittal
For the Year Ended December 31, 2010***

County Organization and Services:

Warren County is located in the southwestern part of the state, approximately 20 miles north of Cincinnati and 15 miles south of Dayton. It is also located within a day's drive for 65% of the U.S. population. Its 400 square mile area serves a residential population estimated at 212,693 (2010 U.S. Bureau of Census). The County includes 11 townships, 10 villages and 7 cities. The County has only those powers conferred upon it by Ohio statutes. A three member Board of County Commissioners is elected at large in even numbered years for overlapping four-year terms. The Board of County Commissioners serves as the taxing authority, the contracting body, and the chief administrator of public services for the County.

The Board of County Commissioners prepares and adopts the annual operating budget and makes the annual appropriation measure for expenditures of all County funds. In addition to the Board of County Commissioners, the offices of the County Auditor and County Treasurer are included in the category of general government and are of particular importance to the financial affairs of the County.

The County Auditor is elected to a four-year term and serves as the chief fiscal officer for the County and the tax assessor for all political subdivisions within the County. According to state law, a complete reappraisal must be conducted every six years as well as a triennial update every third year between reappraisals. Upon collection by the County Treasurer, the County Auditor is responsible for distributing certain taxes to various political subdivisions including municipalities, villages, townships, school and library districts, special districts and county agencies.

As chief fiscal officer, the County Auditor must certify that funds for all contracts and obligations of the County have been lawfully appropriated and are available or in the process of collection before the contract or obligation is binding upon the County. In addition, the Auditor is also the central disbursing agent, who by the issuance of County warrants distributes funds to creditors in payment of liabilities incurred by the County. The Auditor is also responsible for the County payroll and has other statutory accounting responsibilities. He is, by state law, Secretary of the County Board of Revision and the County Budget Commission and the Administrator and Supervisor of the County Data Processing Board.

The County Treasurer is also elected to a four-year term and is the custodian of all County funds. The Treasurer is responsible for collecting all tax monies, applying payments to the appropriate tax accounts and investing all available idle County funds as specified by Ohio law. The Treasurer is the distributing agent for expenditures authorized by the Board of County Commissioners upon the Auditor's warrant. The Treasurer must submit daily reports showing receipts, payments and balances to the County Auditor. The Treasurer is a member of the County Board of Revision and the County Budget Commission. The Budget Commission plays an important part in the financial administration of the County government, as well as all political subdivisions throughout the County.

The other elected officials serving four year terms are the Prosecuting Attorney who serves as the third and final member of the County Budget Commission, the Clerk of Courts, the Recorder, the Sheriff, the Engineer, the Coroner and two County Court Judges. Five Common Pleas Court Judges are elected to six-year terms.

WARREN COUNTY, OHIO

Letter of Transmittal

For the Year Ended December 31, 2010

The County provides its citizens with a wide range of services that include human and social services, health and community assistance related services, law enforcement, civil and criminal justice system services, road and bridge maintenance and other general and administrative support services. The County also operates a water distribution system, a wastewater collection and treatment system, and a storm water management system which are accounted for as enterprise funds.

Economic Outlook

Population:

Ranked as the 2nd fastest growing County in Ohio, behind Delaware County, north of Columbus, Warren County has experienced a 34.3% increase in population since the 2000 census of 158,383 persons and an 86.7% increase in population since 1990. Our 2010 population is 212,693 and we are the 13th largest County in Ohio. Warren County is also ranked as the 98th fastest growing County in the nation out of 3,141 counties. In 2009 Springboro, located in the northern portion of Warren County, was ranked 41st in the top 100 best places to live in the United States.

Warren County has been gaining in population by about 5,000 to 6,000 people annually until the past 3 years when our growth has tapered to 2,000-3,000 annually. Warren County has a 79.9% home ownership rate. That is the highest rate in the Dayton-Cincinnati Region while the State average is 69.8%. Despite our population increase, 62% of the land in Warren County is still in farmland, open/green space, and designated parks.

Education:

Warren County has a top performing education system with a higher percentage of "excellent" school districts than all but two of Ohio's 88 Counties. Serving the area are four universities and six colleges with a combined enrollment in excess of 85,000. Sinclair Community College, centered in Dayton, opened the Warren County Mason Courseview Campus in September of 2007. Through partnerships with other area universities, residents are now in closer proximity to a college campus that offers classes for associate, bachelor and master degrees from Sinclair, University of Cincinnati, Wright State University, Miami University and Wilmington College. The County Commissioners offer a \$10 per credit hour discount to all County residents enrolled at the Sinclair Courseview Campus. As of spring 2011, Sinclair's enrollment has now exceeded 1,300 students with continued expectations for growth.

Per Capita Income

Warren County has the 5th highest per capita income in the state at \$38,867 (2009) and the 2nd highest median household income of \$68,114 (the State Median is \$45,395). Warren County's 2010 poverty rate was reported at 4.2% (compared to 10.6 % statewide average). The annual average unemployment rate was 9.2%. By March of 2011, our unemployment rate lowered to 8.1%.

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2010

A summary of Warren County's growth is demonstrated in the following tables:

<u>Year</u>	<u>Number of County Building Permits Issued</u>	<u>Projected Cost</u>
2000	2,204	210,864,401
2001	2,446	253,755,166
2002	2,414	277,780,036
2003	2,582	297,523,925
2004	2,889	306,680,539
2005	2,761	436,059,744
2006	2,261	394,932,273
2007	1,990	363,240,260
2008	1,472	308,926,694
2009	1,282	200,431,947
2010	1,283	175,266,801

Source: Warren County Building Inspection Department

Warren County continued to follow the state and national economic trend of decreased new construction activity. In 2010, assessed values of new construction decreased over all by 42.6%. Warren County's Residential new construction decreased 42.8%. Commercial new construction saw a decline of 36.8% and Industrial new construction decreased 71.5% as shown in the following table. On the positive side, despite the down economy, Warren County is still experiencing some new construction.

Warren County New Construction Assessed Values

<u>Tax Year</u>	<u>Residential</u>	<u>Industrial</u>	<u>Commercial</u>	<u>Total</u>
2000	164,996,060	1,788,100	15,204,600	181,988,760
2001	156,540,920	3,086,230	18,040,820	177,667,970
2002	166,345,470	1,205,920	14,659,910	182,211,300
2003	172,025,920	2,100,170	13,153,070	187,279,160

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2010

Communities

Waynesville, located in the northwest part of the County has been recognized by USA Today as “The Antique Capital of the Midwest.” The annual Waynesville Sauerkraut Festival attracts over 300,000 visitors over 2 days in October each year. Caesar Creek State Park is also located near Waynesville. The park consists of 7,940 acres of beautiful terrain and a 2,830 acre lake with 5 boat ramps. In 2010 the park completed a \$2.1 million expansion of its Visitor’s Center. The park offers nearly 70 miles of trails for horseback riding, mountain biking and hiking and also includes a campground with 287 campsites and a 1,300’ sand beach. A new \$4 million dollar full service marina with 300 boat slips is slated to begin construction by ODNR at the lake in 2012 with completion in 2014.

Lebanon is the home of many historic interests in the County. The Golden Lamb, Ohio’s oldest inn, dating from 1803 and boasting an extraordinary guest list of many famous Americans including Henry Clay, Mark Twain, Charles Dickens and eleven Presidents of the United States. The Glendower State Memorial, a Greek Revival Mansion which was constructed in the early nineteenth century, is a showplace of elegant Empire and Victorian furnishings. The Warren County Historical Society Museum, acclaimed as one of the nation's outstanding County museums, has displays of early life of the area, a Shaker exhibit and a library with an unusually fine collection of genealogical information.

Lebanon is known for its many antique stores, specialty shops and its quaint historical atmosphere. Walking tours through historical districts are available throughout the year. Lebanon’s Christmas Festival which features Ohio’s largest Horse Drawn Carriage Parade with 160+ units has become a seasonal favorite attracting 70,000+ for the one-day event. Other Lebanon favorites include the Applefest, Blues Fest, a Scenic Railroad Passenger Train and the Lebanon Raceway that offers spring and fall harness racing with pari-mutuel wagering and simulcasting of the races.

Lebanon also hosts one of the largest YMCA’s in the world and it offers virtually all forms of indoor and outdoor athletic facilities. The 125-acre site includes a facility with meeting rooms, pools, gym, tennis courts, health club facilities and sports fields.

Springboro is rich in history and arts. Recognized as perhaps the most traveled route to freedom, hundreds, maybe thousands, of runaway slaves passed through Cincinnati and Warren County on the Underground Railroad. The mostly Quaker communities of Springboro hosted numerous secret stops along the trail. Much of this history has been preserved through the collection of documents, maps, and artifacts at the Springboro Historical Society Museum. Groups can schedule guided tours with costumed re-enactors or pick up a walking tour brochure from the Springboro Chamber of Commerce and experience living history with a self-guided walking tour of the community’s 27 documented safe houses.

History meets art in the city of Franklin. With three indoor murals and six outdoor murals – there’s a reason the town is known as the “city of murals.” Driving tours of the murals also reveal a glimpse at the first three-story building west of the Alleghenies and the third Roebling suspension bridge in the county.

***Letter of Transmittal
For the Year Ended December 31, 2010***

Sales Tax Receipts and the General Fund

While Warren County, at this point, has weathered the Country's economic crisis, we are starting to feel the effects of declining revenue. In 2010, Warren County continued to be very financially conservative and projected a \$2.4 million decline in General Fund revenue. With the projected decline in revenue the Board of Commissioners asked all General Fund departments and those supported by the General Fund to cut their 2010 budget by 5%. A similar reduction was averted for 2011 due to the county actually taking in \$4.4 million in unanticipated revenue by the end of 2010. However, the county is prepared to make further funding reductions in 2012 as we anticipate funding cuts from the State and Federal Governments as they work to reduce their deficit spending to balance budgets.

The County's 1% sales tax revenues generated \$27,206,742. This is an increase of 3.84% over 2009. The current trend through March 2011 reflects a continued increase in sales tax revenues. For a period of time, the growth in sales tax revenue allowed the County to gradually phase out its share of property taxes. The County's inside millage entitlement is 2.57 mills per \$1,000 of property tax value. The County reduced its levy in 1997, again in 1999 and further reduced it to zero in 2000. In 2004 the County reinstated 1.50 mills and in 2008 the millage was increased to 2.0 mills and in 2010 the County began collecting the full 2.57 mills in an effort to offset the decline of investment income and various fees collected by the General Fund.

Travel and Tourism

Warren County, Ohio is an entertaining, energetic, and enriching travel destination, where visitors can experience a wide variety of attractions, events, history and outdoor activities. "Ohio's Largest Playground" isn't just a slogan, it is a promise. Located between Cincinnati and Dayton, visitors can do more in a 30-mile radius than anywhere else in Ohio. It's a big County—come out and play!

Approximately seven miles southeast of Lebanon on the east bank of the Little Miami River is Fort Ancient, a state memorial operated by the Ohio Historical Society. Fort Ancient is a renowned North American archaeological site and features evidence of two outstanding prehistoric American Indian cultures dating back more than 2000 years. Fort Ancient is a designated National Historic Landmark and is on the finalist list for World Heritage Status. The 764-acre memorial park offers a museum, hiking, picnicking, scenic vistas and shelter houses.

Warren County offers bike trails and hiking trails along the Little Miami Scenic River, as well as several canoe liveries that offer a variety of canoe trips. The 70-mile area along the Little Miami River, which is mostly in Warren County, has been designated a Scenic River Area by the federal government. Whether by bike, rollerblade, hiking boot or horseback, the paved and mostly shaded Little Miami Scenic Trail offers a beautiful setting for catching a breath of fresh air.

Letter of Transmittal

For the Year Ended December 31, 2010

While Warren County's anchor attraction is most notably Kings Island Amusement Park, we have an abundance of activities to choose from including; TPC Riverbend Golf Course and the Nationwide Tour Chiquita Classic, The Golf Center at Kings Island, The Western and Southern Financial Group Tennis Masters and Women's Open, The Great American Insurance ATP Championship, The American Volleyball Professional Tournaments, LaComedia Dinner Theater, the Beach Waterpark, and the Great Wolf Lodge with 400 themed rooms and 78,000 sq. ft. indoor water park brings additional visitors to its year-round indoor water park resort and conference center. The Ozone Zipline Adventures, the largest canopy zipline tour in the Midwest offers visitors the opportunity to soar across 2 miles of tree-tops.

While 2010's economy presented some challenges to the hospitality industry, over all it was a good year. With a reported 7.8 million visitors to the area, the regional economic impact of these visitors is \$863 million. Tourism provides 10,510 tourism-related jobs that generate personal income of \$245.6 million per the biennium Ohio Travel Association report of 2009. The number of tourists and the economic impact continue to hold as the County's leading industry.

Major Initiatives and Future Outlook

Warren County has several major initiatives in process that will result in a continued strong and vibrant future outlook.

- Our County Engineer's Office completed over \$3.6 million worth of roadway improvements in 2010 and has an estimated \$81.7 million of scheduled and anticipated road improvements to be completed in 2011 through 2016. There are an additional \$300 million of roadway improvements identified by the County Engineer that are being prioritized for future years. Noteworthy improvements include (1) widening of Butler-Warren Road between Tylersville Road and Bethany Road (2) widening of a 1 ½ mile section of Bethany Road east of Butler-Warren Road. The County Engineer is also working with the Warren County Transportation Improvement District on the following: (A) Working on a series of improvements to the Mason-Montgomery Road/Fields-Ertel Road I-71 Interchange area; (B) Studies to determine the best way to complete the Western Road Interchange on I-71; (C) Completion of the SR 73 Interchange on I-75, and the continuation of ODOTs improvements to the I-75 corridor between I-275 and Dayton.
- During the past four years of economic slow down in new development, the County Commissioners have taken this opportunity to review all Growth Management Plans to assure quality development, preservation of open space and new economic resources that sustain a high quality of life. The following documents have all been completely updated: Land Use and Thoroughfare Plans, Subdivision Regulations, Access Management, Storm Water Management, Build-out capacity studies for our roads, water and sewer, Parkland Survey and Master Plan and it is anticipated that a comprehensive re-write of the County's Zoning Code will be completed by the end of 2011.

Letter of Transmittal

For the Year Ended December 31, 2010

- The Water and Sewer Department strives to provide quality water and wastewater services to Warren County residents in a cost-effective manner. The recent slow down in the economy and new development has given the Warren County Water and Sewer Department a chance to make necessary upgrades and expansions to some of the aging facilities. The County has several major projects underway that will meet the future obligations for our services. The Water and Sewer Department had approximately 300 new connections to the waterworks system and 177 new connections to the sewer system in 2010. These additional connections bring the total water system connections to 26,863 and the total sewer system connections to 19,211. The County is currently expanding the Lower Little Miami Waste Water Treatment Plant from 7 million gallons per day (mgd) to 12 mgd average daily flow at a cost of \$28 million. The County is also in the design phase for 5 miles of 24-inch waterline extending from the intersection of Winding River Boulevard and State Route 48, north following Turtlecreek Road to the intersection of Columbia Road and US Route 42 with estimated costs of \$3.5 million. This water line will help meet future water demands in the southern portion of the county.

- As Warren County remains focused on retaining its rural ambience character and quality of life with its growing population, the County Commissioners have helped increase our County Park System by 1,310 acres over the past ten years. In 2010, there were 364 parks (17,711 acres) countywide representing an overall 6% open space of all 400 square miles in our County. Thanks to a partnership with Turtlecreek Township Trustees, Otterbein Home and a grant from Ohio Department of Natural Resources, in 2008, the County made a contribution towards the purchase of a 310 acre park from AK Steel that offers new amenities of boating, fishing, golfing, picnic area and ball fields. When the economy improves, the County is also entertaining the possibility of initiating a countywide Park Levy based on the positive feedback from our recently completed Park Survey. This levy could be shared with local governments that own and operate park land in Warren County to avoid duplication of competing levies. No park levies currently exist for the County.

- The demand for public services in Warren County continues to grow, driving the need for facilities expansion. In 2009 the Health and Human Services Building underwent a \$4.4 million dollar renovation. Current projects include \$1.8 million for energy efficiency improvements to the Common Pleas Court building. A future 90,000 square foot expansion to the Common Pleas Court building estimated at \$13.7 million and a 22,000 square foot expansion to the Probate-Juvenile facility estimated at \$5.9 million will likely remain on hold until after 2012.

- In 2010, the Board of Commissioners remained focused on revitalizing economic development efforts and coordinating with the existing economic development initiatives from our various cities and townships to create more visibility and productivity in new job creation. From 1992 to 2002, our Economic Development office helped bring in more than 20,000 new jobs and realized an average of 350 new business starts annually. 80% of these projects involved manufacturing, research and development or service sector companies who pay high wages and sustain the quality of living we are so proud of in Warren County. In 2010, our Economic Development Department reported the creation of 1,709 new jobs and the retention of 2,643 existing jobs representing \$49,563,280 in capital investment by the companies.

Letter of Transmittal

For the Year Ended December 31, 2010

- The Warren County Jail was doubled in size in 1996 to accommodate 176 prisoners. Overcrowding began in 2000. Some additional renovations and better space utilization allowed an increase of jail beds to accommodate 213. To alleviate overcrowding and lack of jail space, several actions have been taken. The Sheriff has been able to manage his jail population, in coordination with the Judges, through alternative sentencing and early release programs. The Commissioners increased funding to Community Corrections and Pre-Trial Services. Most importantly, the County entered into contract for a minimum of 50 jail beds per day with neighboring Butler County at a cost of \$55 per prisoner per day. With overcrowding continuing, Warren County has not only spent approximately \$1.2 million each of the last two years renting bed space in Butler County but it has also caused a significant increase in inmate transports. The Sheriff received approval from the Ohio Bureau of Adult Detention to double-bunk some areas of the jail thereby increasing inmate capacity an additional 75-85 inmates. With modifications to accommodate this expansion to be complete by June 2011 Warren County will realize a savings of approximately \$1 million per year that has previously been spent on the out-of-county bed space. These aggressive steps are assuring that we maximize the use of space without jeopardizing the safety of personnel and inmates. These efforts are allowing the County more time through a down economy to plan for the permanent construction of a new wing in the next 5-7 years.

- In 2010 some new and exciting tourism opportunities include:
 - Kings Island Park's first hyper coaster the Diamondback opened in April 2010. The Diamondback, a \$22 million steel coaster, is the park's tallest, fastest and meanest ride. In 2011, Kings Island will open 2 new attractions: "Dinosaurs Alive" featuring more than 60 life-sized dinosaurs and "Windseeker" a 301-foot-tall tower that will spin riders 30 stories above the park.
 - Women's tennis will advance to a Tier I level at the Lindner Tennis Complex; and become a combined top-level event with men's tennis in 2011. A new stadium with 6 additional courts and 4000 additional seats will be complete by July 2011. Warren County sports programs will include a national week-end tournament of Australian football, bringing 1,000 players and staff.
 - Ozone Zipline Adventures at YMCA Camp Kern and Fort Ancient State Park opened to the public in the summer of 2009 with the largest zipline tour in the Midwest, and includes some of the longest single zipline runs in the continental U.S. totaling well over 10,000 feet in length, and 170' in height. Expansion of the zipline over the Little Miami River is expected to be complete by mid summer 2011.
 - The Cincinnati Premium Outlet Mall, with 400,000 sq. ft. containing 120 stores, completed its successful first year in full operation at I-75 and Monroe, just west of Lebanon.

***Letter of Transmittal
For the Year Ended December 31, 2010***

- We anticipate expanded hotel amenities and additional hotel development that will add to visitation and over-night business. Warren County is poised to maintain our leisure travel base. With these new events and new hotel growth, combined with our world-class events and attractions, we anticipate maintaining the strength of tourism in our County.

Financial Information

This is the eighth year the County has prepared financial statements following GASB Statement 34, "Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments.”

As part of this reporting model, management is responsible for preparing Management’s Discussion and Analysis (MD&A) of the County. This discussion appears after the Independent Accountants’ Report in the financial section of this report. MD&A provides an assessment of the County’s finances for 2010. The analysis focus in the MD&A is on major funds.

Fiduciary Funds

Fiduciary funds account for assets held by Warren County in a trustee capacity or as an agent for individuals, private organizations and other government units. The fiduciary funds which Warren County maintains are agency funds and an Unclaimed Money fund which is a private purpose fund. At December 31, 2010, assets in agency funds totaled \$318,677,436 and assets of the Unclaimed Money fund totaled \$475,418.

Internal Control, Budgetary Control and the Accounting System:

Development of the County's accounting system included substantial consideration of the adequacy of the internal accounting controls. Internal accounting controls are designed to provide reasonable but not absolute assurance that:

1. The County's assets are protected against loss and unauthorized use or disposition; and
2. Reliable financial reports for preparing financial statements and providing accountability for assets are maintained.

The concept of reasonable assurance states that internal controls should be evaluated applying the following criteria:

1. The expense associated with providing the internal controls should not exceed the benefits likely to be derived from their implementation; and
2. The evaluation of the offsetting costs and benefits involves estimates and judgment by the County Administration and members of the Auditor's office.

***Letter of Transmittal
For the Year Ended December 31, 2010***

All internal control evaluations occur within this framework. It is the belief of the administrative and financial management personnel that the County's financial controls adequately safeguard existing assets and provide reasonable assurance of the proper recording of financial transactions.

The Accounting Department of the County Auditor's Office is responsible for the auditing and analysis of all purchase orders and vouchers of the County. Accounting Department personnel review the purchase orders and vouchers to ensure the availability of monies in the proper funds and accounts prior to the certification and payment of approved invoices. The County utilizes a fully automated accounting system as well as an automated system of controls for capital assets, accounting and payroll. These systems, coupled with the review and examination performed by the County Auditor's Office, ensure that the financial information generated is both accurate and reliable.

Budgetary appropriations for the operation of the County's departments are established through the adoption of the annual appropriation resolution by the Board of County Commissioners. All disbursements and transfers of cash between funds require appropriation authority from the County Commissioners. Budgets are controlled at the object level within the department or organizational unit, by function and by fund. Purchase orders are requested by the department head and encumbered prior to their release to vendors. A computerized certification system allows the Auditor's Office to ascertain the status of appropriations prior to authorizing purchases.

Accounting System and Budgetary Control

The County's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Day-to-day accounting records are maintained on a basis other than GAAP. For financial reporting purposes, the accounting records are converted to the modified and full accrual basis for all applicable funds. On the modified accrual basis, revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. On the full accrual basis, revenues are recognized when measurable and earned; expenses are recognized when incurred.

The Board of County Commissioners adopts the annual budget for the County by March 31. All disbursements and transfers of cash between funds require appropriation authority from the Commissioners. Budgets are controlled at the major object level within a department and fund. All purchase orders must be approved by a majority of the Board of Commissioners, then the necessary funds are encumbered and the purchase order released to the vendor. Those purchase orders which exceed the available appropriation are rejected until additional funds are secured. The accounting system used by the County provides daily updates to expenditure and encumbrance files making available to all users details on year-to-date expenditures and encumbrances versus the original appropriations plus any additional appropriations made to date. These files are used to ascertain the status of a division's appropriation prior to authorizing additional purchases.

The basis of accounting and the presentation of the various funds utilized by Warren County are fully described in Note 1 of the basic financial statements.

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2010

Cash Management

The County pools its cash to simplify cash management. All idle monies are invested, with the earnings being paid into the Undivided Interest Agency Fund and then allocated to the General Fund and other qualifying funds as prescribed by Ohio law. The County invests in an account with Star Ohio that allows daily access to funds, and additionally, is endorsed by the Ohio State Treasurer; as well as holding cash in an interest bearing checking account that is collateralized with U.S. government bonds and insured by FDIC. The County Treasurer makes such commitments of County resources only with federally insured financial institutions. Interest earnings of the County (primary government) in 2010 totaled \$2,044,122.

Risk Management

Warren County is self-insured for employee health care benefits. In 2010, the formerly known "Traditional Plan" was discontinued and no longer offered to employees. All employees are now covered under the "HSA Plan". The "HSA Plan" provides 100% in-network coverage once satisfying a \$1,500 annual per person deductible (\$2,400 per family), and an annual \$3,000 out-of-network per person deductible (\$4,800 per family); thereafter, out-of-network payment is 80% with a 20% co-insurance to a maximum annual out-of-network out-of-pocket of \$5,950 per person (\$11,900 per family).

Excess loss coverage, carried through United of Omaha, becomes effective after \$150,000 per year per specific claim. There is a lifetime maximum coverage per person of \$2,000,000.

Each County department makes monthly payments to the self-insurance fund.

The County contracted with County Risk Sharing Authority (CORSA) to provide for general liability, public officials liability, and auto liability coverage. CORSA was established by the County Commissioner's Association of Ohio in 1987 to provide counties with comprehensive property and liability coverage. Warren County's coverage provides liability limits of \$10,000,000, with a \$2,500 per occurrence deductible. Maximum per occurrence liability limit for CORSA is \$1,000,000, with an additional \$9,000,000 available from excess coverage purchased from St. Paul Travelers and Munich/American RE. Any additional liability incurred in excess of the \$10,000,000 coverage is the responsibility of the County.

Debt Administration

At December 31, 2010, gross general obligation bonds outstanding, excluding debt reported in the enterprise funds, totaled \$7,753,762. Ratios related to the County's debt position are presented below:

Net General Obligation Bonded Debt	\$7,753,762
Net Debt Per Capita	\$36.46
Net Debt to Assessed Value	.140%
Net Debt to Estimated Actual Value	.0491%

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2010

The outstanding debt is primarily related to repayment of the proceeds of monies used to construct or renovate water and sewer facilities operated by the County, construction of the County Courts Building Addition and design and engineering of modifications to the Fields-Ertel Road/Interstate (1-71) and Wester Row Road I-71 interchanges.

The County maintains an underlying "Aa1" rating from Moody's Investors Service, Inc. All bonds of the County are general obligation debt and are backed by its full faith and credit, except water and sewer bonds, which are backed by revenues of utility billings and the Tax Increment District Revenue Bond, which is secured solely from the revenues generated from the service payments in lieu of taxes.

Other Information

Independent Auditor's Opinion

The County had an independent audit of all funds performed by the State Auditor for the year ended December 31, 2010. The opinion of the Auditor appears in the financial section of this report.

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Warren County for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2009. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such comprehensive annual financial reports must also satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements.

A Certificate of Achievement is valid for one year only. Warren County has received a Certificate of Achievement for the last 19 years (1991 - 2009). We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA for consideration for a Certificate of Achievement for 2010.

WARREN COUNTY, OHIO

***Letter of Transmittal
For the Year Ended December 31, 2010***

Acknowledgments

The publication of this report is a continuation of the level of professionalism the Warren County Auditor's office has strived to attain and it significantly increases the accountability of Warren County government to its taxpayers.

The preparation of this comprehensive annual financial report would not have been possible without the cooperation of the County elected officials and their staffs. I would also like to recognize the following people for their exceptional contribution to this effort.

Robyn Crisenbery, Auditor's Office, Director Financial Operations	
Patti Taulbee, Auditor's Office	Dora Ruff, Auditor's Office.
Brenda Quillen, Auditor's Office	Donald J. Schonhardt and Associates, Inc.
Marty Edwards, Auditor's Office	Gary Browning, Data Processing Director

Sincerely,

Nick Nelson,
Warren County Auditor

INDEPENDENT ACCOUNTANTS' REPORT

Warren County
406 Justice Drive
Lebanon, Ohio 45036

To the Board of County Commissioners:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Warren County, Ohio (the County), as of and for the year ended December 31, 2010, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the discretely presented component unit, Production Services Unlimited, Inc. Other auditors audited those financial statements. They have furnished their report thereon to us and we base our opinion, insofar as it relates to the amounts included for Production Services Unlimited, Inc. on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. The other auditors audited the financial statements of Production Services Unlimited, Inc. in accordance with auditing standards generally accepted in the United States of America and not in accordance with *Government Auditing Standards*. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Warren County, Ohio, as of December 31, 2010, and the respective changes in financial position and where applicable, cash flows, thereof and the respective budgetary comparisons for the General, Senior Citizens Levy and Board of Development Disabilities Funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 17, 2011, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the County's basic financial statements taken as a whole. The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information provide additional analysis and are not a required part of the basic financial statements. The financial section's combining statements, individual fund statements and schedules are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These statements and schedules were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Dave Yost
Auditor of State

June 17, 2011

The discussion and analysis of Warren County's financial performance provides an overall review of the County's financial activities for the year ended December 31, 2010. The intent of this discussion and analysis is to look at the County's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the County's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2010 are as follows:

- In total, net assets increased \$12.7 million. Net assets of governmental activities increased \$7.1 million, which represents a 3.4% increase over net assets of 2009. Net assets of business-type activities increased \$5.7 million or 2.6% from net assets of 2009.
- General revenues accounted for \$79.4 million in revenue or 51.5% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$74.7 million or 48.5% of total revenues of \$154.1 million.
- The County had \$114.5 million in expenses related to governmental activities; \$42.2 million of these expenses were offset by program specific charges for services, grants or contributions.
- Among major funds, the general fund had \$59.3 million in revenues and \$51.4 million in expenditures. The 2010 revenues increased 2.9% or \$1.7 million from 2009. The expenditures decreased 3.7% or \$2.0 million. The general fund balance at year-end totaled \$26.9 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – *management's discussion and analysis*, the *basic financial statements*, and an optional section that presents *combining statements* for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the County:

These statements are as follows:

The Government-Wide Financial Statements – These statements provide both long-term and short-term information about the County's overall financial status.

The Fund Financial Statements – These statements focus on individual parts of the County, reporting the County's operations in more detail than the government-wide statements.

The financial statements also include notes that provide more detailed data and explain some of the information in the financial statements.

Government-wide Statements

The government-wide statements report information about the County as a whole, including Production Services Unlimited, Inc. the County's discretely presented component unit, using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the County's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the County's net assets and how they have changed. Net-assets (the difference between the County's assets and liabilities) are one way to measure the County's financial health or position.

- Over time, increases or decreases in the County's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the County you need to consider additional nonfinancial factors such as changes in the County's tax base and the condition of County capital assets.

The government-wide financial statements of the County are divided into two categories:

- *Governmental Activities* – Most of the County's programs and services are reported here including public safety, health, human services, community and economic development and public works.
- *Business-Type Activities* – These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. All of the County's enterprise activities are reported as business-type activities.

A separately issued audit report containing financial statements is available from Production Services Unlimited, Inc. at 575 Columbus Avenue, Lebanon, Ohio 45036.

Fund Financial Statements

The fund financial statements provide more detailed information about the County's most significant funds, not the County as a whole. Funds are accounting devices that the County uses to keep track of specific sources of funding and spending for particular purposes. The County's major governmental funds are the General Fund, the Senior Citizens Service Levy Fund, the Board of Developmental Disabilities Fund, and the Special Assessment Fund. The County's major enterprise funds are the Water Fund, Sewer Fund, Storm Water Fund, Sheriff Fund and the Communications Rotary Fund.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds - The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses five enterprise funds to account for water, sewer, storm water, sheriff, and the communications rotary operations. All five of the enterprise funds are reported as major funds.

Internal Service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County's internal service funds report on County department's vehicle maintenance, gasoline purchases and self-insurance programs for employee medical benefits and workers' compensation.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The County's fiduciary funds are a private purpose trust fund and agency funds.

This space intentionally left blank.

WARREN COUNTY, OHIO**Management's Discussion and Analysis
For the Year Ended December 31, 2010****Unaudited****FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE**

The table below provides a comparison of 2010 to 2009 for both the Governmental and Business-type activities.

	Governmental Activities		Business-type Activities		Total	
	2010	Restated	2010	2009	2010	Restated
		2009				2009
Current and other assets	\$190,075,115	\$186,361,520	\$35,255,262	\$38,019,252	\$225,330,377	\$224,380,772
Capital assets, Net	101,162,545	96,244,306	205,949,890	195,304,633	307,112,435	291,548,939
Total assets	291,237,660	282,605,826	241,205,152	233,323,885	532,442,812	515,929,711
Long-term debt outstanding	32,602,407	31,359,702	11,374,386	11,913,367	43,976,793	43,273,069
Other liabilities	42,150,173	41,833,945	5,037,443	2,288,455	47,187,616	44,122,400
Total liabilities	74,752,580	73,193,647	16,411,829	14,201,822	91,164,409	87,395,469
Net assets						
Invested in capital assets, net of related debt	92,647,187	85,898,806	195,848,993	184,660,771	288,496,180	270,559,577
Restricted	118,166,446	117,230,738	65,561	65,521	118,232,007	117,296,259
Unrestricted	5,671,447	6,282,635	28,878,769	34,395,771	34,550,216	40,678,406
Total net assets	\$216,485,080	\$209,412,179	\$224,793,323	\$219,122,063	\$441,278,403	\$428,534,242

Total Net Assets increased by \$12,744,161.

The \$949,605 Current and Other Assets increase is primarily the net result of a decrease in future collections of Special Assessment revenues and an increase in the Cash and Cash Equivalents with Fiscal Agent associated with state subsidies held by the Southwest Ohio Regional Council of Governments on behalf of the Warren County Board of Developmental Disabilities.

The \$15.6 million Capital Assets Net increase resulted from \$41.0 million in net asset additions and \$25.4 million is net asset disposals. Of the net asset additions and disposals \$24.9 million was a reclassification from Construction in Progress to Land, Land Improvements, Infrastructure, and Buildings Structures and Improvements.

Total liabilities increased by \$3.8 million. Of this amount \$3.0 million was related to accounts payable for the Lower Little Miami Sewer Construction Project.

\$118.2 million or 26.8% of net assets in the current year represents resources that are subject to external restrictions on how these assets may be used. \$34.5 million or 7.8% of net assets may be used to meet the County's ongoing obligations to its citizens and creditors and for Water and Sewer activities.

Total Change in Net Assets	7,072,901	(6,349,962)	5,671,260	2,580,804	12,744,161	(3,769,158)
Beginning Net Assets - Restated	209,412,179	215,762,141	219,122,063	216,541,259	428,534,242	432,303,400
Ending Net Assets	\$216,485,080	\$209,412,179	\$224,793,323	\$219,122,063	\$441,278,403	\$428,534,242

Governmental Activities

Net assets of the County's governmental activities increased by \$7,072,901.

Expenditures overall decreased \$10.2 million or 8.2% over 2009. The decrease returned expenditures to levels below what was incurred in 2008. Several of the driving forces behind the 2010 decreases are the same as were reported as the explanation for the 2009 expenditure increases of \$8.6 million.

Legislative and Executive expenditures were down 22.8% or \$6.2 million. In 2009, Legislative and Executive expenditures had a \$5.1 million dollar distribution of excess real estate revenues to subdivisions. The lack of this same type of distribution in 2010 drives the 2010 decrease. The remaining \$1.1 million decrease in Legislative and Executive expenditures was seen across the board.

Public Works expenditures decreased \$2.2 million or 20.8%. The majority of the Public Works expenditure decrease can be found within the Redevelopment Tax Equivalent Fund. In 2009, this fund incurred infrastructure expenditure reimbursements amounting to over \$1.9 million. These same expenditures did not occur in 2010 resulting in the largest portion of Public Works expenditure decreases.

Health expenditures decreased \$237,439 or 25.6%. In 2009 a \$250,000 recycling grant was received and related expenditures incurred. A similar grant was not involved in 2010 creating the majority of the expenditure decrease.

Community and Economic Development expenditures were up in 2010 by \$1.2 million or 160.7%. Additional Community Development Block Grant funds drove this \$1.2 million increase in housing assistance expenditures in 2010.

Shared revenue accounts went relatively unchanged with a decrease of \$74,167 or .4% over 2009. Of this amount \$361,808 was a decrease in Motor Vehicle and Gas Tax Revenue and \$287,641 was an increase in intergovernmental revenue not considered as program revenues which include monies from the state for the 10% rollback on real estate taxes, the 2 ½% homestead rollback, and the personal property tax reimbursement from the commercial activity tax.

Program Revenues consists of three categories: 1) Charges for Services, 2) Operating Grants and Contributions, and 3) Capital Grants and Contributions. Charges for Services had a slight increase of \$170,361. Operating Grants and Contributions decreased by \$1.4 million. Capital Grants and Contributions in total increased by \$2.1 million. Program Revenue had an overall increase of \$864,826 over 2009.

General Tax Revenue accounts for the largest part 49.7% of the \$121.6 million in total revenues for governmental activities. General Tax revenues increased \$3.8 million over 2009. The increase is made up of a \$2.8 million dollar increase in property tax and a \$1.0 million increase in sales tax. Other Tax revenues decreased \$16,888. The percentage change, when compared to 2009 for the three categories were 9.4%, 3.8% and (7.49%) respectively.

General Other Revenue took the hardest hit with a 40.6% decrease or \$1.4 million. Of this amount, investment earnings decreased \$1.4 million and miscellaneous earnings increased \$4,209. See more information regarding the decrease in investment earnings on Page 10.

WARREN COUNTY, OHIO

**Management's Discussion and Analysis
For the Year Ended December 31, 2010**

Unaudited

The County's net charges to users of governmental services totaled \$72,331,348. The County's general revenues of \$79,404,249 subsidized all of this amount and the remaining resulted in a \$7.1 million increase in net assets.

<u>Revenue Sources</u>	<u>2010</u>	<u>Percent of Total</u>
Shared Revenues	\$16,868,894	13.87%
Program Revenues	42,170,674	34.69%
General Tax Revenues	60,473,875	49.74%
General Other	2,061,480	1.70%
Total Revenue	\$121,574,923	100.00%

Business-Type Activities

Net assets of the business-type activities increased by \$5,671,260. These programs had revenues of \$32.5 million and expenditures of \$26.9 million for fiscal year 2010. Revenues increased overall by \$4.3 million. Charges for Services and Sales increased \$1.5 million resulting primarily from billings from the increased water usage during the summer drought. Capital Grants and Contributions increased \$2.6 million due primarily to \$5.0 million received in stimulus funds that offset a decrease in private developer contributions of water and sewer lines from \$4.0 million in 2009 to \$1.9 million in 2010. The stimulus funds were targeted for the Lower Little Miami Sewer Treatment Plant Expansion. Tap in fees, also under Capital Grants, generated \$3.0 million, however this was a decrease of \$299,357 over 2009. Business activities receive no support from tax revenues and remains self-supporting.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

The County's governmental funds reported a combined fund balance of \$120,565,962, which is an increase of \$3.8 million over last year's total of \$116,761,088. The schedule below indicates the fund balance and the total change in fund balance as of December 31, 2010 and 2009.

	<u>Fund Balance December 31, 2010</u>	<u>Fund Balance December 31, 2009</u>	<u>Increase (Decrease)</u>
General	\$26,863,299	\$24,080,551	\$2,782,748
Senior Citizens Service Levy	5,564,560	4,829,766	734,794
Board of Developmental Disabilities	38,664,349	43,989,770	(5,325,421)
Special Assessment	1,652,259	1,797,320	(145,061)
Other Governmental	47,821,495	42,063,681	5,757,814
Total	\$120,565,962	\$116,761,088	\$3,804,874

WARREN COUNTY, OHIO

Management's Discussion and Analysis For the Year Ended December 31, 2010

Unaudited

General Fund – Although the County's General Fund revenues exceeded expenditures by \$7.8 million, the General Fund's balance increased by \$2.8 million due to \$5.0 million in transfers out. Children's Services received \$2.1 million in transfers to supplement their operating budget in lieu of seeking a levy to fund their needs. Youth Services Subsidy received \$991,300 in transfers that will also supplement their operating budget. County Construction projects received \$785,000 to be used towards capital projects. Warren County Transit received \$293,277; the majority is targeted as operating revenue. Various other county departments received the remainder of the transfers.

The tables that follow assist in illustrating the financial activities and balance of the General Fund:

	2010	2009	Increase
	Revenues	Revenues	(Decrease)
Taxes	\$42,718,266	\$39,318,322	\$3,399,944
Intergovernmental Revenues	5,565,782	5,290,862	274,920
Charges for Services	6,457,922	6,215,124	242,798
Licenses and Permits	17,398	13,189	4,209
Investment Earnings	1,871,646	3,995,406	(2,123,760)
Fines and Forfeitures	295,499	308,962	(13,463)
All Other Revenue	2,330,759	2,422,092	(91,333)
Total	<u>\$59,257,272</u>	<u>\$57,563,957</u>	<u>\$1,693,315</u>

Tax revenues overall increased by 8.6%. The largest source of tax revenue at \$27.2 million or 63.7% is generated from the County's Sales Tax. This is a 3.8% increase over 2009. The second largest source of tax revenue at \$12.6 million is generated from Real Estate Property Taxes. Real Estate Property Tax increased by \$2.1 million as a result of the increase of the inside millage from the previous 2.0 mills (levied in 2008 and collected in 2009) to 2.57 mills (levied in 2009 and collected in 2010). Property Transfer Taxes generated \$2.9 million. This was an increase of \$356,568 or 14.4% and the first increase since 2005.

Investment income ended the year with a 53% decrease. In 2009, the economy and interest rates continued to trudge along at historically low rates. Therefore, as portions of our investment portfolio continued to "mature" or be "called", it required us to re-invest those funds into the new investments that were being issued at the prevailing historically low interest rates; thereby, continuing to put a downward pressure on the over-all yield of our portfolio. At this point, although interest rates have dropped by more than 90% over-all, our investment income decreased by only 53%, by comparison. This is partially due to steps that were taken in 2006 to revise our investment policy in order to help insulate us from the periodic downturn in interest rates that normally occurs in the interest rate cycle. However, as the economy, financial markets, and interest rates continue to struggle along the current path (and as our investments continue to "mature" or be "called" and have to be re-invested at these low rates), it will continue to pull down our investment income to the point that it eventually matches the current interest rate decline; unless (and depending upon how quickly) the currently record low interest rate cycle is broken. However at the present time, the Federal Reserve Board, economists, prominent money management groups and various other money fund managers, which had previously forecasted a looming increase in interest rates, are no longer projecting an imminent upswing in the interest rates in the near future that could intervene and prevent the continued investment income decline from occurring.

WARREN COUNTY, OHIO**Management's Discussion and Analysis
For the Year Ended December 31, 2010****Unaudited**

	2010 Expenditures	2009 Expenditures	Increase (Decrease)
General Government:			
Legislative and Executive	\$18,544,517	\$19,390,808	(\$846,291)
Judicial	7,736,300	7,934,795	(198,495)
Public Safety	23,873,714	24,452,958	(579,244)
Health	474	0	474
Human Services	1,078,214	1,323,874	(245,660)
Community and Economic Development	208,744	324,061	(115,317)
Debt Service:			
Principal Retirement	0	774	(774)
Interest and Fiscal Charges	0	10	(10)
Total	<u>\$51,441,963</u>	<u>\$53,427,280</u>	<u>(\$1,985,317)</u>

The Board of County Commissioner's continued to have concerns about the amount of state funds that would be received by our social service programs in 2010. This prompted the Commissioners to request that all General Fund Departments decrease their 2010 budgets. As demonstrated in the above table, expenditure decreases in 2010 were generated across the board. The overall decrease was 3.7%. This followed an overall expenditure decrease of 6.7% in 2009.

Senior Citizens Services Levy Fund - The Senior Citizens Services Levy Fund received revenues from a tax levy totaling \$6.8 million and incurred expenditures for services to senior citizens in the amount of \$6.0 million. The fund balance of \$5.5 million increased by \$734,794 over 2009.

Board of Developmental Disabilities Fund - The 2010 revenue for the Board of Developmental Disabilities Fund (BDD) increased \$1.2 million or 8.0% over the 2009 revenues. Of this amount \$1.0 million was an increase in intergovernmental revenues received from state subsidies. The 2 mill tax levy rollback continued through the 2010 year. This was done to decrease the amount of carry over held within the BDD funds. Expenditures for BDD increased \$3.0 million or 16% due to the increase in Medicaid waiver services being offered to individuals served in the county. The Board is seeking to reduce waiting lists for Board services. The increases in waiver services necessitate the need for staff to accommodate the administration of the waivers as well as an increase in waiver match payments made to the State of Ohio. Expenditures exceeded revenues by \$5.3 million. The end of year fund balance was \$38.7 million.

Special Assessment Fund - The Special Assessment Fund received approximately \$1.9 million from special assessment levies, capacity fees and non-participant charges, while expending \$2.0 million in debt service payments. The fund balance decreased by \$145,061.

GENERAL FUND BUDGETARY HIGHLIGHTS

The County's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

For the General Fund, actual revenue in total ended with a positive variance of \$1.5 million when compared to the final budgeted estimates. The positive variance included \$541,749 in Taxes, \$409,164 in Investment Earnings, \$284,032 in Charges for Services, \$190,575 in All Other Revenue, \$72,076 in Intergovernmental Revenue, \$2,654 in Fines and Forfeitures and \$644 in License and Permits.

During the course of fiscal year 2010 the County Commissioners approved numerous revisions to the original appropriations. Overall, these changes resulted in an increase of \$1.9 million. However, actual expenditures were less than the final budgeted expenditures by \$3.7 million. The largest variances within the \$3.7 million involved, \$2.0 million in Legislative and Executive and \$810,021 in Public Safety. The largest variance in both these government type expenditures resulted from less spending than originally anticipated in the personal services category. The General Fund had an adequate fund balance to cover all expenditures. The fund balance was \$5.9 million better than initially projected in the original budget.

The variance between the final budget and the actual revenues are solely the result of the County Auditor's decision to conservatively estimate revenues. In 2010 his estimations ended with a positive variance of \$1.5 million. It is not the practice of the County or the Budget Commission to revise estimated revenues at year-end to bring the budget in line with actual resources.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal 2010 the County had \$307,112,435 net of accumulated depreciation invested in capital assets for its Governmental and Business Type activities. Of this total, \$101,162,545 was related to Governmental Activities and \$205,949,890 was related to the Business-Type activities. When looking at total assets and the accumulated depreciation, we ended 2010 with a \$15.6 million dollar increase in total depreciable capital assets.

In 2010, the County implemented GASB 51 which establishes accounting and financial reporting requirements for intangible assets including easements, water rights, timber rights, patents, trademarks, and computer software. With this implementation General Government identified computer software assets totaling \$809,425. The associated depreciation of this software totaled \$430,769. These additions are reflected in the beginning balance of General Governments Capital Assets. The balances are reflected under the category of Furniture, Fixtures, and Equipment. There were no changes to the Business Type assets resulting from the implementation of GASB 51.

General Government's capital assets had additions of \$11.5 million. These additions included \$5.3 million to Infrastructure, involving \$3.5 million to road improvements and \$1.8 million to bridge improvements. Federal Stimulus dollars of \$1.6 million were used toward the road improvements.

Construction Projects had additions of \$3.6 million with \$2.4 million being spent on projects involving county road and bridges and \$1.2 million being spent on county building projects.

Furniture, Fixtures and Equipment additions totaled \$1.6 million. Of this amount \$1.1 million was spent on vehicle purchases for primarily the Board of Developmental Disabilities, the Sheriff and the Engineer.

Land additions of \$542,899 and Building, Structures and Improvements additions of \$418,228 were related to the purchase of property for the Board of Developmental Disabilities administration offices, additional land bordering the Warren County airport, a County Courtroom upgrade and a greenhouse for the Juvenile Treatment Center.

General Government's capital asset disposals totaled \$4.9 million. Of this amount \$1.7 million was reclassified from Construction in Progress to Infrastructure. Infrastructure asset disposals totaled \$1.4 million with 98.6% of this amount related to roads and 1.4% related to bridges. Furniture, Fixtures and Equipment disposals totaled \$1.3 million with the largest portion of this involving Telecommunications equipment and the second largest involving the disposals of county vehicles. Disposals for Buildings, Structures and Improvements totaled \$420,300 and was all related to Telecommunications Towers. The remaining disposals involved \$10,493 in Land.

In 2010, after conducting an assessment of General Governments Telecommunications (Public Safety) capital assets categories, it was determined that a total of \$1,345,237 (historical value) previously reported under Buildings, Structures and Improvements, should be moved to more appropriate classifications of Radio and Phone Systems under the category of Furniture, Fixtures, and Equipment. The December 31, 2009 balances reflect these changes along with the associated depreciation of \$1,104,693.

Business Type's largest increase of \$13.1 million in Land Improvements was driven by the completion of water and sewer construction projects and by contributions of water and sewer lines from private developers. Of the \$13.1 million increase in Land Improvements, \$7.1 million was generated from the Grandin Road RAR Water Treatment Plant Project; \$2.8 million was from the Robinson/Vale & Shaker Water Line Project, and \$2.1 million from various other smaller water and sewer projects. The remaining \$1.1 million involved water and sewer line contributions from private developers.

Business Type's category of Buildings, Structures and Improvements increased by \$10.8 million. This increase is all attributable to the completion of the Grandin Road Water Treatment Plant Project.

Although the change to construction in progress is down by \$5.8 million, construction remained strong in 2010. There was a total of \$17.4 million invested in construction projects in 2010. While \$23.2 million in completed projects were moved from construction, the balance remains at \$23.4 million.

In 2010, a Business Type water asset with an historical value of \$2,003,119 was re-categorized and moved from the Land Improvements category to Buildings, Structures and Improvements. The beginning balances for these categories have been corrected along with the associated asset depreciation of \$480,749.

WARREN COUNTY, OHIO

Management's Discussion and Analysis For the Year Ended December 31, 2010

Unaudited

Additional information on the County's capital assets can be found in Note 10 and under Capital Assets Used in the Operation of Governmental Funds beginning on Page 204.

The following table summarizes the County's capital assets as of December 31, 2010 and December 31, 2009:

	Governmental Activities		Increase (Decrease)
	2010	Restated 2009	
Land	\$8,519,208	\$7,986,802	\$532,406

Totals	\$205,949,890	\$195,304,633	\$10,645,257

Debt

At December 31, 2010, the County had general obligation debt outstanding of \$20.1 million in bonds. Of this amount, \$7.8 million comprises debt backed by the full faith and credit of the County and \$12.3 million is special assessment debt for which the County is liable in the event of default by the property owner subject to the assessment. The County also had outstanding principal of \$2,325,000 in Tax Increment District Revenue Bonds, \$5.3 million of outstanding principal in an Ohio Department of Development Loan (State 166) and \$25,372 in an Ohio Public Works Commission Loan. The Water enterprise fund had \$5.7 million of Mortgage Revenue Bonds, and \$4.8 million in OWDA Loans. The Sewer enterprise fund had \$120,096 in OWDA Loans outstanding at December 31, 2010.

WARREN COUNTY, OHIO

Management's Discussion and Analysis For the Year Ended December 31, 2010

Unaudited

Governmental Activities long-term liabilities increased by \$1,242,705 or 4.0% during the 2010 fiscal year, and the County's Water and Sewer long-term liabilities decreased by \$538,981 or 4.5%. The County maintains an underlying "Aa1" rating from Moody's Investors Service, Inc. for general obligation debt. The Mortgage Revenue Bonds are insured by Financial Guarantee Municipal Corp (AGM), formerly named Financial Security Assurance Inc. In November 2009, Moody's issued a press release stating that it had confirmed the "Aa3" insurance financial strength rating of AGM, with a negative outlook.

In addition to the bonded debt, the County's long-term obligations include compensated absences. Additional information on the County's long-term debt can be found in Note 13 of this report.

The following table summarizes the County's long-term debt outstanding as of December 31, 2010 and December 31, 2009:

	<u>2010</u>	<u>2009</u>
Governmental Activities:		
General Obligation Bonds	\$7,753,762	\$3,853,329
Special Assessment Bonds	12,329,258	13,657,815
Tax Increment Revenue Bonds	2,325,000	2,350,000
Loans	5,360,173	6,531,709
Capital Leases	8,284	11,044
Compensated Absences	4,825,930	4,955,805
Total Governmental Activities	<u>32,602,407</u>	<u>31,359,702</u>
Business-Type Activities:		
Mortgage Revenue Bonds	\$5,715,481	\$6,232,311
Loans	4,914,650	5,000,138
Compensated Absences	744,255	680,918
Total Business-Type Activities	<u>11,374,386</u>	<u>11,913,367</u>
Totals	<u><u>\$43,976,793</u></u>	<u><u>\$43,273,069</u></u>

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In 2010, the nation, State of Ohio and Warren County's economy continued to experience the impact of the recession. Warren County has continued to exercise solid financial practices, as can be evidenced by the fact that we are one of only a few counties in the state who did not lay off staff to approve a balanced budget for 2010. Warren County, however, no matter how good its development and financial practices, cannot escape the fact that we are inextricably tied to the economic fortunes of our state and our country.

In 2011, total General Fund revenues are anticipated at \$55.2 million, which is 10.5% less than what was actually received on a cash basis in fiscal year 2010. The General Fund's original budget for appropriations of anticipated expenses for 2011 were \$61.5 million as compared to \$57.3 million in cash expenditures at the end of 2010. Even though Warren County remains in strong financial shape largely due to consistent conservative budgeting, we are not immune from the effects of the state and national deficits and looming budget cuts. During 2011, 2012 and 2013 the County is focusing on potential State Revenue cuts and reductions in investment income that could affect the County's General Fund balance. Our response to these possibilities include (1) containing salary and benefit expenses, (2) minimizing hiring and reviewing vacant positions to see if they can go unfilled, and (3) instituting across the board cuts in budgets of departments and agencies that receive General Fund dollars.

A result of Warren County's location between the two big cities of Dayton and Cincinnati in the southwestern part of Ohio has made it an urban magnet attracting population and new development. Metropolitan Cincinnati's northerly expansion into Warren County, particularly the rapid development along I-71 in the City of Mason, Deerfield Township, Lebanon and South Lebanon has also contributed to Warren County's economic development. Greater Dayton's growth south has prompted strong growth along I-75 in Franklin, Clearcreek Township, Middletown, Monroe and particularly in the City of Springboro. Many of the businesses locating to the County are high technology, research and development and service related industries.

The Warren County Economic Development Department has been working hard to offset any job losses experienced through the recession, helping to create new jobs, as well as, retain existing jobs. The Home Depot Distribution Center has hired approximately 300 people at their facility and with the recent announcement of a 2nd shift the company will hire an additional 150 new positions. The Cincinnati Premium Outlet Center which opened in August of 2009 has created close to 1,000 new jobs and experienced an additional 65,000 square feet of retail space secured in 2010. As of the spring of 2011, an additional eight stores have indicated their intentions to open at the Mall which will result in the hiring of over 100 new personnel.

In 2010, Warren County also saw the introduction of new companies. L-3 Nova Engineering moved their corporate headquarters and manufacturing facility to Deerfield Township and brought over 200 new jobs to the County. VRI moved and expanded their headquarter operations to the City of Franklin and brought 100 jobs in 2010 with an anticipated additional 300 jobs within 3 years. Additionally, Thaler located their company in the City of Springboro bringing 131 employment positions to the County.

The Warren County Office of Economic Development also collaborated in 2010 with other jurisdictions/regional organizations to provide growth opportunities for local companies in both facility expansion and sales growth. Warren County worked with Clermont County to secure the installation of sanitary sewers for the Hartz Mountain Corporation. This collaborative effort allows Hartz to bring three new lines to their facility in Harlan Township, retain their existing 75 employees and create 100+ new jobs.

Likewise, the Warren County Office of Economic Development worked with Workforce One of Warren County, the Dayton Development Coalition and the Cincinnati USA Partnership to conduct a forum for companies, discussing how to do business with Wright-Patterson Air Force Base. This forum, attended by over 100 companies, showcased the regional importance of this military base and the buying power garnered inside the gates. Guest speakers at this event represented Warren County, the SBA from Wright-Patterson Air Force Base and Congressman Turner of Ohio's 3rd Congressional District. A follow-up forum conducted by the Procurement Technical Assistance Center to assist companies in diving deeper into the government procurement process was conducted in early spring of 2011.

The Warren County Port Authority had an active 2010 and worked together with the Economic Development Office to assist growth in the County. The Port aided the City of Middletown in issuing bonds for the Greentree Academy. This academy is a partnership between the City of Middletown, Miami University, the Atrium Medical Center and the Warren County Career Center to provide extensive educational opportunities for individuals looking to work/grow professionally in the healthcare industry.

The Port also assisted E-Beam Services to double their facility and their employment count in 2010. E-Beam Services, located in the City of Lebanon, collaborated with the Port to issue \$6.5 million dollars in bonds to add a second electron accelerator to their facility, expand by 20,000 square feet and add approximately 25 new jobs. In 2011 the Port is looking to work with the Warren County Convention and Visitors Bureau to issue bonds in the development of a Warren County Sports Complex. This Complex will allow the Bureau to expand its sports marketing campaign and secure additional revenue for Warren County through increased jobs and hotel/sales tax.

Warren County continues to be credited as one of the highest “new job” growth counties in the state. In 2010, Warren County's 9.2% annual average unemployment rate was the twelfth lowest in the state. By March of 2011, our unemployment rate lowered to 8.1%

While we can't control the national economy, there is much we can do to spark a local recovery. The Board of County Commissioners are intent to remain focused on economic development and coordinating these efforts with the various cities and townships to create more visibility and productivity in new job creation. As Warren County continues to weather the economic storm that has hit this nation and state, we will work hard to maintain services and planned projects and cut costs wherever possible. We will continue to place emphasis on Economic and Workforce Development.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the County's finances and to show the County's accountability for the money it receives. If you have questions about this report or need additional financial information contact Nick Nelson, Warren County Auditor, 406 Justice Drive, Lebanon, Ohio 45036.

WARREN COUNTY, OHIO

***Reconciliation Of Total Governmental Fund Balances
To Net Assets Of Governmental Activities
December 31, 2010***

Total Governmental Fund Balances \$ 120,565,962

***Amounts reported for governmental activities in the
statement of net assets are different because:***

Capital Assets used in governmental activities are not resources and therefore are not reported in the funds. 101,162,545

Other long-term assets are not available to pay for current period expenditures and therefore are deferred in the funds. 23,383,604

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. (32,710,790)

Internal Service Funds are used by management to charge the costs of vehicle maintenance, insurance and gasoline to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net assets. This is the amount that applies to the governmental activities. 4,083,759

Net Assets of Governmental Funds \$ 216,485,080

See accompanying notes to the basic financial statements

WARREN COUNTY, OHIO

***Reconciliation Of The Statement Of Revenues, Expenditures
And Changes In Fund Balances Of Governmental Funds
To The Statement Of Activities
For the Year Ended December 31, 2010***

Net Change in Fund Balances - Total Governmental Funds	\$ 3,793,273
 <i>Amounts reported for governmental activities in the statement of activities are different because</i>	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays and capital contributions exceeded depreciation.	5,105,721
Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the loss on the disposal of fixed assets net of proceeds received.	(316,228)
Revenues and transfers in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(1,479,826)
The issuance of long-term debt (e.g. special assessment bonds, leases) provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.	(1,269,625)
In the statement of activities, interest is accrued on outstanding bonds and loans, whereas in governmental funds, an interest expenditure is reported when due.	10,881
Some expenses reported in the statement of activities, such as change in inventory and compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.	235,953
The Internal Service Funds, which are used to charge the cost of services to individual funds, are not included in the statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the County's Internal Service Funds are allocated among the governmental and business-type activities.	<u>992,752</u>
<i>Change in Net Assets of Governmental Activities</i>	<u><u>\$ 7,072,901</u></u>

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Warren County is a political subdivision of the State of Ohio. The County was formed by an act of the Ohio General Assembly in 1803. The three member Board of County Commissioners is the legislative and executive body of the County. The County's combined financial statements include accounts for all County operations.

The accompanying basic financial statements comply with the provisions of GASB Statement No. 14, *"The Financial Reporting Entity,"* as amended by GASB Statement No. 39, *"Determining Whether Certain Organizations are Component Units"* in that the financial statements include all organizations, activities and functions of the primary government (the County) and legally separate entities (component units) for which the County is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing board and either the County's ability to impose its will over the organization or the possibility that the organization will provide a financial benefit to or impose a financial burden on the County.

The financial activities of all funds, agencies, boards and commissions for which the County elected officials are financially accountable are reflected in the accompanying financial statements. Based on the foregoing criteria, Warren County (the primary government) has one component unit, Production Services Unlimited, Inc. The reporting entity of the County includes the following services: human and social services, certain health care and community assistance services, civil and criminal justice systems, road and bridge maintenance and general administrative services. In addition, the county operates a water supply, sanitary sewer and storm water system.

Discretely Presented Component Unit - The component unit column on the Statement of Net Assets includes the financial data of the County's component unit, Production Services Unlimited, Inc. (PSU). It is reported in a separate column to emphasize that it is legally separate from the County. PSU is being presented as a part of the County's reporting entity because it would be misleading to exclude them.

PSU is an adult workshop for the clients of the Board of Developmental Disabilities. Warren County has an annual master operating agreement with PSU to subsidize a portion of the operations. PSU contracts with various companies and individuals including the County to provide janitorial services, assembly work, packaging, clerical, and other activities, which are, performed by the workshop participants. Separate financial statements for PSU may be obtained by writing to: Production Services Unlimited, Inc., 575 Columbus Avenue, Lebanon, Ohio 45036.

Related Organizations - Warren County officials appoint a voting majority of the board for the following organizations. The County's accountability for these organizations does not extend beyond making the appointments.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Reporting Entity (Continued)

- *Metropolitan Housing Authority* - The County Commissioners, Probate Court and Common Pleas Court each appoint one member of a five member board.
- *Park District* - The Probate Judge appoints all three members of the Park Board.
- *Warren County Airport Authority* - The County Commissioners appoint all members of a nine-member board.
- *Butler/Clermont/Warren Workforce Policy Board* – The County Commissioners appoint all of the Warren County members of the board. The Policy Board is a regional organization developed as a result of the Workforce Investment Act. The role of the Policy Board is to assess the workforce needs of area employers, assess the employment and training needs of job seekers and to identify fiscal and other available resources to meet current and future workforce needs in the region.
- *Warren County Port Authority* – The County Commissioners appoint all seven members of the board. The role of the board is to enhance, foster, aid, provide or promote the following within Warren County: transportation, economic development, housing, recreation, education, culture and research.

Joint Venture without Equity Interest

Warren County is a member of the Warren/Clinton Counties Recovery Services Board, which is a joint venture between Warren and Clinton Counties. The purpose of the board is to provide aid, support and education for alcohol and drug dependent citizens as well as those who are mentally handicapped. See Note 19 "Joint Venture."

Jointly Governed Organization

Warren County Board of Developmental Disabilities is a member of the Southwest Ohio Regional Council of Governments formed by Hamilton, Clermont, Butler and Warren Counties. The purpose of this Council is to coordinate the powers and duties of the member counties to better serve and benefit persons with developmental disabilities. See Note 20 "Jointly Governed Organization."

B. Basis of Presentation - Fund Accounting

The accounting system is organized and operated on the basis of funds each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses. The various funds are summarized by type in the basic financial statements. The County uses the following fund types:

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

Governmental Funds

Governmental funds are those funds through which most governmental functions typically are financed. The acquisition, use and balances of the County's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is on determination of "financial flow" (sources and use and balances of financial resources). The following are the County's major governmental funds:

General Fund - represents the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund. The primary revenue sources are sales and use tax, property transfer tax, real estate tax, state and local government fund receipts, investment earnings and charges for service. The general fund balance is available to the County for any purpose provided it is expended or transferred according to the laws of Ohio.

Senior Citizens Service Levy Fund - This fund is used to account for a County-wide tax levy, which provides the source of funding for senior citizen services.

Board of Developmental Disabilities Fund - This fund is used to account for a County-wide property tax levy, Federal and State grants and reimbursements used for care and services for the mentally handicapped and developmentally disabled.

Special Assessment Fund - This fund is used to account for revenues received from special assessment collections from annual tax billings, which provide the source of financing for long-term debt incurred for water and sewer line construction.

Proprietary Funds

All proprietary funds are accounted for on an "economic resources" measurement focus. This measurement focus provides that all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Enterprise Funds - These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The County's major enterprise funds are:

Water Fund - This fund is used to account for the operation of the County's water service.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

Sewer Fund – This fund is used to account for the operation of the County’s sanitary sewer service.

Storm Water Fund – This fund is used to account for the operation of the County’s Storm Water Management Plan in compliance with the federally mandated National Pollution Discharge Elimination System (NPDES) Phase II program.

Sheriff Fund – This fund is used to account for the policing services provided on a contractual basis to Deerfield Township, South Lebanon and Caesar Creek Litter Control.

Communications Rotary Fund – This fund is used to account for communications maintenance services provided to various county departments and other governmental units. Users are billed for costs incurred.

Internal Service Funds – The four internal service funds operated by the County are the Vehicle Maintenance, Health Insurance, Workers’ Compensation Self Insurance and the Gasoline funds. The Vehicle Maintenance fund was created to provide repairs and maintenance to various County departments. The Health Insurance fund is used for claims and administration of the health insurance program for covered County employees and eligible dependents. The Workers’ Compensation Self Insurance fund was created to accumulate reserves and process claims for workers’ compensation for all functions of county government. The Gasoline fund was created to account for the centralized purchase of gasoline provided to various departments of the County.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. These funds are used to account for assets held by a governmental unit as an agent for individuals, private organizations or other governmental units and therefore not available to support the County’s own programs. The County’s only trust fund is a private purpose trust that accounts for unclaimed monies. The agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operation. These funds operate on an accrual basis of accounting. Further description of these funds can be found on pages 183 and 184.

C. Basis of Presentation – Financial Statements

Government-wide Financial Statements – The statement of net assets and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government and its discretely presented component unit, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities. Internal Service fund activity is eliminated to avoid “doubling up” revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation – Financial Statements (Continued)

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the County and for each function or program of the County's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

Fund Financial Statements – Fund financial statements report detailed information about the County. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which the County considers to be 60 days after year-end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for debt service and expenditures related to compensated absences which are recorded only when due.

Non-exchange transactions, in which the County receives value without directly giving equal value in return, include sales and use taxes, property taxes, grants, entitlements and donations. Revenue from sales and use taxes is recognized in the period in which the income is earned and is available. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied and the revenue is available. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. Revenues considered susceptible to accrual at year-end include interest on investments, and state levied locally shared taxes, including motor vehicle license fees and local government assistance. Other revenues, including licenses, permits, certain charges for services, and miscellaneous revenues are recorded when received in cash, because generally these revenues are not measurable until received.

Special assessment installments and related accrued interest, which are measurable but not available at December 31, are recorded as deferred revenues. Property taxes measurable as of December 31, 2010 but which are not intended to finance 2010 operations and delinquent property taxes, whose availability is indeterminate, are recorded as deferred revenues.

The full accrual basis of accounting is utilized for reporting purposes by the government-wide statements, proprietary funds and fiduciary funds. Revenues are recognized when they are earned and expenses are recognized when they are incurred.

Pursuant to GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting," the County follows GASB guidance as applicable to proprietary funds and FASB Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements. The County has elected not to apply FASB statements and interpretations issued after November 30, 1989 to its business-type activities and enterprise funds.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year.

All funds, other than agency funds, are legally required to be budgeted and appropriated; however, only the General and Major Special Revenue Funds are required to be reported. The primary level of budget control is at the object level by organizational unit and/or department by function (Public Safety, Public Works, General Government, Debt Service etc.) within a fund. Budgetary modifications may only be made through resolution of the County Commissioners.

1. Tax Budget

By July 15, each County department must submit an annual tax budget for the following fiscal year to the County Commissioners for consideration and passage. The adopted budget is submitted to the County Auditor, as secretary of the County Budget Commission, by July 20th of each year, for the period January 1 to December 31 of the following year.

2. Estimated Resources

The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Budget Commission then certifies its actions to the County by September 1st of each year. As part of the certification process the County receives an official certificate of estimated resources which states the projected receipts by fund. Prior to December 31, the County must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about January 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during 2010.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

3. Appropriations

A temporary appropriations resolution to control expenditures may be passed on or about January 1st of each year for the period January 1 through March 31. An annual appropriations resolution must be passed by April 1st of each year for the period January 1st through December 31st. The appropriations resolution establishes spending controls at the fund, function, organizational unit and/or department, and object level. The appropriations resolution may be amended during the year by resolution of the County Commissioners as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources. During 2010, supplemental appropriations were necessary to budget for unanticipated expenditures. Expenditures may not legally exceed budgeted appropriations at the object level. Administrative control is maintained through the establishment of more detailed line-item budgets. Management may ask the County Commissioners to transfer appropriations within the object level (among line items) for an organizational unit and/or department provided total appropriations for that object and organizational unit and/or department do not exceed amounts established by the County Commissioners. The budgetary figures, which appear on the budgetary statements, are provided on the budgetary basis to provide a comparison of actual results with the final budget, including all amendments and modifications.

4. Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for expenditures are encumbered and recorded as the equivalent of expenditures (budget basis) in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. However, on the GAAP basis of accounting, encumbrances do not constitute expenditures or liabilities and are reported as reservations of fund balances for governmental funds in the accompanying basic financial statements.

5. Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriations balance is carried forward to the subsequent fiscal year and need not be reappropriated.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

6. Budgetary Basis of Accounting

The County's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major difference between the budgetary basis and the GAAP basis lies in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on the cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting.

A reconciliation of the results of operations for the year from the GAAP basis to the budgetary basis for the general fund and for the major special revenue funds is shown below:

	Net Change in Fund Balances		
	General Fund	Senior Citizens Service Levy Fund	Board of Developmental Disabilities Fund
GAAP Basis (as reported)	\$2,783,945	\$734,794	(\$5,325,421)
Increase (Decrease):			
Accrued Revenues at December 31, 2010 received during 2011	(5,736,922)	(252)	(3,244,132)
Accrued Revenues at December 31, 2009 received during 2010	6,551,180	267	801,286
Accrued Expenditures at December 31, 2010 paid during 2011	2,432,352	1,022,662	1,290,300
Accrued Expenditures at December 31, 2009 paid during 2010	(2,454,812)	(1,040,947)	(690,164)
Change in Fair Value, 2010	299,940	0	0
Change in Fair Value, 2009	638,362	0	0
2010 Prepays for 2011	(237,142)	0	(13,651)
2009 Prepays for 2010	183,027	0	13,754
Interfund Loans Receivable, 2010	(96,000)	0	0
Interfund Loans Receivable, 2009	20,000	0	0
Outstanding Encumbrances	(2,146,770)	(1,801,368)	(2,340,747)
Budget Basis	<u>\$2,237,160</u>	<u>(\$1,084,844)</u>	<u>(\$9,508,775)</u>

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits, the State Treasury Asset Reserve of Ohio (STAR Ohio), and treasury securities. The STAR Ohio, certificates of deposit and treasury securities are considered cash equivalents because they are highly liquid investments or have original maturity dates of three months or less.

The County Treasurer pools cash for investment and resource management purposes. Each fund's equity in pooled cash and investments represents the balance on hand as if each had maintained its own cash and investment account. For purposes of the statement of cash flows, the proprietary funds consider their share of equity in STAR Ohio and pooled certificates of deposit to be cash equivalents. See Note 5 "Cash, Cash Equivalents and Investments."

At year end the Southwest Ohio Council of Governments was holding deposits in the amount of \$2,735,563 which are represented as "Cash and Cash Equivalents with Fiscal Agent" on the balance sheet.

G. Investments

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the County records all its investments at fair value, which are based upon quoted market prices. All investment income, including changes in the fair value of investments, are recognized as revenue in the operating statements. The County allocates interest among various funds based upon applicable legal and administrative requirements. See Note 5 "Cash, Cash Equivalents and Investments."

Warren County has invested funds in the STAR Ohio during 2010. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2010. The County also has several liquid asset management accounts. These accounts have been restricted to U.S. Treasury and agency security investments only with the exception of the Fifth Third Liquid Investment Account which can invest up to 10% in commercial paper as long as it is rated A1P1.

H. Inventory of Supplies

Inventory is stated at cost (first-in, first-out) in the governmental funds, and at the lower of cost (first-in, first-out) or market in the proprietary funds. The costs of inventory items are recorded as expenditures in the governmental funds when purchased and expenses in the proprietary funds when used.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Prepaid Water Contract

The County has entered into a contract with Cincinnati Waterworks to provide water to the County that will benefit periods beginning in 2000 until December 31, 2025. This item is recorded as a prepaid water contract in the Water Fund (enterprise) using the consumption method. This will reflect the current asset amount as a prepaid item and the expense in the year in which it is consumed.

J. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2010, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

K. Capital Assets and Depreciation

Capital assets are defined by the County as a specific piece of real or personal property, which has the following characteristics:

- Tangible in nature, possesses physical substance, actual or estimated cost of ten thousand dollars or more
- Identifiable intangible permanent right-of-ways
- Identifiable intangible software, purchased or internally generated cost of one hundred thousand dollars or more
- Expected useful life longer than five years

1. Property, Plant and Equipment - Governmental Activities

Governmental Activities capital assets are those not directly related to the business type funds. These generally are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds and are capitalized at cost or estimated historical cost for assets not purchased in recent years.

Estimated historical costs for governmental activities capital asset values were initially determined by identifying historical costs when such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

Application development expenses for internally developed software have been capitalized. Implementation/operation activities are expensed.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Capital Assets and Depreciation (Continued)

1. Property, Plant and Equipment - Governmental Activities (Continued)

Capital assets include land (including permanent easements), construction in progress, land improvements, buildings, structures and improvements, furniture, fixtures and equipment (including computer software), and infrastructure. Infrastructure is defined as long-lived capital assets that normally are stationary in nature and normally can be preserved for a significant number of years. Examples of governmental activities infrastructure include roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems. These assets are reported in the Governmental Activities column of the Government-wide Statement of Net Assets, but they are not reported in the Fund Financial Statements.

2. Property, Plant and Equipment – Business Type Activities

Proprietary funds capital assets are stated at cost (or estimated historical cost), including interest capitalized during construction and architectural and engineering fees where applicable. Contributed capital assets are recorded at fair market value at the date received. Proprietary funds capital assets are similar to Governmental Activities capital assets with the exception of the infrastructure. Proprietary infrastructure consists of water and sewer lines, whereas Governmental Activities infrastructure consists of roads and bridges. These assets are reported in both the Business-Type Activities column of the Government-wide Statement of Net Assets and in the respective funds.

3. Depreciation

Tangible capital assets are depreciated, excluding land and construction in progress, and intangible assets (computer software) costs are amortized. Depreciation and amortization have been provided using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Governmental and Business-Type Activities Estimated Lives (in years)</u>
Land Improvements (Water and Sewer Lines)	50
Buildings, Structures and Improvements	20 - 40
Furniture, Fixtures and Equipment (Including Computer Software)	5 - 25
Infrastructure	15 – 100

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. Capitalization of Interest

The County's policy is to capitalize interest for proprietary (enterprise) fund construction projects until the project is substantially completed. Capitalized interest on proprietary fund construction is amortized on a straight-line basis over the estimated useful life of the asset. There was no interest capitalized for proprietary funds during 2010.

M. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the enterprise fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and long-term notes that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

N. Long-Term Obligations

Long-Term liabilities are being repaid from the following funds:

<u>Obligation</u>	<u>Fund</u>
General Obligation Bonds	Court Building Construction Fund Tax Increment Financing Fund
Special Assessment Bonds	Special Assessment Fund
Capital Leases	Child Support Enforcement Fund
Tax Increment District Revenue Bonds	Tax Increment District Revenue Loan Fund
State 166 Loan	Tax Increment Financing Fund
Ohio Public Works Commission Loan	State OPWC Loan Fund
Ohio Department of Transportation Loan	State DOT Loan Fund
Ohio Water Development Authority Loans	Water Fund Sewer Fund
Mortgage Revenue Bonds	Water Fund

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Long-Term Obligations (Continued)

Compensated Absences	General Fund
	Motor Vehicle and Gasoline Tax Fund
	Human Services Fund
	Board of Developmental Disabilities Fund
	Children's Services Board Fund
	Child Support Enforcement Fund
	Water Fund
	Sewer Fund
	Storm Water Fund
	Sheriff Revolving Fund
	Health Insurance Fund

O. Bond Discounts/Issuance Costs

Bond discounts and issuance costs for governmental and proprietary fund types are deferred and amortized over the term of the bonds using the bonds-outstanding method, which approximates the effective interest method. Bond discounts are presented as a reduction of the face amount of bonds payable, bond premiums are recorded as an increase to the face amount of bonds payable, and issuance costs are recorded as deferred charges.

P. Compensated Absences

In accordance with GASB Statement No. 16, "Accounting for Compensated Absences," vacation and compensatory time are accrued as liabilities when an employee's right to receive compensation is attributable to services already rendered and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments, at termination or retirement. Leave time that has been earned but is unavailable for use as paid time off or as some other form of compensation because an employee has not met the minimum service time requirement, is accrued to the extent that it is considered to be probable that the conditions for compensation will be met in the future.

Sick leave is accrued using the vesting method, whereby the liability is recorded on the basis of leave accumulated by employees eligible to receive termination payments as of the balance sheet date, and on leave balances accumulated by other employees expected to become eligible in the future to receive such payments.

For governmental funds, that portion of unpaid compensated absences that is due and payable as of year end using expendable, available resources is reported as an expenditure in the fund from which the individual earning the leave is paid, and a corresponding liability is reflected in the account "Compensated Absences Payable." In the government wide statement of net assets, "Compensated Absences Payable" is recorded within the "Due within one year" account and the long-term portion of the liability is recorded within the "Due in more than one year" account. Compensated absences are expensed in the proprietary funds when earned and the related liability is reported within the fund.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Q. Grants and Other Intergovernmental Revenues

Local governmental fund revenues are recorded as receivables and revenue when measurable and available. Assistance awards made on the basis of entitlement are recorded as intergovernmental receivables and revenues when entitlement occurs. Federal and State reimbursement-type grants for the acquisition or construction of capital assets in Proprietary funds are receivables and capital contributions when the related expenses are incurred.

All other Federal and State reimbursement-type grants are recorded as receivables and revenues when the related expenditures/expenses are incurred.

R. Restricted Cash and Cash Equivalents with Fiscal Agent

Restricted cash and cash equivalents with fiscal agent reported in the Special Assessment Fund (Governmental-Type Activities) are matured bonds that have yet to be redeemed by bond holders and restricted cash and cash equivalents in the Water and Sewer Funds (Business-Type Activities) represent temporarily restricted assets that will be paid to bond holders upon maturity of the annual coupon.

S. Pensions

The provision for pension costs is recorded when the related payroll is accrued and the obligation is incurred.

T. Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for water treatment and distribution, wastewater collection and treatment, policing services to other governments and communications maintenance services. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

U. Special Assessments

The County reports Special Assessment bonds in the governmental activities on the entity wide statement of net assets. These bonds are secured by liens on assessed properties and are also backed by the full faith and credit of the County. Special assessment debt service payments are recorded in the Special Assessment Fund. Capital outlay financed by special assessments are recorded in the Capital Projects Funds.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

V. Self-Funded Insurance

The County is self-funded for employee health care, prescription, dental, vision and workers' compensation benefits. The programs are administered by Custom Design Benefits, Express Scripts, Dental Care Plus and Sedgwick CMS, Inc. which provide claims review and processing services. For health care, prescription, dental and vision each County fund is charged for its proportionate share of covered employees. The County records a liability in claims payable for incurred but unreported claims at year-end based upon an analysis of historical claims and expenses. For workers' compensation each County fund is charged for actual claims paid plus administrative fees based upon number of employees per department.

W. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

X. Reservations of Fund Balance

Reservations of fund balance or net assets indicate that a portion of the balance is not available for expenditure or is legally segregated for a specific future use. Balances are reserved for inventories of supplies, prepaid items, long-term interfund loans, debt service and encumbered amounts that are not accrued at year end in the governmental funds.

Y. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets net of accumulated depreciation, and net of the outstanding balances of any borrowings related to the acquisition, construction or improvements of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The County applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

*Notes to the Basic Financial Statements
For the Year Ended December 31, 2010*

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes reconciliation between fund balance – total governmental funds and net assets of governmental funds as reported in the government-wide statement of net assets. The following is a detailed listing of those reconciling items that are net adjustments or a combination of several transactions:

Other long-term assets not available to pay for current-period expenditures:

Unamortized Bond Issuance Costs	\$153,537
Shared Revenues	7,813,050
Interest Revenue	579,033
Special Assessment Revenue	14,837,984
	<hr/>
	\$23,383,604

Long-Term liabilities not reported in the funds:

General Obligation Bonds Payable	\$7,753,762
Special Assessment Bonds Payable	12,329,258
Tax Increment District Revenue Bonds Payable	2,325,000
Loans Payable	5,360,173
Capital Leases Payable	8,284
Accrued Interest on Long-Term Debt	85,993
Retainage Payable	188,530
Compensated Absences Payable	4,659,790
	<hr/>
	\$32,710,790

This space intentionally left blank.

*Notes to the Basic Financial Statements
For the Year Ended December 31, 2010*

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net assets of governmental activities as reported in the government – wide statement of activities. The following is a detailed listing of those reconciling items that are net adjustments or a combination of several transactions:

Amount by which capital outlay exceeded depreciation in the current period:

Capital Outlay	\$8,635,583
Capital Contributions	\$964,924
Depreciation Expense	<u>(4,494,786)</u>
	\$5,105,721

Governmental revenues not reported in the funds:

Increase in Shared Revenue	\$238,478
Increase in Interest Revenue	158,578
Decrease in Special Assessment Revenue	(1,870,238)
Decrease in Charges for Services	<u>(6,644)</u>
	(\$1,479,826)

Net amount of long-term debt issuance and bond and lease principal payments:

General Obligation Bond Principal Payments	\$941,654
Special Assessment Bond Principal Payments	1,328,557
Tax Increment District Revenue Bond Payments	25,000
Loan Payments	1,171,536
Capital Lease Payments	2,760
Unamortized Bond Issuance Costs	(11,145)
Road & Interchange Bond Issuance Costs	114,100
Issuance of Road & Interchange Bonds	<u>(4,842,087)</u>
	(\$1,269,625)

Expenses not requiring the use of current financial resources:

Decrease in Compensated Absences Payable	\$224,352
Increase in supplies inventory	<u>11,601</u>
	\$235,953

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 3 – CHANGES IN ACCOUNTING PRINCIPLES AND RESTATEMENT OF FUND BALANCE

A. Changes in Accounting Principles

For fiscal year 2010, the County has implemented GASB Statement No. 51 Accounting and Financial Reporting for Intangible Assets; GASB Statement No. 53 Accounting and Financial Reporting for Derivative Instruments; and GASB Statement No. 58 Accounting and Financial Reporting for Chapter 9 Bankruptcies. At December 31, 2009, there was no effect on the fund balance as a result of implementing GASB Statements 53 and 58.

GASB 51 establishes accounting and financial reporting requirements for intangible assets including easements, water rights, timber rights, patents, trademarks, and computer software. Implementation of GASB 51 for intangible assets resulted in the inclusion of software not previously required to be reported as capital assets. Software assets are one of many integrated types of assets under the Furniture, Fixtures and Equipment Asset Category. Changes to the December 31, 2009 balances for this category are reflected in Note 10 Governmental Activities Capital Assets, the MD&A Capital Assets & Debt Administrations and the Statistical Tables. No changes to the Business Type Capital Assets were needed.

B. Restatement of Net Assets

The restatement resulted in changes to the December 31, 2009 Statement of Net Assets.

<u>Description</u>	<u>Governmental Activities</u>
Total Net Assets at 12/31/09 (As reported)	209,033,523
Depreciable Capital Assets, Net	809,425
Accumulated Depreciation	(430,769)
At 12/31/09 (As restated)	<u><u>209,412,179</u></u>

NOTE 4 – DEFICIT FUND EQUITIES

At December 31, 2010 the following funds had deficit fund/net asset balances:

<u>Fund</u>	<u>Deficit</u>
Capital Project:	
Water Extension Projects Fund	709,582
Sewer Extension Projects Fund	12,399

The fund/net asset deficits arise from the recognition of expenditures on the modified accrual basis/accrual basis, which are greater than expenditures/expenses recognized on the budgetary/cash basis. The deficits do not exist under the cash basis of accounting. The General Fund provides transfers when cash is required, not when accruals occur.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS

The County Treasurer combines a majority of cash resources of the individual funds to form a pool of cash and investments. Each fund type's portion of this pool is displayed on the combined balance sheet as "Cash, Cash Equivalents and Investments." Investments are reported at fair value, which is based on quoted market prices. Ohio law requires the classification of funds held by the County into two categories.

Active monies are public monies determined to be necessary to meet current demand upon the County Treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawn on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the County identified as not required for use of current expenses. Inactive deposits must either be evidenced by certificates of deposit or by savings or deposit accounts including, but not limited to passbook accounts.

Ohio Law, under Ohio Revised Code Section 135.35, permits inactive monies to be deposited or invested in the following:

- United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- Bond and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly within the County;
- Time certificates of deposit or savings or deposit accounts, including, but not limited to, passbook accounts;
- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions, and
- The State Treasury Asset Reserve of Ohio (STAR Ohio).

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

- Securities lending agreements in which the County lends securities and the eligible institution agrees to exchange either securities described in (1) or (2) above or cash or both securities and cash, equal value for equal value;
- High grade commercial paper in an amount not to exceed 25 percent of the County's total average portfolio;
- Bankers acceptances for a period not to exceed 180 days and in an amount not to exceed 25 percent of the County's total average portfolio.

The County invests in United States Treasury obligations and eligible guaranteed obligations of the United States, the State Treasury Asset Reserve (STAR Ohio), certificates of deposit, commercial paper and mutual funds which are invested exclusively in United States obligations. All investments comply with the limitations with respect to length of maturities contained in Chapter 135 of the Ohio Revised Code (The Uniform Depository Act). The maximum maturity of any investment of the County will be five years. The County interprets the limit on federal guaranteed investments and all legal investments very conservatively.

At December 31, 2010 the County did not own any derivative type investments, interest only investments, collateralized mortgage obligations, commercial paper or reverse repurchase agreements. The County Treasurer has attended special training in all of the investment areas to assure compliance with the strictly conservative philosophy of the County. All investments are transacted with banks the County believes to be reputable or other financial institutions operating in the State of Ohio that are well versed in the statutory restrictions Ohio political subdivisions operate under and also have an understanding of the County investment requirements.

A. Deposits

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned. Warren County's policy as it relates to custodial credit risk is to follow the Ohio Revised Code chapter 135 as well as to practice sound financial management principles focusing on diversification of deposits. Protection of County cash and deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the assets. Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the County places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105% of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

A. Deposits (Continued)

At year end the carrying amount of the County's deposits was \$27,337,447 and the bank balance was \$32,636,549. Federal depository insurance covered \$2,989,502 of the bank balance and remaining deposits were collateralized as follows: pledged collateral, held in the County's name by the financial institution's trust department, in the amount of \$8,858,635, pooled collateral, consisting of securities held by the Federal Reserve Bank in the name of the pledging financial institution or institution's trust department but not in the County's name, in the amount of \$20,788,412. The County had \$311,587 in undeposited cash on hand at December 31, 2010 which is included as Cash and Cash Equivalents on the balance sheet.

B. Investments

The County's investments are detailed below and are categorized to give an indication of the level of risk assumed as of year end.

	Fair Value	Average Weighted Days to Maturity
Government Sponsored Enterprise Investments	\$125,577,104	891.10
STAR Ohio	1,185,648	0.01
U.S. Treasuries Money Market Fund	16,578,856	0.11
U.S. Treasury Notes	1,171,504	2.28
County Government Bonds	2,550,259	151.99
Total Investments	\$147,063,371	1,045.49

Interest Rate Risk – The Ohio Revised Code generally limits security purchases to those that mature within five years of settlement date. The current County Investment and Depository Policy has been expanded from its previous three year maturity position to a five year maturity position (mirroring the Ohio Revised Code). This new investment tool allows the County the opportunity to “lock in” a portion of its investments at higher rates for a longer period of time, when interest rates are at their peak during an interest rate cycle.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

B. Investments (Continued)

Credit Risk – The County follows the Ohio Revised Code (ORC) which limits the amount of credit risk it's going to allow any county to become involved in. It accomplishes this by compiling a specific list of investments, to the exclusion of all other investments, which counties are legally allowed to participate in. The County further minimizes its credit risk by placing most of its available funds in obligations of the US Government or its Agencies; STAR Ohio, which is comprised mostly of US Government and Agency obligations and is specifically authorized and endorsed by the Ohio State Treasurer; as well as local bank CD's, which are collateralized by US Government and Agency obligations. The County also invests in Money Market Funds that are invested solely in US Treasuries. Even though Commercial Paper is an ORC authorized investment, because it is associated with higher credit risk, the County has specifically and significantly limited its use in the County's portfolio and at December 31, 2010 did not have any Commercial Paper investments. The County's investments at December 31, 2010 in FFCB, FHLB, FHLMC, FAMCA, FNMA, are rated AAA by Standard and Poor's. Its investment in STAR Ohio is rated AAAM by Standard and Poor's. Obligations of the US Government are explicitly guaranteed by the US Government and are not considered to have credit risk. The investment in Warren County Special Assessment Bonds are rated Aa2 based upon the County's credit rating.

Concentration of Credit Risk – The County places no limit on the amount the County may invest in one issuer. Of the County's total investments, 3.58% are FFCB, 34.37% are FHLB, 19.48% are FHLMC, 26.91% are FNMA, 1.05% are FAMCA, 0.81% are STAR Ohio, 11.27% are US Treasuries Money Market Fund, 0.80% are US Treasury Notes and 1.73% is Warren County Special Assessment Bonds.

Cash and cash equivalents in the amount of \$174,989 for the component unit, Production Services Unlimited, Inc. (PSU), are considered active funds for immediate use maintained either as cash or in depository accounts payable or able to be withdrawn on demand. At year-end the carrying amount of PSU deposits was \$174,989 and the bank balance was \$194,920. Federal depository insurance covered \$194,920 of the bank balance.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 6- TAXES

A. Property Taxes

Property taxes include amounts levied against all real, public utility, and tangible personal property located in the County. Taxes from real property (other than public utility) collected during 2010 were levied after October 1, 2009 on assessed values as of January 1, 2009, the lien date. Assessed values are established by the County Auditor at 35% of appraised market value. All property is required to be revalued sexennially with a triennial update. Real property taxes are payable annually or semi-annually. If paid annually, payment is due February 25; if paid semi-annually, the first payment is due February 25, with the remainder payable by July 15. In certain circumstances, state statute permits earlier or later payment dates to be established.

The State of Ohio enacted a Commercial Activity Tax (CAT) effective in 2006 and subsequently is phasing out the Tangible Personal Property Tax over the following four years. Local revenues lost are to be reimbursed from the CAT until 2011. As of tax year 2009 Interexchange telephone carriers are the only business subject to the tangible personal property tax.

Public utility tangible personal property taxes collected in one calendar year are levied in the preceding year on assessed values as of January 1 of that preceding year, the lien date. Public utility tangible personal property currently is generally assessed at 100% of its true value. Public utility property taxes are payable on the same dates as real property taxes described previously.

Beginning in tax year 2001, the percentages used to determine the assessed value of electric company personal property used in the production of electricity was reduced from 100% to 25% of true value; taxable transmission and distribution property will continue to be assessed at 88% of true value (50% of true value for rural electric companies). The state is to reimburse local taxing districts for a portion of the revenues lost due to this reduction in tax valuation with proceeds of a new kilowatt-hour excise tax imposed on electricity consumers.

For tax levies which are to produce a given dollar amount each year (such as debt service levies), the reimbursement is to be generally the amount that would have otherwise been collected from the utility property less an amount equal to one-fourth of a mill. For all other non school district tax levies, the State reimbursement is to be, in general, a percentage of the amount that would have otherwise been collected from the utility property, which percentage is to decline from 100% in 2002 to 0% in 2017 and thereafter; all such school district tax levies are to be reimbursed at generally an amount sufficient to produce the same revenues that would have otherwise been collected but taking into account State education aid. Tax levies which were (i) not in effect for the 1998 tax year or (ii) approved by the voters after June 30, 1999 are not eligible for reimbursement by the State.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 6- TAXES (Continued)

A. Property Taxes (Continued)

The County Treasurer collects property taxes on behalf of all taxing districts in the County. The County Auditor periodically remits to the taxing districts their portion of the taxes collected with final settlement in April and September for taxes payable in the first and second halves of the year, respectively. The full tax rate of all County operations for the year ended December 31, 2010 was \$5.78 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which the 2010 property tax levy was based totaled \$5,628,388,770 which was comprised of \$5,463,508,170 in real property, and \$164,880,600 in public utility and tangible personal property.

Ohio Law prohibits taxation of property from all taxing authorities in excess of 10 mills of assessed value without a vote of the people. Under current procedure, the County's un-voted share of the 10 mills is 2.57 mills of assessed value. The County is levying the full 2.57 mills on assessed value.

B. Other Taxes

In addition to property taxes, certain other taxes are recognized as revenue by the County. These taxes include the 1% County levied sales tax, gasoline taxes, property transfer tax and miscellaneous other taxes which have various lien, levy and collection dates.

This space intentionally left blank.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 7 - RECEIVABLES

Receivables at December 31, 2010, consisted of taxes, interfund, accounts receivable, special assessments, interest, HOME Investment Partnership Program and Community Development Block Grant Program loans and intergovernmental receivables arising from shared revenues. All receivables are considered collectible in full.

NOTE 8 - INTERFUND RECEIVABLES AND PAYABLES

Interfund balances are expected to be repaid within one year or less. The following balances at December 31, 2010 represent interfund loans receivable and payable:

	Interfund Loans	
	Receivables	Payables
Governmental Funds:		
General Fund	\$96,000	\$0
Other Governmental Funds	2,688,030	3,923,275
Total Governmental Funds	<u>2,784,030</u>	<u>3,923,275</u>
Proprietary Funds:		
Enterprise Fund:		
Water Fund	1,070,320	0
Sewer Fund	68,925	0
Total Proprietary Funds	<u>1,139,245</u>	<u>0</u>
Total Interfund Loans	<u>\$3,923,275</u>	<u>\$3,923,275</u>

Interfund loans purpose is to allow some funds to operate and pay vendors timely with cash while awaiting anticipated revenue. Loans are often used as a means of short-term financing for assessment projects and as a way to cash flow funds that are specifically for reimbursable grants.

This space intentionally left blank.

WARREN COUNTY, OHIO

**Notes to the Basic Financial Statements
For the Year Ended December 31, 2010**

NOTE 8 - INTERFUND RECEIVABLES AND PAYABLES (Continued)

The following balances at December 31, 2010, represent interfund receivables and payables:

	Interfund	
	Due From Other Funds	Due To Other Funds
Governmental Funds:		
General Fund	\$116,179	\$279,382
Board of Developmental Disabilities	0	122,287
Other Governmental Funds	505,368	348,842
Total Governmental Funds	621,547	750,511
Enterprise Funds:		
Water	0	358,488
Sewer	6,007	27,113
Storm Water	0	409
Sheriff	0	42,048
Total Enterprise Funds	6,007	428,058
Internal Service Funds	551,178	163
Total Interfund Receivables and Payables	<u>\$1,178,732</u>	<u>\$1,178,732</u>

Interfund receivables and payables purpose is to account for amounts due between different funds for billings such as postage, telephone, vehicle maintenance, gasoline, drug testing, workers compensation charge-backs and unemployment charge-backs.

NOTE 9 - TRANSFERS

The following balances at December 31, 2010 represent transfers in and transfers out:

Fund	Transfer In	Transfer Out
Governmental Funds:		
General Fund	\$0	\$5,031,364
Other Governmental Funds	6,354,321	1,322,957
Total Transfers	<u>\$6,354,321</u>	<u>\$6,354,321</u>

The principal purpose for interfund transfers is to provide additional funding for current operations of certain Special Revenue funds, to segregate money for construction of capital assets and to pay government obligation debt.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 10 - CAPITAL ASSETS (Continued)

B. Business-Type Activities Capital Assets (Continued)

Construction in Progress:

Construction in progress in the enterprise funds for costs incurred as of December 31, 2010 total \$23,442,375. This amount is comprised of the following projects:

Lower Little Miami WWTP	\$17,999,343
ODOT 22 & 3	1,571,940
Snider Elevated Water Tank Improvement	1,073,567
St Rt 122 & Utica Rd Assessment Project	1,044,569
Various Other Water Projects	1,745,531
Various Other Sewer Projects	7,425
Total Construction in Progress	<u>\$23,442,375</u>

The Water and Sewer Department strives to stay ahead of the demands for water and sewer services in Warren County. With new development practically coming to a halt over the last couple of years, it has given the Water and Sewer Department the opportunity to make much needed upgrades to some aging facilities. The following projects are in the various stages of engineering or construction.

The County is upgrading the Lower Little Miami Waste Water Treatment Plant first built in 1976 and upgraded in 1990 (Phase 1) and again in 1995 (Phase 2). The purpose of this project is to allow the County to expand this facility from the current 7.3 million gallons per day (mgd) average daily flow (adf) capacity to 12 mgd adf. Peak hourly flow capacity will also increase from 25.2 mgd to 48 mgd. Bids for construction, electrical, HVAC and plumbing were awarded at a total amount of \$27.0 million. Total engineering costs are estimated to be around \$5.0 million. The project will be complete in July of 2012.

Under a Contract that was bid by The Ohio Department of Transportation to widen US Route 22 & 3, approximately 4,300 feet of 12 inch water main was replaced. The newly constructed water main is in the public utility easement along Route 22 & 3. This project is substantially complete.

The Water and Sewer Department entered into a contract to paint the 1.5 million gallon hydropiller elevated tank (Snider Elevated Tank) that was constructed in 1990. Painting of the tank is substantially complete.

Residents on a section of State Route 122 and Utica Road petitioned the County to provide water service to the area, as many of the resident's wells were no longer a viable source for drinking water and other water needs. Approximately 13,500 feet of 10 inch ductile iron pipe will be installed to serve 73 residents. The installation of this water line will also complete a much needed loop in the County's water system. Each resident will be assessed \$9,400 for the cost of the construction and the County will contribute approximately \$400,000. The project will be substantially complete in April of 2011.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 11 - DEFINED BENEFIT PENSION PLANS

All of the County's full-time employees participate in one of two separate retirement systems which are cost-sharing multiple employer defined benefit pension plans.

A. Ohio Public Employees Retirement System (the "OPERS")

The following information was provided by the OPERS to assist the County in complying with GASB Statement No. 27, "Accounting for Pensions by State and Local Government Employers."

All employees of the County, except teachers at the Board of Developmental Disabilities, participate in the OPERS, a multiple-employer public employee retirement system. OPERS administers three separate pension plans. The Traditional Pension Plan is a cost sharing, multiple employer defined benefit pension plan. The Combined Plan is also a cost sharing, multiple employer defined benefit pension plan where employer contributions are invested by OPERS to provide a formula retirement benefit similar in nature to the Traditional Pension Plan and member contributions are self-directed and accumulate retirement assets equal to the value of member contributions plus any investment earnings. The Member-Directed Plan is a defined contribution plan in which the member invests both member and employer contributions to accumulate retirement assets equal to the value of contributions plus any investment earnings. The OPERS provides retirement, disability, survivor and death benefits and annual cost-of-living adjustments to members of the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post employment health care coverage. Chapter 145 of the Ohio Revised Code provides statutory authority to establish and amend benefits. The Ohio Public Employees Retirement System issues a stand-alone financial report that includes financial statements and required supplementary information for the OPERS. Interested parties may obtain a copy by making a written request to 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-6705 or 1-800-222-7377.

The Ohio Revised Code provides statutory authority for employee and employer contributions. For 2010, member and employer contribution rates were consistent across all three plans. The employee contribution rate for employees other than law enforcement is 10%. Law enforcement officers in the County Sheriff's department contribute 11.1% of covered salary. The 2010 employer contribution rate for local government employer units was 14% of covered payroll. Of this amount, for members of the Traditional Plan, 8.5% was used to fund the pension and 5.5% to fund health care for the period January 1 through February 28, 2010. For the period March 1 through December 31, 2010, 9.0% was used to fund the pension and 5.0% was used to fund health care. For members of the Combined Plan, 9.27% was used to fund the pension and 4.73% was used to fund health care for the period of January 1 – February 28, 2010 and for the period of March 1 – December 31, 2010, 9.77% was used to fund the pension and 4.23% was used to fund the health care. For law enforcement, the employer contribution rate was 17.87% of covered payroll. Of this amount, 12.37% was used to fund the pension and 5.5% to fund health care for members of the Traditional Plan for the period January 1 through February 28, 2010. For the period March 1 through December 31, 2010, 12.87% was used to fund the pension and 5.0% was used to fund the health care. For members of the Combined plan, 13.14% was used to fund the pension and 4.73% was used to fund the health care for the period of January 1, through Feb 28, 2010, and for the period of March 1 through December 31, 2010, 13.64% was used to fund the

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 11 - DEFINED BENEFIT PENSION PLANS (Continued)

A. Ohio Public Employees Retirement System (the "OPERS") (Continued)

pension and 4.23% was used to fund health care. The contribution requirements of plan members and the County are established and may be amended by the Ohio Public Employees Retirement Board. The County's contribution to the OPERS for the years ending December 31, 2010, 2009, and 2008 were \$6,726,689, \$6,761,444, and \$6,591,038 respectively, for employees of the County and \$1,107,980, \$1,052,171, and \$1,047,410 respectively, for law enforcement officers, which were equal to the required contributions for each year.

The OPERS provides post employment health care benefits to age and service retirants under the Traditional Pension and Combined Plans with ten or more years of qualifying Ohio service credit. Health care coverage for disability recipients and qualified survivor benefit recipients is also available. The health care coverage provided by the OPERS is considered an Other Post Employment Benefit (OPEB) as described in GASB Statement No. 45. A portion of each employer's contribution to the OPERS is set-aside for the funding of post retirement health care.

The Ohio Revised Code provides statutory authority requiring public employers to fund post employment health care through their contributions to the OPERS. The portion of the 2010 employer contributions (identified above) for employees other than law enforcement used to fund health care was \$2,433,604. For law enforcement employees, the portion used to fund health care amounted to \$314,728.

OPERS adopted a Health Care Preservation Plan (HCPP) with an effective date of January 1, 2007. In addition to the HCPP, OPERS has taken additional action to improve the solvency of the Health Care Fund in 2005 by creating a separate investment pool for health care assets. As an additional component of the HCPP, local government member and employer contribution rates increased on January 1 of each year from 2006 to 2008 and law enforcement employer contribution rates will increase over a six year period beginning January 1, 2006 with a final rate increase on January 1, 2011. These rate increases allowed additional funds to be allocated to the health care plan.

B. State Teachers Retirement System of Ohio (STRS of Ohio)

The teachers who work for the Board of Developmental Disabilities participate in the State Teachers Retirement System of Ohio (STRS), a cost-sharing, multiple employer retirement system administered by the State Teachers Retirement Board.

STRS administers three separate pension plans. The Defined Benefit Plan is a cost sharing multiple-employer defined benefit pension plan. Benefits are established under Chapter 3307 of the Revised Code. The Defined Contribution Plan allows the member to allocate the member and employer contributions among various investment choices. Plan benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. The Combined Plan allows members to allocate their contributions to their selected investment choices and the employer contributions are used to fund a defined benefit payment. STRS provides basic retirement benefits, disability, survivor and health care benefits based on eligible service credit to members and beneficiaries. Members of the Defined Contribution plan are not eligible for health care benefits. STRS issues

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)

B. State Teachers Retirement System of Ohio (STRS of Ohio) (Continued)

a stand-alone financial report that includes financial statements and required supplementary information for the STRS of Ohio. Interested parties may obtain a copy by making a written request to STRS Ohio, 275 E. Broad Street, Columbus, Ohio 43215-3371 or by calling (614) 227-4090, or by visiting the STRS Ohio Web site at www.strsoh.org.

The Ohio Revised Code provides statutory authority for County and employee contributions. The contribution requirements of plan members and the County are established and may be amended by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. For fiscal year ended June 30, 2010, 13% was the portion of County contribution used to fund pension obligations. The County's contributions to the STRS of Ohio for the years ending December 31, 2010, 2009 and 2008 were \$30,295, \$29,185, and \$28,373 which were equal to the required contributions for each year.

STRS provides access to health care coverage to retirees who participated in the Defined Benefit or Combined Plans and their dependents. Coverage includes hospitalization, physicians' fees, prescription drugs, and partial reimbursement of monthly Medicare Part B premiums. Pursuant to the Revised Code, the State Teachers Retirement Board has discretionary authority over how much, if any, of the health care cost will be absorbed by STRS. All benefit recipients are required to pay a portion of the health care cost in the form of a monthly premium.

Benefits are funded on a pay-as-you-go basis through an allocation of employer contributions to a health care stabilization fund equal to 1% of covered payroll for 2010. The portion of the 2010 employer contributions (identified above) used to fund health care for fiscal year 2010 amounted to \$303.

NOTE 12 - COMPENSATED ABSENCES

The costs of vacation and sick leave benefits are recorded as they are earned. Employees earn vacation leave at varying rates based upon length of service. Sick leave is accumulated at a rate of four and six tenths hours per eighty hours of bi-weekly service and pro-rated for hours less than eighty. Sick leave is cumulative without limit.

At December 31, 2010, the County's accumulated, unpaid compensated absences amounted to \$5,570,185. Of this amount, \$4,825,930 is recorded as Governmental Activities on the Entity Wide Statement of Net Assets (\$332,198 is reported as due within one year), \$744,255 is recorded as Business-type activities (\$41,799 is reported as due within one year).

WARREN COUNTY, OHIO

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 12 - COMPENSATED ABSENCES (Continued)

At December 31, 2010 the liability recorded as Governmental Activities within the Statement of Net Assets representing unpaid vacation time, sick leave and compensatory time was as follows:

	<u>Hours</u>	<u>Balance</u>	<u>Amount Due Within One Year</u>
Vacation Time	116,004	\$2,632,339	\$174,632
Sick Time	84,574	2,108,815	157,566
Compensatory Time	<u>4,267</u>	<u>84,776</u>	<u>0</u>
Total	<u>204,845</u>	<u>\$4,825,930</u>	<u>\$332,198</u>

NOTE 13 - LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS

General obligation bonds are secured by the County's ability to levy a voted or unvoted property tax within limitations of Ohio law.

The 1991 G.O. Building Project Bond, issued for various county building improvements, will be retired from the debt service fund utilizing a portion of the 1/2% additional sales tax levied in 1992.

The 2005 Tax Increment Financing (TIF) Refunding Bond was issued as a general obligation bond. The TIF was originally issued to finance water system improvements in the county, including expanding the Deerfield-Hamilton Water Treatment Plant and to expand and upgrade the Lower Little Miami Wastewater Treatment Plant.

The 2010 Road and Interchange Bonds were issued to finance the costs of the design and engineering of modifications to the Fields-Ertel Road/Interstate 71 (I-71) and Western Row Road/I-71 interchanges.

The 2005 TIF Bond, the 2010 Road and Interchange Bonds and the State 166 Loan (mentioned below) and are being retired from the debt service fund utilizing payments in lieu of taxes received from Proctor and Gamble. A service agreement with Proctor and Gamble provides for minimum annual payments sufficient to satisfy the debt service requirements on these three issues.

Special Assessment Bonds are financed by property tax assessments to affected property owners. However, the County is ultimately responsible for the debt service if the assessments are not collected. Delinquent special assessments related to outstanding special assessment bonded debt at year end was \$95,382.

The principal amount of the County's special assessment debt outstanding at December 31, 2010 of \$12,329,258 is general obligation debt (backed by the full faith and credit of the County). This debt is being retired with the proceeds from special assessments levied against benefited property owners. The County is obligated to repay the debt irrespective of the amount of special assessments collected from property owners. The fund balance of \$1,652,259 in the Special Assessment Debt Service Fund at December 31, 2010 is reserved for the retirement of outstanding special assessment bonds.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 13 - LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS (Continued)

The 2009 Tax Increment District Revenue Bonds were issued to finance the Greens of Bunnell Hill Project. The project involved the purchase of certain streets consisting of a portion of Sandewood Street, a portion of Scotch Pine Drive, Black Walnut Drive, Ponderosa Court, Juniper Court and Boxwood Court and to reimburse both the County Engineer and Clearcreek Township for the cost of public improvement expenditures made to the site. The Bonds are secured by and payable solely from the revenues generated from the service payments in lieu of taxes generated pursuant to section 5709.77 of the Ohio Revised Code.

A State 166 Loan was issued in lieu of additional TIF bonds to assist with infrastructure costs in conjunction with the building of the Procter & Gamble Health Care Research Center. The State 166 Loan accrued interest monthly from March of 1994 through February of 2008. The annual accrued interest amount was added to State 166 Loan Payable. The first payments on the State 166 Loan debt began in March of 2008.

The 2000 Ohio Public Works Commission interest-free loan was used to cover costs incurred for the Columbia Road Reconstruction Project. The loan will be retired from the debt service fund ending in 2011 by funding provided by the County Engineer.

In 2006, Warren County entered into a loan agreement with the Ohio Department of Transportation as partial funding for its local share of the construction of the US 22 Road Widening Project. The total original loan amount of \$1,406,261 carries a 3% interest rate. The loan payments began in 2008. The loan was retired in 2010 through funding provided by the County Engineer.

The 2002 Waterworks System Revenue Refunding Bond is currently the only Revenue Bond of the Water System. Revenue bond trust indentures require the County Water and Sewer Funds to maintain minimum debt service coverage ratios. The minimum coverage ratio required for the fiscal year 2010 was 120%. The bond coverage ratio for the fiscal year, based upon operating revenue and investment income and operating expenses excluding depreciation, was 393% for the Water Fund. The Sewer Fund did not have any debt outstanding in 2010. The ratio for the Water Fund increased to 612% when the calculation includes the tap-in fees collected from customers connecting to the existing water system.

In 2005, the Water Department entered into a reimbursing loan agreement with the Ohio Water Development Authority (OWDA) for the expansion of the Deerfield Hamilton Water Supply and Treatment Plant. The loan amount was \$5,000,138 and carries a 2% interest rate. The semi-annual loan payments began in 2010 and will continue through the end of 2029.

In 2010 the Sewer Department secured a twenty (20) year loan with a maximum borrowing of \$15,174,531 at 3.11% interest rate from the Water Pollution Control Loan Fund (WPCLF). The agreement for the loan was entered into with the Ohio Water Development Authority and the Environmental Protection Agency. The agreement included an additional \$5.0 million from the American Recovery & Reinvestment Act which was received during 2010 and is considered debt forgiveness that does not have to be repaid. The loan will be used to finance the Lower Little Miami Waste Water Treatment Plant Improvements. The project began in 2010 and is expected to be completed in 2012. Payments on the loan will not begin until July 1, 2012. In 2012 an amortization schedule will be generated based upon the total amount drawn against the loan. At the end of 2010 draws on the loan totaled \$120,096.

WARREN COUNTY, OHIO

**Notes to the Basic Financial Statements
For the Year Ended December 31, 2010**

NOTE 13 - LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS (Continued)

The OWDA loans, along with the remaining water revenue bond will be retired from the revenues generated by the water and sewer fund.

Under the Uniform Bond Act of the Ohio Revised Code, the County has the capacity to issue \$48.67 million of additional unvoted general obligation debt.

C. Conduit Debt Obligations

In order to provide financial assistance to private sector entities for the acquisition and construction of commercial and industrial facilities deemed to be in the public interest, the County has, from time to time, issued conduit debt. This debt is secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Ownership of the acquired facilities transfers to the private sector entity served by the bond issuance upon repayment of the bonds. Neither the County, the State nor any other political subdivision thereof is obligated in any manner for the repayment of the bonds. Accordingly, the conduit debt is not reported as liabilities in the accompanying financial statements.

As of December 31, 2010 there were eleven (11) series of conduit debt outstanding. The aggregate principal amount payable for these series issued prior to January 1, 1996, could not be determined; however, their original issue amounts totaled \$15,150,000. Issue amounts for conduit debt issued after January 1, 1996 are monitored and currently have an outstanding principal debt totaling \$85,847,379 which brings the total conduit debt to \$100,997,379.

WARREN COUNTY, OHIO

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 14 - CAPITAL LEASES

In prior years, the County has entered into capital leases for copiers and a postage machine. Equipment acquired by lease has been capitalized in the government-wide statements governmental activities in the amount of \$25,621. The County's future minimum lease payments under lease obligations, which have been capitalized as of December 31, 2010, are as follows:

<u>Year Ending December 31,</u>	<u>Capital Leases</u>
2011	\$3,574
2012	3,574
2013	2,085
Minimum Lease Payments	<u>9,233</u>
Less amount representing interest at the County's incremental borrowing rate of interest	<u>(949)</u>
Present value of minimum lease payments	<u><u>\$8,284</u></u>

NOTE 15 - CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

As of December 31, 2010, the County had the following significant construction projects that will be financed through Water and Sewer Surplus Revenues and General Fund Revenues:

<u>Projects</u>	<u>Remaining Construction Commitment</u>	<u>Expected Date of Completion</u>
Lower Little Miami WWTP	\$12,783,266	2012
Courts Bldg Construction	948,586	2013
Courts Bldg Energy Conservation Project	739,942	2011
Total	<u><u>\$14,471,794</u></u>	

NOTE 16 - RELATED PARTY TRANSACTION

Warren County provided salaries for administration, supervision, and facilities to Production Services Unlimited, Inc. (PSU), a discretely presented component unit of Warren County. PSU reported \$248,551 for these contributions, recording revenue and expenses at cost or fair market value, as applicable.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 17 - CONTINGENCIES

The County is a party to various legal proceedings which seek damages or injunctive relief generally incidental to its operations and pending projects. The County's management is of the opinion that the ultimate disposition of the various claims and legal proceedings will not have a material, adverse effect on the County's financial position.

The County participates in a number of Federal and State assisted grant programs. The significant programs are the Waiver Day Habilitation, Title XIX Medical Assistance Program, State Homeland Security Program, Community Development Block Grant, Youth Services-Out of Home Placement Grant and the Workforce Investment Act. These programs are subject to financial and compliance audits by grantors or representatives. The County believes that disallowed claims, if any, will not have material adverse effect on the County's financial position.

NOTE 18 - RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters.

The County Risk Sharing Authority, Inc. (CORSA) is a risk sharing pool made up of sixty-six counties in Ohio. CORSA was formed as an Ohio nonprofit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self-insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the various specified insurance coverage provided by CORSA. This coverage includes comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

Each member county has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of the Corporation are managed by an elected board of not more than nine trustees. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of certificates. The County does not have an equity interest in CORSA.

Insurance coverage stayed the same as coverage in the prior year. Settled claims during the last eight years have not exceeded commercial insurance coverage.

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 18 - RISK MANAGEMENT (Continued)

The County has a group health insurance program for employees and their eligible dependents. Premiums are paid into an internal service fund by all funds having compensated employees, based upon an analysis of historical claims experience, the desired fund balance and the number of active participating employees. The monies paid into the Health Insurance Fund (internal service fund) are available to pay claims and administrative costs. The plan is administered by a third party administrator, Custom Design Benefits, who monitors all claim payments. Excess loss coverage, carried through United of Omaha, becomes effective after \$150,000 per year per specific claim. There is a lifetime maximum coverage per person of \$2,000,000.

The total claims liability of \$687,069 comprised of Board of Developmental Disabilities (BDD) and County health insurance, reported (at face value) within the BDD Fund (major special revenue) and the Health Insurance Fund (internal service) at December 31, 2010 is based on the requirements of Governmental Accounting Standards Board Statement No. 10 which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Both funds are reported within the governmental activities on the entity wide statements.

Changes in each of the fund's claims liability amount in 2010 were:

	<u>Balance at December 31, 2009</u>	<u>Current Year Claims</u>	<u>Claim Payments</u>	<u>Balance at December 31, 2010</u>
BDD				
2009	\$4,310	\$142,125	(\$127,020)	\$19,415
2010	19,415	154,929	(157,793)	16,551
County:				
2009	\$1,395,927	\$11,023,568	(\$10,843,957)	\$1,575,538
2010	1,575,538	7,646,477	(8,551,497)	670,518

WARREN COUNTY, OHIO

***Notes to the Basic Financial Statements
For the Year Ended December 31, 2010***

NOTE 19 - JOINT VENTURE

Warren/Clinton Counties Recovery Services Board

Warren County is a member of Mental Health Recovery Services of Warren and Clinton Counties (MHRS), a joint venture between the two county entities and is the local Alcohol, Drug Addiction, and Mental Health Services (ADAMHS) Board as defined by the Ohio Revised Code. The mission of MHRS is to share hope and caring to achieve recovery from mental illness, alcoholism, and drug addiction.

MHRS is governed by an 18-member board of directors, four of which are appointed by the Ohio Department of Mental Health (ODMH) and four by the Ohio Department of Alcohol and Drug Addiction Services (ODADAS). The remaining ten members are appointed by the Warren County Commissioners and the Clinton County Commissioners. MHRS' main sources of revenue are grants and other allocations from the two state departments previously named and a property tax levy in both counties.

MHRS contracts with independent, nonprofit agencies to provide services and programs. The Warren County Auditor and Treasurer maintain MHRS's financial records. Financial statements and the Single Audit Report of Examination are on file and can be obtained by writing to the Warren County Auditor's Office, 406 Justice Drive, Lebanon, Ohio 45036. Pursuant to Section 340.016 of the Ohio Revised Code, any withdrawing county would be required to submit a comprehensive plan that provides for the equitable adjustment and division of debts and obligations of the Joint County District to the State Director of Mental Health.

A summary of the unaudited cash basis financial information for the year ended December 31, 2010 is presented below:

Warren/Clinton Counties Recovery Services			
Assets	\$12,430,569	Revenues	\$18,134,420
Fund Equity	\$12,430,569	Expenses	\$17,049,520
		Net Income	<u>\$1,084,900</u>

NOTE 20 – JOINTLY GOVERNED ORGANIZATION

Southwest Ohio Regional Council of Governments

The Southwest Ohio Regional Council of Governments is a jointly governed organization among Warren, Butler, Clermont and Hamilton Boards of Developmental Disabilities. Southwest Ohio Regional Council of Governments was formed to coordinate the powers and duties of the member Boards to better serve and benefit persons with mental retardation and developmental disabilities in each of the Council's counties. The executive committee consists of a total of four members, three members elected annually by the member Boards and the immediate past president. During 2010, the County contributed \$15,000 towards the operation of the Southwest Ohio Regional Council of Governments.

*COMBINING AND INDIVIDUAL FUND
STATEMENTS AND SCHEDULES*

*THE FOLLOWING COMBINING STATEMENTS AND SCHEDULES INCLUDE
THE MAJOR AND NONMAJOR GOVERNMENTAL FUNDS, INTERNAL
SERVICE FUNDS AND FIDUCIARY FUNDS.*

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than amounts relating to major capital projects) that are legally restricted to expenditures for specified purposes.

Motor Vehicle and Gasoline Tax Fund

To account for monies received by the County for state gasoline tax and vehicle registration fees used for County road and bridge repair and improvements programs. Expenditures for township road and bridge work are reimbursed by the townships.

Human Services Fund

To account for various Federal and State grants and reimbursements as well as transfers from the General Fund used for human services programs.

Dog and Kennel Fund

This fund is used to account for fees collected for defraying the cost of administering the registration program, for compensation of the county dog wardens, deputy pound keepers and staff and for the payments of animal claims.

Permissive Tax Fund

To account for municipal motor vehicle permissive tax revenues from the State used for County road and bridge repair and improvement programs.

Real Estate Assessment Fund

To account for State mandated County-wide tax assessing expenses that are funded by charges to the political subdivisions located within the County.

Children's Services Board Fund

To account for various Federal and State grants and reimbursements used for County child care and adoption programs.

Youth Services Subsidy Fund

To account for revenues from the State for the purpose of maintaining a restitution program for juvenile offenders administered by the juvenile court.

Delinquent Real Estate Tax and Assessment Fund

This fund accounts for five percent (5%) of all certified delinquent taxes and assessments collected by the County Treasurer. These funds are used for the collection of delinquent property taxes and assessments and are appropriated one half to the County Treasurer and one half to the County Prosecuting Attorney.

(Continued)

Special Revenue Funds

Certificate of Title Administration Fund

To account for revenues and expenditures of the Clerk of Courts vehicle title registration operations.

Warren County Solid Waste District Fund

To account for assessed disposal fees from a privately owned and operated landfill and to implement reduction, reuse and recycling techniques.

Workforce Investment Act Fund

To account for grants from the Federal Government for employment and training needs of area job seekers.

Pass Through Grants Fund

To account for Federal or State grants that are passed through Warren County to other grant sub-recipients.

Child Support Enforcement Fund

To account for revenues from 2% poundage fees, fines, Federal and State grants and other similar revenue sources, and to account for legally restricted expenditures used for the collection and protection of support payments made and owed to parents and children.

Emergency Management Fund

To account for Federal and State funds used to assist the County, local government and the public in preparedness and recovery during emergency or disaster situations.

Community Development Fund

To account for Federal and State grants and expenditures as prescribed under the Community Development Block Grant Program.

Court Computerization Fund

To account for additional fees which could be charged by the different courts for computerization of the court and the office of the clerk of each court.

Courts Special Projects Fund

To account for revenues from fines and costs pursuant to section 1907.24(B)(1) of the Ohio Revised Code to be used for special projects of the County Court and Common Pleas Court for more efficient operation.

County Transit Fund

To account for Federal and State grant proceeds used for capital and operating expenditures of the County's transit system.

(Continued)

Special Revenue Funds

Other Special Revenue Fund

To account for revenues from: fees, taxes, fines, Federal and State grants, licenses and other similar revenue sources, and to account for legally restricted expenditures for specific purposes. The following funds, when compared to combined Special Revenue Fund totals, comprise less than 10% in each of the categories of assets, liabilities, revenues and expenditures:

- Law Library Resources Fund**
- Veteran's Memorial Fund**
- Probation Supervision Fund**
- Common Pleas Mental Health Grant Fund**
- Domestic Shelter Fund**
- Crime Victim Grant Fund**
- Prosecutor Grants Fund**
- County Court Probation Department Fund**
- Donations Fund**
- Municipal Victim Witness Fund**
- Job Training Partnership Act Fund**
- Community Corrections Fund**
- Sheriff Grants Fund**
- Indigent Guardianship Fund**
- Indigent Driver Fund**
- Drug Law Enforcement Fund**
- Law Enforcement Fund**
- Treatment Alternative to Street Crime (TASC) Grant Fund**
- Hazardous Materials Emergency Fund**
- Enforcement and Education Fund**
- Rehabilitation Grants Fund**

Debt Service Funds

Debt Service Funds are used to account for retirement of the County's general obligation and special assessment bonds

Court Building Construction Fund

To account for the bond anticipation note which provided the source of financing for the construction of a new County Courts Building in a prior period. (The Balance Sheet is not presented because there are no assets or liabilities at year end.)

Tax Increment Financing Fund

To account for revenue received from payments in lieu of taxes from Proctor and Gamble collected during annual tax billings, which provide the source of financing for long-term debt incurred for water and sewer line construction.

State Ohio Public Works Commission (OPWC) Loan Fund

To account for Ohio Public Works Commission loan which provided the source of financing for the reconstruction of Columbia Road in a prior period. (The Balance Sheet is not presented because there are no assets or liabilities at year end.)

(Continued)

Debt Service Funds

State Department of Transportation (DOT) Loan Fund

To account for the County Engineer's repayment of principal and interest for a DOT loan which provided financing for a portion of the US 22 Road Widening Project. (The Balance Sheet is not presented because there are no assets or liabilities at year end.)

Tax Increment District Revenue Bond Fund

To account for revenue received from payments in lieu of taxes from property owners of the Greens of Bunnell Hill Project. Payments collected during annual tax billings provide the source of revenue for the long-term debt payments incurred for this project.

Capital Projects Funds

The Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds.

County Road Projects Fund

To account for Ohio Public Works Commission Grants and the related County share of financing to repair and construct various County roads.

Water Extension Projects Fund

To account for the bond anticipation note which provided the source of financing for construction of water line extensions in various areas of the County to be financed by special assessments from property owners.

Sewer Extension Projects Fund

To account for the bond anticipation note which provided the source of financing for construction of sewer line extensions in various areas of the County to be financed by special assessments from property owners.

County Construction Projects Fund

To account for the bond anticipation note which provided the source of financing for the Justice Drive Street Extension and various improvements to County buildings.

Airport Construction Fund

To account for the grant anticipation financing of the extension and resurfacing of a runway at the County airport.

Redevelopment Tax Equivalent Fund

To account for expenses and sources of financing for public improvements to the Greens of Bunnell Hill Incentive District.

Permanent Fund

The Permanent Fund is used to account for the financial resources that are legally restricted in that only the earnings, not the principal, may be used to support the County's programs.

Scheurer - Smith Trust Fund

To account for restricted private sector contributions whose earnings are earmarked for education of the children of the Mary Haven Center.

Internal Service Funds

The internal service funds are used to account for the financing of goods or services provided by one department to other departments of the County on a cost-reimbursement basis.

Vehicle Maintenance Fund

To account for vehicle maintenance services provided to various County departments and other governmental units. Users are billed for costs incurred.

Health Insurance Fund

To account for claims and administration of the health insurance program for covered County employees and eligible dependents. County departments are billed according to the employee's family or marital status.

Workers' Compensation Self Insurance Fund

To account for the accumulation and allocation of costs associated with self-insured workers' compensation costs incurred by the county.

Gasoline Fund

To account for the centralized purchase of gas and corresponding charge backs to departments and other government units based on use.

Fiduciary Funds

The Agency Funds are used to account for assets held by the County as an agent for individuals, private organizations, other governments and/or other funds.

Agency Funds

Employees Retirement Fund

To account for the accumulation of the employer's share of contributions until remitted to State OPERS.

Townships, Corporations, Schools, Special Districts, Libraries Fund

To maintain and account for distributions of various revenue sources to subdivisions within the County.

Undivided Water and Sewer Revenue Fund

To account for the undivided water and sewer billing deposits to be distributed to the Water and Sewer Funds.

Payroll Fund

To maintain and account for the accumulation of payroll withholdings until payment is remitted to third parties.

Undivided General Tax, Tangible Personal Tax, County Lodging Tax, Advance Estate Tax Fund

These various and separate funds maintain and account for the accumulation and disbursement of taxes for real property, intangible property, estate tax and hotel lodging tax.

Local Government Fund

To maintain and account for the accumulation and disbursement of State revenue sharing monies.

Gasoline Tax Fund

To maintain and account for the accumulation and disbursement of gasoline tax collections.

Motor Vehicle License Fund

To maintain and account for the accumulation and disbursement of automobile license and registration fee collection.

Trailer Tax Fund

To maintain and account for the accumulation and disbursement of mobile home tax collections.

(Continued)

Agency Funds

Undivided Interest Fund

To maintain and account for the accumulation and disbursement of the County's investment earnings.

Non-Entity Holdings Fund

To account for funds held for various separate agencies, boards and commissions where the County serves as fiscal agent only.

Clerk of Courts, Common Pleas Court-Probate Court, Child Support Enforcement Agency, County Court, Juvenile Court, Prosecuting Attorney, Sheriff and Engineer Fund

These various and separate funds maintain and account for court fees, alimony, child support, restitution, boarding home fees, donations, funds held in escrow and other similar resources and uses. These funds are held in segregated cash accounts outside of the County treasury.

Other Agency Funds

To maintain and account for resources and uses for taxes, escrowed monies, licenses, estates and similar revenue sources. The following funds represent the less significant agency funds of the County.

Undivided Trailer Tax	Massie Wayne Capacity Fees
Cigarette Tax	Non-Participant Rotary
Undivided Wireless 911 Government Assist	Forfeited Land
Real Estate Advance	Housing Trust Authority
Life Insurance	Undivided Auction Proceeds
State	Recorder's Escrow Rotary
Miami Conservancy District	Undivided Indigent Fees
Ohio Elections Commission	Municipal ORD Violation Indigent
Sewer Rotary	New Undivided Auction Proceeds
Outside Entity Flowthru	Water Department
Unidentified Deposits	Dog and Kennel
Payment in Lieu of Taxes	Mary Haven
Undivided Public Utility Deregulation	Building Inspection
Tactical Response Unit	Tax Maps
Escrow Rotary	Recorder
Undivided Income Tax – Real Property	Board of Elections
Notary Public	Records Center
Zoning Board	Board of Developmental Disabilities
Undivided Federal and State Forfeitures	Treasurer
Refundable Deposits	Licensing
Court Ordered Sheriff Sales	Real Estate
Undivided Drug Task Force Seizures	Auditor

STATISTICAL SECTION

STATISTICAL TABLES

This part of the County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the county's overall financial health.

Contents

Financial Trends	S 2 – S 13
These schedules contain trend information to help the reader understand how the County's financial position has changed over time.	
Revenue Capacity	S 14 – S 25
These schedules contain information to help the reader understand and assess the factors affecting the County's ability to generate its most significant local revenue sources, the property tax and the sales tax.	
Debt Capacity	S 26 – S 35
These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.	
Economic and Demographic Information	S 36 – S 39
These schedules offer economic and demographic indicators to help the reader understand the environment within which the County's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	
Operating Information	S 40 – S 57
These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.	
Sources Note:	
Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

Coverage	1.19	1.36	1.47	1.57

(1) Additional Information on the various bond issues can be found in Note 13.

(2) Gross revenues include operating revenues plus interest income.

(3) Direct operating expenses include operating expenses less depreciation.

(4) Tap-in fees are the initial fee to new customers for connection to the existing system and are accounted for as nonoperating revenues - capital contributions - tap in fees. The Bond Council for the County is of the opinion that tap-in fees should be included in the calculation for enterprise revenue bond coverage.

(5) In 2005 both the Water and Sewer TIF bonds were refunded. The principal amount of the refunding portion is not reflected in the 2005 principal payment amount when calculating coverage.

Sources:

(1) Warren County Office of Economic Development

(a) Data starting in 2001 may be higher/lower than expected due to a change in how companies reported business information from previous years. NAICS codes were utilized for 2000-2008, creating some differences in reporting categories and patterns. Employment Distribution by Occupation Statistics are reflective of January of each year. In 2009 information was gathered from the Employment & Wage Industry Tool, Ohio Dept. of Job and Family Service.

(2) US Department of Commerce, Bureau of Economic Analysis information is only available through 2009 for the presentation of 2010 statistics, the County is using the latest information available.

(a) Per Capita Income is only available by County, Total Personal Income is a calculation

(3) State Department of Labor Statistics

(4) The US Census Bureau in 2000 reported the population for Warren County at 158,383.

Our annual population growth has previously been estimated to average 4,000 to 6,000 per year.

The US Census Bureau in 2010 reports our population at 212,693. This is an increase of 54,310 over the 10 years or 5,431 each year 2001 through 2009. To more accurately reflect total personal income, we have increased our annual population numbers an additional 5,431 from years 2001 through 2009.

FINANCIAL STATEMENT

APPENDIX C

**FINANCIAL STATEMENT
COUNTY
OHIO REVISED CODE § 133.07**

STATE OF OHIO)
) SS.
COUNTY OF WARREN)

I, Nick Nelson, County Auditor of Warren County, Ohio, do hereby certify that the following statements concerning the finances of said County are true and correct as they appear from the records in my office:

1. ASSESSED VALUATION of the taxable property of the County, as shown on the tax duplicate for the year 2010: \$5,675,303,520

2. Total amount of all bonds, notes and certificates of indebtedness ("securities") issued and outstanding (do NOT include industrial development or hospital revenue bonds issued pursuant to ORC Chs. 165 and 140, respectively), and including the present issue of \$ -0- : \$30,231,082

3. Exempt debt:
 - [1] Securities issued in anticipation of the levy or collection of special assessments (excluding County portion): \$11,541,112
 - [2] Securities described in ORC § 307.201, for subways: \$ _____
 - [3] Self-supporting securities issued for any purposes including, without limitation any of the following: \$ _____
 - (a) Water systems or facilities: \$ _____
 - (b) Sanitary sewerage, surface and storm water drainage systems or facilities: \$ _____
 - (c) County or joint county scrap tire facilities: \$ _____
 - (d) Parking facilities: \$ _____
 - (e) Facilities for the care or treatment of the sick or infirm, and for housing their families: \$ _____
 - (f) Public attraction facilities (recreational, sports, museums, etc.): \$ _____
 - (g) Facilities for natural resources exploration, development, recovery, use and sale: \$ _____
 - (h) Correctional, detention and rehabilitation facilities: \$ _____
 - [4] Securities issued for the purpose of purchasing, constructing, improving, or extending sewerage facilities, to the extent that an agreement entered into with another subdivision requires payment to the County of amounts equivalent to debt charges on the securities: \$ _____
 - [5] Voted general obligation securities issued for the purpose of permanent improvements for sewerage or water facilities to the extent that the total principal amount of voted securities outstanding does not exceed two percent of the County's tax valuation: \$ _____
 - [6] Securities issued for permanent improvements to house agencies, departments, boards, or commissions of the County or municipalities in the County, for the amount of lease payments equivalent to debt charges on the securities: \$ _____

- [7] Securities issued pursuant to ORC §§ 133.08 (revenue bonds), 133.12 (emergencies), or 135.52 (investment anticipatory securities): \$5,085,000
- [8] Securities issued for the purpose of road, highway, bridge, or viaduct permanent improvements or for procuring and maintaining computer systems for the office of the clerk of any county-operated municipal court or common pleas court (including probate, juvenile, or domestic relations divisions) if legislation authorizing the issuance of the securities includes a covenant to appropriate from moneys distributed to the County pursuant to division (B) of ORC §§ 2101.162, 2151.541, 2153.081, 2301.031 or 2303.201 or Chs. 4501, 4503, 4504 or 5735 sufficient to cover debt charges relating to the securities when due: \$ _____
- [9] Securities issued for the purpose of a County, multicounty or multicounty-municipal jail, workhouse, juvenile detention or correctional facility: \$13,604,970
- [10] Securities issued for any permanent improvement or class/group of permanent improvements listed in a resolution adopted under ORC § 5739.026(D), to the extent that the legislation authorizing moneys received from taxes authorized under ORC §§ 5739.023 and 5739.026, an amount sufficient to pay debt charges on the securities that are so pledged: \$ _____
- [11] Securities issued for county or joint county solid or hazardous waste collection or recycling facilities: \$ _____
- [12] Securities issued for a port authority or municipal education and cultural facility under ORC §§ 307.671 or 307.672(B)(1), respectively: \$ _____
- [13] Securities issued in anticipation of the collection of current revenues for the fiscal year or other period not to exceed twelve consecutive months, or securities issued in anticipation of the collection of the proceeds from a specifically identified voter-approved tax levy; securities issued for the purposes described in ORC § 133.23; securities issued under ORC Chs. 122, 725, 761 or ORC § 131.23; or bonds issued to pay final judgments or court approved settlements under authorizing laws and securities issued under ORC § 2744.081: \$ _____
- [14] Securities issued for energy conservation measures under ORC § 307.04: \$ _____
- [15] Securities issued for a sports facility under ORC § 307.673: \$ _____
- [16] Voting machine notes issued pursuant to ORC § 3507.02 and vote tabulating equipment notes issued pursuant to ORC § 3506.03: \$ _____
- [17] Securities issued for permanent improvements if the principal is payable from federal or state grants: \$ _____
- [18] Securities issued to evidence loans from the state capital improvement fund or infrastructure bank pursuant to ORC Ch. 164 and ORC § 5531.09, respectively: \$ _____
- [19] Securities issued for permanent improvements equal to the payments in lieu of taxes pledged for repayment under ORC §§ 1728.11, 1728.111, 5709.42, 5709.74 or 5709.79: \$ _____

[20]	Securities issued equal to property tax replacement payments received under ORC §§ 5727.85 or 5727.86:	\$ _____	
[21]	Securities issued under ORC § 755.17 if the legislation authorizing the issuance includes a covenant to appropriate from revenue received from a tax authorized under ORC §§ 5739.026(A)(5) and 5741.023, an amount sufficient to pay debt charges on the securities, and the board of county commissioners pledges that revenue pursuant to ORC § 755.171:	\$ _____	
[22]	Sales tax supported bonds issued pursuant to ORC § 133.081:	\$ _____	
[23]	Bonds or notes issued under ORC § 133.60 if the legislation authorizing issuance includes a covenant to appropriate from revenue received from a tax authorized under ORC §§ 5739.026(A)(9) and 5741.023, an amount sufficient to pay the debt charges on the bonds or notes:	\$ _____	
[24]	Securities issued under ORC § 3707.55 for general health district acquisition of real property:	\$ _____	
[25]	Securities issued for urban renewal under ORC § 303.46:	\$ _____	
[26]	Securities outstanding on October 30, 1989, and then excepted from the net indebtedness calculation or from ORC § 133, and any refundings of those securities:	\$ _____	
4.	Total of items in Line 3:		\$30,231,082
5.	Total securities subject to direct limitation (Line 2 minus Line 4):		\$0
	a. Sinking Fund or Bond Retirement Fund applicable to the principal thereof:	\$ _____	
	b. Net amount subject to overall debt limitation (Line 5 minus Line 5a):		\$0
6.	Securities included in Line 5 above but issued WITHOUT AUTHORITY OF AN ELECTION:		\$0
	a. Amount in Sinking Fund or Bond Retirement Fund applicable to the payment of principal thereof:	\$0	
	b. Line 6a minus Line 6b:		\$0
	c. Amount of Line 1 times .01:		\$56,753,035
	d. Line 6c must be greater than Line 6b:		\$ _____
<p>I FURTHER CERTIFY that the income, after covering the cost of all operating expenses, of the facilities described in Line 3 is sufficient to pay interest on and retire the securities for each such use.</p> <p>The net indebtedness of the County, without a vote of the electors, issued for the purpose of paying the County's share of the cost of the construction, improvements, maintenance or repair of the state highways, shall not exceed an amount equal to .005 times the amount of Line 1.</p> <p>The amount on Line 5b shall never exceed, without the vote of the electors, an amount equal to one of the following limitations that applies to the County:</p>			
	(1) a county with a valuation not exceeding \$100,000,000, 3% of that tax valuation;		
	(2) a county with a tax valuation exceeding \$100,000,000 but not exceeding \$300,000,000, \$3,000,000 plus 1½% of that valuation in excess of \$100,000,000; and		
	(3) a county with a tax valuation exceeding \$300,000,000, \$6,000,000 plus 2½% of that tax valuation in excess of \$300,000,000.		
7.	Amount of bonds or notes listed in Line 2 issued in the current year:		\$0
8.	Total amount of bonds or notes expected to be issued in the current year:	\$0	

9. Amount of bonds or notes issued in the current year for organizations described in Internal Revenue Code § 501(c)(3) (i.e., non-profit hospital, nursing home or housing corporations) by the County or any of its agencies (i.e., County Hospital Commission): \$0

10. Capitalized leases entered into by the County during the current year: \$0

Lessor Property Leased

Face Amount of Lease

11. Total amount of capitalized leases expected to be entered into by the County during the current year: \$0

12. Total of Lines 8, 9 and 10: \$0

IN WITNESS WHEREOF, I have hereunto set my hand this 1st day of August, 2010.
